Iset invites you to explore the cyclical nature of love. As Ecdysis symbolizes transformation through evocative storytelling with rich imagery, a fiery rebirth, its haunting remnants, and its quiet resolution within the self. How can one think of art institutions in an age defined by planetary civil war, growing inequality, and proprietary digital technology? The boundaries of such institutions have grown fuzzy. They extend from a region where the audience is pumped for tweets to a future of neurocurating in which paintings surveil their audience via facial recognition and eye tracking to assess their popularity and to scan for suspicious activity. In *Duty Free Art*, filmmaker and writer Hito Steyerl wonders how we can appreciate or even make art in the present age. What can we do when arms manufacturers sponsor museums and some of the world's most valuable artworks are used as currency in a global futures market detached from productive work? Can we distinguish between information, fake news, and the digital white noise that bombards our everyday lives? Exploring subjects as diverse as video games, WikiLeaks, files, the proliferation of freeports, and political actions, she exposes the paradoxes within globalization, political economies, visual culture, and the status of art production. *In the House of the Hangman - Volume 9* John Bloomberg-Rissman, 2016-12-31 A marathon dance mix consisting of thousands of mashed-up text and image samples. In *In the House of the Hangman*, tries to give a taste of what life is like there where it is impolite to speak of the noose. It is the third part of the life project *Zeitgeist*. Spam. If you can't afford a copy, ask me for a pdf. *Unique Martial Sovereign* Hei Yasishen, 2020-02-26 The Dao gave birth to one, one gave birth to two, two gave birth to three, and three gave birth to all living things. All living things had no heart, and only the Dao could be formed. I wanted to become an immortal, but I only saw the word heartless on the Destiny Stone. It is five kainic acid, a combination of life and death. Then may I ask what is the way of this stinky dog. *The Teacher's Guide to Scratch - Intermediate* Kai Hutchence, 2024-03-13 *The Teacher's Guide to Scratch Intermediate* is a practical guide for educators preparing moderately complex coding lessons and assignments in their K-12

Crash Guy Haley, 2013-01-24 THE 0.01% HAVE DECIDED EARTH IS HISTORY Dariusz is an engineer whose career ended years ago now a man he's never met sits in a bar that doesn't exist and offers him a fresh start at a price Cassandra Sand to her friends is a space pilot who itches to get her hands on the controls and actually fly a ship rather than watch computers do it for her The Pointers the elite 0.01% who control virtually all wealth have seen the limitations of a plundered Earth and set their eyes on the stars And now Dariusz and Sand and a half million ambitious men and women just like them are sent out to extend the Pointers and the Market's influence across the galaxy But the colony fleet is sabotaged and the ESS Adam Mickiewicz crashes on an alien planet where one hemisphere is seared by perpetual daylight and the other shrouded in eternal night The castaways have the chance to create society from scratch if they're not destroyed by the hostile planet or their own leaders before they can even begin

Alone Out Here Riley Redgate, 2022-04-05 What do you stand for when you're one of the last left standing The year is 2072 Soon a volcanic eruption will trigger catastrophic devastation and the only way out is up While the world's leaders scientists and engineers oversee the frantic production of a space fleet meant to save humankind their children are brought in for a weekend of touring the Lazarus a high tech prototype spaceship But when the apocalypse arrives months ahead of schedule First Daughter Leigh Chen and a handful of teens from the tour are the only ones to escape the planet This is the new world a starship loaded with a catalog of human artifacts a frozen menagerie of animal DNA and fifty three terrified survivors From the panic arises a coalition of leaders

spearheaded by the pilot's enigmatic daughter Eli who takes the wheel in their hunt for a habitable planet. But as isolation presses in, their uneasy peace begins to fracture. The struggle for control will mean the difference between survival and oblivion, and Leigh must decide whether to stand on the side of the mission or of her own humanity. With aching poignancy and a tense heart in your mouth, this enthralling saga will stay with readers long after the final page. *Some Monster* Toby Cox, 2025-02-12. A small eternity I did spend in near solitude with naught but a madman as company. In consequence, I find it did leave me ill prepared to approach some circumstances. Sam 773 AF Lieutenant Thomas Walker's mission was successful, but he will not be thanked for it. His rediscovery of the colony's now repentant ancient enemy is not the salvation they hoped for and may have arrived too late. The increasing threat of the monstrous alien Others, coupled with fear-fueled unrest over a supposed alliance with the beings who forced the colony to rebuild from nothing, could all too easily spell their doom. Worse yet, it seems that Earth has not forgotten about the colony after all, and their intentions are at best unclear.
