Loons Postcard Collection Peter Roberts, 1990-05-01 Birding , 1989 The Book of Postcard Collecting Thomas E. Range, 1980 *The Line Tender* Kate Allen, 2020-04-21 Funny poignant and deeply moving *The Line Tender* is a story of nature's enduring mystery and a girl determined to find meaning and connection within it. Wherever the sharks led Lucy Everhart's marine biologist mother was sure to follow. In fact, she was on a boat far off the coast of Massachusetts collecting shark data when she died suddenly. Lucy was seven. Since then, Lucy and her father have kept their heads above water thanks in large part to a few close friends and neighbors. But June of her twelfth summer brings more than the end of school and a heat wave to sleepy Rockport. On one steamy day, the tide brings a great white and then another tragedy cutting short a friendship everyone insists was meaningful but no one can tell Lucy what it all meant. To survive the fresh wave of grief, Lucy must grab the line that connects her depressed father, a stubborn fisherman, and a curious old widower to her mother's unfinished research on the Great White's return to Cape Cod. If Lucy can find a way to help this unlikely quartet follow the sharks her mother loved, she'll finally be able to look beyond what she's lost and toward what's left to be discovered. Postcards from the Road Jonathan Day, 2014-05-01 Walker Evans said in his 1958 introduction to Robert Frank's *The Americans*: "For the thousandth time it must be said that pictures speak for themselves wordlessly visually or they fail. The images revolutionized post-war American photography. With their candid images of men and women from all classes and walks of life, the photographs presented a very different story than that portrayed by the wholesome caricature of mid-century prosperity pervading American photography at the time. Although initially dismissed by his peers for his pioneering work, Frank was ultimately credited with changing the course of the art form, and his photography holds a secure status in the history of twentieth-century art. And he did all this without words. It seems appropriate then and not a little overdue that Jonathan Day has created a book that expounds, explores, and examines Frank's work pictorially. Taking Frank's iconic images as his point of reference, Day shot new photographs that commented on the road and contemporary America. Here these images are paired with critical commentary that details the aspects of the work that are visually expounded and explained in Day's complementary images. A visual entryway to the photographs and themes of this iconic book in the history of

photography Postcards from the Road represents an innovative carefully considered departure from standard photographic textbooks

Postcards Nancy Ann Sanderson, 2005 *The Routledge Handbook of Mobilities* Peter Adey, David Bissell, Kevin Hannam, Peter Merriman, Mimi Sheller, 2014-01-10

The 21st century seems to be on the move perhaps even more so than the last. With cheap travel and more than two billion cars projected worldwide for 2030, and yet all this mobility is happening incredibly unevenly at different paces and intensities with varying impacts and consequences to the extent that life on the move might be actually quite difficult to sustain environmentally, socially, and ethically. As a result, mobility has become a keyword of the social sciences, delineating a new domain of concepts, approaches, methodologies, and techniques which seek to understand the character and quality of these trends. This Handbook explores and critically evaluates the debates, approaches, controversies, and methodologies inherent to this rapidly expanding discipline. It brings together leading specialists from a range of backgrounds and geographical regions to provide an authoritative and comprehensive overview of this field, conveying cutting edge research in an accessible way whilst giving detailed grounding in the evolution of past debates on mobilities. It illustrates disciplinary trends and pathways from migration studies and transport history to communications research, featuring methodological innovations and developments and conceptual histories from feminist theory to tourist studies. It explores the dominant figures of mobility from children to soldiers and the mobility impaired, the disparate materialities of mobility such as flows of water and waste to the vectors of viruses, key infrastructures such as logistics systems to the informal services of megacity slums, and the important mobility events around which our world turns from going on vacation to the commute to the catastrophic disruption of mobility systems. The text is forward thinking, projecting the future of mobilities as they might be lived, transformed, and studied, and possibly brought to an end. International in focus, the book transcends disciplinary and national boundaries to explore mobilities as they are understood from different perspectives, different fields, countries, and standpoints. This is an invaluable resource for all those with an interest in mobility across disciplinary boundaries and areas of study.
