Hovannisian, 2017-07-28 World War I was a watershed a defining moment in Armenian history Its effects were unprecedented in that it resulted in what no other war invasion or occupation had achieved in three thousand years of identifiable Armenian existence This calamity was the physical elimination of the Armenian people and most of the evidence of their ever having lived on the great Armenian Plateau to which the perpetrator side soon gave the new name of Eastern Anatolia The bearers of an impressive martial and cultural history the Armenians had also known repeated trials and tribulations waves of massacre captivity and exile but even in the darkest of times there had always been enough remaining to revive rebuild and go forward This third volume in a series edited by Richard Hovannisian the dean of Armenian historians provides a unique fusion of the history philosophy literature art music and educational aspects of the Armenian experience It further provides a rich storehouse of information on comparative dimensions of the Armenian genocide in relation to the Assyrian Greek and Jewish situations and beyond that paradoxes in American and French policy responses to the Armenian genocides The volume concludes with a trio of essays concerning fundamental questions of historiography and politics that either make possible or can inhibit reconciliation of ancient truths and righting ancient wrongs **Night on Earth** Davide Rodogno, 2021-12-09 Night on Earth is a broad ranging account of international humanitarian programs in Central and Eastern Europe the Balkans and the Near East from 1918 to 1930 Davide Rodogno shows that international relief and development were intertwined long before the birth of the United Nations with humanitarians operating in a region devastated by war and famine and in which state sovereignty was deficient Influenced by colonial motivations and ideologies these humanitarians attempted to reshape entire communities and nations through reconstruction and rehabilitation programmes The book draws on the activities of a wide range of secular and religious organisations and philanthropic foundations in the US and Europe including the American Relief Administration the American Red Cross the Quakers Save the Children the Near East Relief the American Women s Hospitals the League of Nations and the International Committee of the Red Cross **Children of Armenia** Michael Bobelian, 2009-09-01 An illuminating and powerful chronicle of the historical yet oft forgotten Armenian genocide and its devastating aftermath From 1915 to 1923 the Ottoman Empire drove the Armenians from their ancestral homeland and slaughtered 1.5 million of them in the process While there was an initial global outcry and a movement led by Woodrow Wilson to aid the starving Armenians the promises to hold the perpetrators accountable were never fulfilled In this groundbreaking work Michael Bobelian profiles the leading players Armenian activists and assassins Turkish diplomats U S officials each of whom played a significant role in furthering or opposing the century long Armenian quest for justice in the face of Turkish denial of its crimes and reveals the events that have conspired

to eradicate the forgotten Genocide from the world's memory Atrocity Labelling Markus P. Beham, 2022-11-03 Atrocity Genocide War crime Crime Against Humanity Such atrocity labels have been popularized among international lawmakers but with little insight offered into how and when these terms are applied and to what effect What constitutes an event to be termed a genocide or war crime and what role does this play in the application of legal proceedings Markus P Beham through an interdisciplinary and comparative approach unpicks these terms to uncover their historical genesis and their implications for international criminal law initiatives concerned with atrocity The book uniquely compares four specific case studies Belgian colonial exploitation of the Congo atrocities committed against the Herero and Nama in German South West Africa the Armenian genocide and the man made Ukrainian famine of the 1930s Encompassing international law legal history and discourse analysis the concept of atrocity labelling is used to capture the meaning underlying the work of international lawyers and prosecutors historians and sociologists agenda setters and policy makers *American Churches and the First World War* Gordon L. Schaller, Jürgen Zimmerer, 2013-09-13 The Armenian Genocide has lately attracted a lot of attention despite the Turkish government's attempts at denial It has been developed into a central obstacle to Turkey's entry into the European Union As such it attracts the highest political and public attention What is largely ignored in the debate however is the fact that Armenians were not the only victims of the Young Turk's genocidal population policies What is still largely forgotten is the murder expulsion and deportation of other ethnic groups like Assyrians Greeks Kurds and Arabs by the Young Turks This not only increases the number of victims but also changes the perspective on the foundation of modern Turkey and as such on modern Turkish history more generally The Thematic Issue of the JGR the republication of which is proposed here is the first publication which addresses these wider issues It contributes not only to our understanding of the Young Turks population and extermination policies in all its complexities and so helping to bring the forgotten victims stories

back into genocide scholarship but to our understanding of modern Turkey more generally It is an indispensable tool for everybody interested in one of the great historical controversies of our time This book was published as a special issue of the Journal of Genocide Research **Fiction, Memory, and Ethnic Politics in the South Caucasus** Mikail Mamedov, Peter Orte, Nona Shahnazarian, Ulvi Ismayil, 2025-09-30 The book explores the aftermath of the disintegration of the Soviet Union and the effects of war and nationalism in the South Caucasus While the Soviet Union's dissolution seemed to promise democracy and liberalization the rise of nationalist movements in Armenia and Azerbaijan led to those countries becoming undemocratic monoethnic states which ethnically cleansed their largest minorities During the violence of the first stage of the Karabakh War 1992-1994 Armenians were expelled from Azerbaijan and Azerbaijanis were expelled from Armenia The persistence of this violent conflict through the second 2020 and third 2023 stages has led to competing incompatible national narratives and an entrenched imagination of the other as the enemy Explaining these events historical context by tracing them back to specific Soviet and Tsarist policies the contributors of this volume examine the impact of the Karabakh conflict on ordinary people's lives in Armenia and Azerbaijan by analyzing fiction film and other forms of public memory Ultimately they show how eternal enmity is a myth and point to potential solutions to the conflict This study will be useful to students and scholars of Soviet and Post Soviet History Nationalism Empire and Conflict Studies War Memories Stéphanie A.H. Impediments to the Prevention and Intervention of Genocide Samuel Totten, 2013 Academics NGOs the United Nations and individual nations are focused on the prevention and intervention of genocide Traditionally missions to prevent or intervene in genocide have been sporadic and under resourced The contributors to this volume consider some of the major stumbling blocks to the avoidance of genocide Bartrop and Totten argue that realpolitik is the major impediment to the elimination of genocide Campbell examines the lack of political will to confront genocide and Theriault describes how denial becomes an obstacle to intervention against genocide Loyle and Davenport discuss how intervention is impeded by a lack of reliable data on genocide violence and Macgregor presents an overview of the influence of the media Totten examines how the UN Convention on Genocide actually impedes anti genocide efforts and how the institutional configuration of the UN is itself often a stumbling block Addressing an issue that is often overlooked Travis examines the impact of global arms trade on genocide Finally Hiebert examines how international criminal prosecution of atrocities can impede preventive efforts and Hirsch provides an analysis of the strengths weaknesses and effectiveness of major international and national prescriptions developed over the last decade The result is a distinguished addition to Transaction s prestigious Genocide Studies series

analyses Covers areas and topics not included in any other companion of its type Examines the ongoing cultural social and political legacies of the Holocaust Includes discussions on non European and non Western geographies inter ethnic tensions and violence A Companion to the Holocaust is an essential resource for students and scholars of European German genocide colonial and Jewish history as well as those in the general humanities *Genocide in the Age of the Nation State* Mark Levene,2005-08-26 How should we understand genocide in the modern world As an aberration from the norms of a dominant liberal international society Or rather as a guide to the very dysfunctional nature of the international system itself The Meaning of Genocide is the first work of its nature to consider the phenomenon within a broad context of world historical development In this book Mark Levene sets out the conceptual issues in the study of genocide addressing the fundamental problems of defining genocide and understanding what we mean by perpetrators and victims before placing the phenomenon in the context of world history In an original and compelling argument Levene seeks to explain how state violence against a range of groups has emerged in tandem with the rise of the West to global dominance and the emergence of increasingly streamlined homogenous states Levene contends that it is in the relationship of these nation states to each other that we will find the well springs of some of the most poisonous tendencies in the modern world Thought provoking and beautifully constructed The Meaning of Genocide is the first of a major four volume survey Genocide in the Age of the Nation State which examines its subject within an extensive global and historical framework and which will become the definitive work on the subject The Armenian Genocide Paula Johanson,2017-12-15 The systematic extermination of about 1 5 million Armenians by the Ottoman government during and after WWI inspired the formulation of a new term that would come to haunt the modern civilized world genocide It was a harbinger of other genocides that would deeply scar and stain the twentieth century To this day Turkey denies the genocide instead claiming that the victims died of starvation or the violence of isolated gangs or the unintended effects of legitimate deportation These ongoing denials and evasions have generated enormous debate criticism and controversy within and without Turkey all of which is laid out here for readers to sift through and evaluate and within which they may pursue and locate the truth *Dark Pasts* Jennifer M. Dixon,2018-11-15 In Dark Pasts Jennifer M Dixon asks why states deny past atrocities and when and why they change the stories they tell about them In recent decades states have been called on to acknowledge and apologize for historic wrongs Some have apologized while others have silenced denied and relativized past crimes Dark Pasts unravels the complex and fraught processes through which state narratives of past atrocities are constructed contested and defended Focusing on Turkey s narrative of the Armenian Genocide and Japan s narrative of the Nanjing Massacre Dixon shows that international pressures increase the likelihood of change in states narratives of their own dark pasts even as domestic considerations determine their content Combining historical richness and analytical rigor Dark Pasts is a revelatory study of the persistent presence of the past and the politics that shape narratives of state wrongdoing
