My Poultry Day by Day Alfred Gibson, 1917 *In Full Color* Rachel Dolezal, Storms Reback, 2017-03-28 A lot of people have made up their minds about Rachel Dolezal But none of them know her real story In June 2015 the media outed Rachel Dolezal as a white woman who had knowingly been passing as Black When asked if she were African American during an interview about the hate crimes directed at her and her family she hesitated before ending the interview and walking away Some interpreted her reluctance to respond and hasty departure as dishonesty while others assumed she lacked a reasonable explanation for the almost unprecedented way she identified herself What determines your race Is it your DNA The community in which you were raised The way others see you or the way you see yourself With *In Full Color* Rachel Dolezal describes the path that led her from being a child of white evangelical parents to an NAACP chapter president and respected educator and activist who identifies as Black Along the way she recounts the deep emotional bond she formed with her four adopted Black siblings the sense of belonging she felt while living in Black communities in Jackson Mississippi and Washington DC and the experiences that have shaped her along the way Her story is nuanced and complex and in the process of telling it she forces us to consider race in an entirely new light not as a biological imperative but as a function of the experiences we have the culture we embrace and ultimately the identity we choose The Woodhen Clifford Frith, 2013-06-12 This book tells the fascinating success story of saving the flightless Woodhen of Lord Howe Island This unique large rail an iconic and highly endangered Australian bird was at the very brink of extinction with just 15 individuals found in 1980 when bold and risky actions were taken to save it The book begins with the discovery and ecology of Lord Howe Island It then details the history of the Woodhen its place among the rails and their evolution of flightlessness the planning implementation and trials tribulations and successes of the captive breeding programme and the way in which the wild population recovered The ecology behaviour and breeding biology of this unique flightless island rail are also discussed The text is accompanied by numerous photographs and drawings This is a story of survival yet the bird remains highly endangered as it is under constant potential threat which could tip it over the brink and to extinction The Woodhen provides gripping insights into the potential for both losing and saving vertebrate species Winner of a 2014 Whitley Awards Certificate of Commendation for Historical Zoology
