Lords Of The Starship:

Lords of the Starship Mark S. Geston, 1978 **To Be Continued** Hope Apple, Merle L. Jacob, 2000-10-10 Keeping track of prolific authors who write fiction series was quite challenging for even the most ardent fan until *To Be Continued* debuted in 1995. Now readers will be happy that the soon to be released second edition has added 1 600 new books and 400 new series. *To Be Continued* Second Edition maintains the first volume's successful formula that featured concise A to Z entries packed with useful information including titles, publishers, publication dates, genre categories, annotations, and subject terms. Among the genre categories that can be found in *To Be Continued* are romance, science fiction, crime, novel, horror, adventure, fantasy, humor, western, war, Christian fiction, and others. *The Books of the Wars* Mark Geston, 2009-02-01 Super science weirdness and wonder. Jack Vance, Gene Wolfe, Cordwainer Smith. If you like your SF evocative and full of amazingly bizarre ideas that recall the best of such writers, you're gonna love Mark Geston. First, the remnants of humanity attempt to build a cathedral-like spaceship to flee a devastated Earth, but are we still at the mercy of the dark forces that brought on the first apocalypse? Next, it's been an 800-year battle after the invasion of Earth by transdimensional magic users. Now humans finally grasp the secrets of thaumaturgy and are ready to turn it against their foes. Finally, a young prophet faces down a super science Armageddon in a weirdly baroque far future. Three Geston novels of startling imagination and strangeness together for the first time. At the publisher's request, this title is sold without DRM. Digital Rights Management. Remarkable. The Encyclopedia of Science Fiction on Mark Geston **Contemporary Science Fiction Authors** Robert Reginald, 2009-01-01 This bio-bibliography of the golden age of the science fiction field includes 308 biographies compiled from questionnaires sent to the authors and chronological lists of 483 writers published works. This facsimile reprint of the 1975 edition includes a title index, introduction, and minor corrections. A now classic guide to the major and minor SF writers active in the early 1970s.

Sir Thomas Moore's head is stolen, and a messy rescue ensues. A mother sells a piece of her memory so her daughter can afford an education. Science fiction is the story of what if and what comes next. It's more playful, more inclusive, and more entertaining than it has ever been before, and as the world falls apart around us, it offers us a chance to understand how things could be better or just how a great story can get us through another night. *The Best Science Fiction and Fantasy of the Year, Volume Thirteen* brings together the very best clashes between zombies and unicorns, robots and fairies, spaceships and more, in a definitive volume that takes us everywhere from the distant future and the moons of our own solar system to one
