Martin Bloomer, 2015-09-11 For centuries after the fall of the Roman empire the ability to write and speak pure Latin was the mark of the true scholar But although such skill was esteemed in medieval times the language of ancient Rome was as various as the styles of slaves and masters Latinity and Literary Society at Rome reaches back to the early Roman empire to examine attitudes toward latinity reviewing the contested origins of scholarly Latin in the polemical arena of Roman literature W Martin Bloomer shows how that literature's reflections on correct and incorrect speech functioned as part of a wider understanding of social relations and national identity in Rome Bloomer's investigation begins with questions about the sociology of Latin literature what interests were served by the creation of high style and how literary stylization constituted a system of social decorum and goes on to offer readings of selected texts Through studies of works ranging from Varro's *De lingua latina* to the verse fables of Augustine's freeman Phaedrus to the *Annals* of Tacitus Bloomer examines conflicting claims to style not simply to set true Latin against vulgarism but also to ask who is excluding whom why and by what means These texts exemplify the ways Roman literature employs representations of and reflections on proper and improper language to mirror the interests of specific groups who wished to maintain or establish their place in Roman society They show how writers sought to influence the fundamental social issue of who had the power to confer legitimacy of speech and how their works used claims of linguistic propriety to reinforce the definition of Romanness Through Bloomer's study latinity emerges as a contested field of identity and social polemic heretofore unrecognized in classical scholarship With its fresh interpretations of major and minor texts Latinity and Literary Society at Rome is a literary history that significantly advances our understanding of the place of language in ancient Rome Statecraft and Intellectual Renewal in Late Ming China Catherine Jami, Engelfriet, Gregory Blue, 2021-07-26 This is the first comprehensive work on one of the key figures in early Chinese Western relations Xu Guangqi was one of the first promoters of Western science in China worked together with the Jesuit Matteo Ricci on translations of Western science was one of the first Chinese converts a high ranking statesman organizer of a major calendar reform introduced Western weapons into the Chinese army etc etc His astonishingly multifarious activities are now for the first time pieced together within their Chinese and Western social intellectual and cultural context The result is a composite profile of this complex figure that is solidly anchored in Chinese

and Western primary sources A major achievement *Selected Poems of Anne Sexton* Anne Sexton,2000 A selection of poems by contemporary American author Anne Sexton drawn primarily from eight previously published collections *The Pollinctor* James T. Bowyer,1895 *A History of Palliative Care, 1500-1970* Michael Stolberg,2017-04-28 This book on the history of palliative care 1500 1970 traces the historical roots of modern palliative care in Europe to the rise of the hospice movement in the 1960s The author discusses largely forgotten premodern concepts like cura palliativa and euthanasia medica and describes how patients and physicians experienced and dealt with terminal illness He traces the origins of hospitals for incurable and dying patients and follows the long history of ethical debates on issues like truth telling and the intentional shortening of the dying patients lives and the controversies they sparked between physicians and patients An eye opener for anyone interested in the history of ethical decision making regarding terminal care of critically ill patients
