Fiction, 1876-1983: Titles R.R. Bowker Company. Department of Bibliography, R.R. Bowker Company. Publications Systems Department, 1983 *Religion in Science Fiction* Steven Hrotic, 2014-07-31 Religion in Science Fiction investigates the history of the representations of religion in science fiction literature Space travel futuristic societies and non human cultures are traditional themes in science fiction Speculating on the societal impacts of as yet undiscovered technologies is after all one of the distinguishing characteristics of science fiction literature A more surprising theme may be a parallel exploration of religion its institutional nature social functions and the tensions between religious and scientific worldviews Steven Hrotic investigates the representations of religion in 19th century proto science fiction and genre science fiction from the 1920s through the end of the century Taken together he argues that these stories tell an overarching story a metanarrative of an evolving respect for religion paralleling a decline in the belief that science will lead us to an ideal and religion free future Science fiction s metanarrative represents more than simply a shift in popular perceptions of religion it also serves as a model for cognitive anthropology providing new insights into how groups and identities form in a globalized world and into how crucial a role narratives may play Ironically this same perspective suggests that science fiction as it was in the 20th century may no longer exist **Fiction, 1876-1983: Authors** R.R. Roger Zelazny F. Brett Cox, 2021-05-11 Challenging convention with the SF nonconformist Roger Zelazny combined poetic prose with fearless literary ambition to become one of the most influential science fiction writers of the 1960s Yet many critics found his later novels underachieving and his turn to fantasy a disappointment F Brett Cox surveys the landscape of Zelazny s creative life and contradictions Launched by the classic 1963 short story A Rose for Ecclesiastes Zelazny soon won the Hugo Award for Best Novel with And Call Me Conrad and two years later won again for Lord of Light Cox looks at the author s overnight success and follows Zelazny into a period of continued formal experimentation the commercial triumph of the Amber sword and sorcery novels and renewed acclaim for Hugo winning novellas such as Home Is the Hangman and 24 Views of Mt Fuji by Hokusai Throughout Cox analyzes aspects of Zelazny s art from his preference for poetically alienated protagonists to the ways his plots reflected his determined individualism Clear eyed and detailed Roger Zelazny provides an up to date reconsideration of an often misunderstood SF maverick National Union Catalog , 1978 Includes entries for maps and atlases Frank Herbert's "Dune" Kara Kennedy, 2022-09-30 This book offers a critical study of Frank Herbert s Dune 1965 the world s bestselling science fiction novel Kara Kennedy discusses the novel s exploration of politics and religion its influential ecological messages the focus on the human mind and consciousness the complex nature of the archetypal hero and the depiction of women s influence and control In Dune Herbert demonstrated that sophistication complexity and a multi layered world with three dimensional characters could sit comfortably within the science fiction genre

Underneath its deceptively simple storyline sits a wealth of historical and philosophical contexts and influences that make it a rich masterpiece open to multiple interpretations Kennedy's study shows the continuing relevance of the novel in the 21st century due to its classic themes and its concerns about the future of humanity as well as the ongoing nature of issues such as ecological disruption and conflicts over resources and religion *Library of Congress Catalogs* Library of Congress,1980
