**Career Planning for Research Bioscientists** Sarah Blackford, 2012-09-10. Career Planning for Research Bioscientists is an essential careers guide for bioscience doctoral students and postdoctoral researchers. It contains a wealth of information and resources specifically targeted at research bioscientists with practical strategies to enhance career success in an increasingly competitive job market. Advice on how to write a winning CV together with examples adapted for different jobs is presented as well as practical exercises to assist with skills analysis and decision making. Profiles of PhD qualified bioscientists in a range of professions including academic research, industry science, communication management and consultancy provide valuable insights into how others have managed their careers and tactics such as networking and using social media demonstrate how new opportunities can be discovered. The content of this book is aimed primarily at research bioscientists; however, much of the advice and information will be a useful reference for other students and researchers looking for an effective career planning strategy. A companion website with additional resources is available at [www.wiley.com/go/blackford/careerplanning](http://www.wiley.com/go/blackford/careerplanning) and you can visit Sarah Blackford's blog at [www.biosciencecareers.org](http://www.biosciencecareers.org) for more information.

**Managing Your Academic Career** Vicki L. Baker, 2022-04-28. The definitive resource for mid-career professionals in the academy, this book provides a step-by-step guide to reimagining the mid-career stage regardless of career goals, whether aiming for full professorship or an administrative path. Drawing on higher education, organizational studies and human resource fields, Essential guidance for scholars of faculty work, faculty developers, mid-career faculty members and institutional leaders to build a strong foundation to design a diversified portfolio of mid-career stage programming is assured. The stories, examples, literature and resources shared throughout this comprehensive work will provide inspiration and reality checks to mid-career faculty and the individuals charged with better supporting them. Readers will be able to identify their career or departmental institutional goals and next steps, determine the gaps in needed skills, tools and experiences to support goal achievement as next steps are pursued, manage the process of taking newfound skills, tools, strategies and resources to arrive at the intended destination. Higher education faculty administrators and other academic leaders will be empowered to take control of the mid-career stage by using the resources, strategies and tools offered throughout the book to build, implement and assess a robust mid-career faculty development program.

**Perspective**, 1999. **Life Science Careers** Jasna Markovac, Kim E. Barrett, Howard Garrison, 2024-05-09. This book is

written for the many Life Science PhD students who may pursue careers outside of academic research Even though the biggest portion of students will ultimately pursue other paths university education trains them mostly for the academic track Students often miss information resources contacts or opportunities to explore other options In response the editors assembled a diverse group of authors from all fields related to Life Science research The chapters offer a peek behind the curtain of each industry and offer guidance on how to move towards such roles Through a high level of uniformity students will get a plethora of career stories each providing job opportunities job descriptions resources and useful contact information The purpose of this volume is to illustrate the many excellent opportunities that are available to life science PhDs which will still allow them to make significant contributions to science      **Make Money with Your Studio** Tom
