pinpoints some of the issues and challenges past and present that confront the study of prehistory and its investigators Renfrew then offers a summary of human prehistory from early hominids to the rise of literate civilization that is refreshingly free of conventional wisdom and grand unified theories In this invaluable account Colin Renfrew delivers a meticulously researched and passionately argued chronicle about our life on earth and our ongoing quest to understand it [A Cultural History of Money in Antiquity](#) Stefan Krmnicek,2021-03-11 The origins of the modern Western concept of money can be traced back to the earliest electrum coins that were produced in Asia Minor in the seventh century BCE While other forms of currency shells jewelry silver ingots were in widespread use long before this the introduction of coinage aided and accelerated momentous economic political and social developments such as long distance trade wealth creation and the social differentiation that followed from that and the financing of military and political power Coinage though adopted inconsistently across different ancient societies became a significant marker of identity and became embedded in practices of religion and superstition And this period also witnessed the emergence of the problems of money inflation monetary instability and the breakup of monetary unions which have surfaced repeatedly in succeeding centuries Drawing upon a wealth of visual and textual sources [A Cultural History of Money in Antiquity](#) presents essays that examine key cultural case studies of the period on the themes of technologies ideas ritual and religion the everyday art and representation interpretation and the issues of the age **[A Modern Legal History of Treasure](#)** N.M. Dawson,2023-04-06 This book examines treasure law and practice from the rise of the new science of archaeology in the early Victorian period to the present day Drawing on largely unexamined state records and other archives the book covers several legal jurisdictions England and Wales Scotland Ireland pre and post independence and post partition Northern Ireland From the Mold gold cape 1833 to the Brough hoard 1896 from Sutton Hoo 1939 to the Galloway hoard 2014 the law of treasure trove and the Treasure Act 1996 are considered through the prism of notable archaeological discoveries and from the perspectives of finders landowners archaeologists museum professionals collectors the state and the public Literally and metaphorically treasure law is revealed as a ground breaking chapter in the history of the legal protection of cultural property and cultural heritage in Britain and Ireland [Cultural Property Crime and the Law](#) Michelle D. Fabiani,Kate Melody Burmon,Saskia Hufnagel,2024-04-23 This book explores innovative approaches to using and operating within and around both criminal law and civil law in the detection investigation and restitution of illicit cultural property The volume brings together a wide range of authors who research and work in combatting cultural property crime It explores the normative tensions and intersections between civil and criminal law and where they complement each other in the field It focuses on innovative legal solutions to the unique challenges presented when facing a transnational form of crime that must consider varying structures of law and order as well as a deep understanding of the heritage in question both in past and the present cultures The collection examines what both areas of law contribute to preventing cultural property crime from occurring holding offenders

responsible before the law and returning objects to their rightful owners and or places of origin Combining the perspectives of academics and practitioners the volume highlights voices from around the globe using this range of experience to explore new ideas and applications of legal theory and practice to cases involving cultural property crimes The book will be of interest to academics and practitioners in cultural property crime in the fields of criminology law archaeology museum studies political science economics and law enforcement *The Oxford Handbook of Greek and Roman Art and Architecture* Clemente Marconi,2015 An innovative and up to date synopsis of the field of Greek and Roman Art and Architecture filling a genuine need in the literature *Discovering Babylon* Rannfrid Thelle,2018-10-10 This volume presents Babylon as it has been passed down through Western culture through the Bible classical texts in Medieval travel accounts and through depictions of the Tower motif in art It then details the discovery of the material culture remains of Babylon from the middle of the 19th century and through the great excavation of 1899 1917 and focuses on the encounter between the Babylon of tradition and the Babylon unearthed by the archaeologists This book is unique in its multi disciplinary approach combining expertise in biblical studies and Assyriology with perspectives on history art history intellectual history reception studies and contemporary issues **Challenging the Dichotomy** Les Field,Cristobal Gnecco,Joe Watkins,2016-12-06 Challenging the Dichotomy explores how dichotomies regarding heritage dominate the discussions of ethics practices and institutions Contributing authors underscore the challenge to the old paradigms from multiple forces The case studies and discourses both ethnographic and archaeological arise from a wide variety of regional contexts and cultures
