Classen, 2009-12-15 Although the city as a central entity did not simply disappear with the Fall of the Roman Empire the development of urban space at least since the twelfth century played a major role in the history of medieval and early modern mentality within a social economic and religious framework Whereas some poets projected urban space as a new utopia others simply reflected the new significance of the urban environment as a stage where their characters operate very successfully As today the premodern city was the locus where different social groups and classes got together sometimes peacefully sometimes in hostile terms The historical development of the relationship between Christians and Jews for instance was deeply determined by the living conditions within a city By the late Middle Ages nobility and bourgeoisie began to intermingle within the urban space which set the stage for dramatic and far reaching changes in the social and economic make up of society Legal historical aspects also find as much consideration as practical questions concerning water supply and sewer systems Moreover the early modern city within the Ottoman and Middle Eastern world likewise finds consideration Finally as some contributors observe the urban space provided considerable opportunities for women to carve out a niche for themselves in economic terms

Indecent Exposure Nicole Nolan Sidhu, 2016-03-08 Men and women struggling for control of marriage and sexuality narratives that focus on trickery theft and adultery descriptions of sexual activities and body parts the mention of which is prohibited in polite society such are the elements that constitute what Nicole Nolan Sidhu calls a medieval discourse of obscene comedy in which a particular way of thinking about men women and household organization crosses genres forms and languages Inviting its audiences to laugh at violations of what is good decent and seemly obscene comedy manifests a semiotic instability that at once supports established hierarchies and delights in overturning them In *Indecent Exposure* Sidhu explores the varied functions of obscene comedy in the literary and visual culture of fourteenth and fifteenth century England In chapters that examine Chaucer's *Reeve's Tale* and *Legend of Good Women* Langland's *Piers Plowman* Lydgate's *Mumming at Hertford* *Troy Book* and *Fall of Princes* the *Book of Margery Kempe* the *Wakefield Second Shepherds Play* the *Towneley Noah* and other works of drama Sidhu proposes that Middle English writers use obscene comedy in predictable and unpredictable contexts to grapple with the disturbances that English society experienced in the century and a half following the Black Death For Sidhu obscene comedy emerges as a discourse through which writers could address not only issues of gender sexuality and marriage but also concerns as varied as the conflicts between Christian doctrine and lived experience the exercise of free will the social consequences of violence and the nature of good government

Suffolk in the Middle Ages

Norman Scarfe,2007 Norman Scarfe explores place names the Sutton Hoo ship burial the coming of Christianity and the abbey at Bury St Edmunds concluding with an evocative study of five Suffolk places Southwold Dunwich Yoxford and Wingfield and Fressingfield The modern landscape of Suffolk is still essentially a medieval one though much of it is even earlier the five hundred medieval churches and ten thousand listed houses of historic or architectural interest and the Hundred lanes going back at least to the tenth century are often found to be set in a landscape created before the Roman conquest Suffolk in the Middle Ages opens with a discussion of the earliest written records the place names as a guide to settlement patterns including the setting of Sutton Hoo Among the grave goods found in that celebrated ship and discussed here was the whetstone sceptre asked to carry it from its showcase in the British Museum to the laboratory the author acknowledges a closer feeling of involvement even than helping to re open the ship in its mound in 1966 His explanation of the presence of the whetstone sceptre printed here has never been challenged The identification of a carved Anglo Saxon cross at Iken in 1977 prompted the essay here on St Botolph and the coming of East Anglian Christianity This leads to a consideration of the Danish invasion of East Anglia and a reexamination of the posthumous victory of King Edmund and Christianity as portrayed in an imaginary Breckland warren on the front of this book Scarfe s carefully reasoned argument that the Metropolitan Museum s famous walrusivory cross was made for the monks choir at Bury has never been refuted Life in Bury abbey is vividly reconstructed it was the most richly documented flowering of the work of East Anglia s apostles Felix and Fursa which also led to the phenomenal establishment in Suffolk by 1086 of four hundred of the five hundred medieval churches In four East Suffolk essays Southwold Dunwich Yoxford and Wingfield are exposed to Norman Scarfe s interpretative skills He reveals a past few could have guessed at often quite as curious as the Two Strange Tales unravelled in his concluding pages
