fields of research from which many conceptual foundations can be applied to team sports Based in this contemporary framework the current book presents the study of the players and the teams as complex systems using coordination dynamics to explain the emergence of the self organisation episodes that characterize them In addition this thinking line provides the reader with the ability to apply all these innovative concepts to their practical training scenarios Altogether it is intended to challenge the reader to re think their training strategy and to develop an original theory and practice of training specific to team sports

Physical Education, Health and Education Innovation Jorge Carlos-Vivas,Noelia Belando Pedreño,Manuel Gómez-López ,Paulo Jorge Martins,David Manzano Sánchez,2024-10-10 Today s society demands to train children and adolescents who develop in an environment based on respect and the promotion of educational values This aspect is especially relevant to promoting physical activity and its relationship with healthy habits such as the consumption of unprocessed foods the reduction of a sedentary lifestyle and the improvement of adherence to sports In this sense the World Health Organization warns that the current rates of overweight and obesity are very high and that we must combat them From formal education you can help improve healthy habits with educational programs and especially in Physical Education a subject where the work of physical social and cognitive well being has special relevance Since the 20th century studies and research that have aimed to combat unhealthy habits in educational centres and sports schools have increased Not only by promoting physical activity within the school but above all by seeking to generate adherence towards the future of students and athletes
