within which cultures meet and even merge Owens offers new insights into the works of Indian writers ranging from John Rollin Ridge Mourning Dove and D Arcy McNickle to N Scott Momaday Leslie Silko James Welch and Gerald Vizenor In his analysis of Indians in film he scrutinizes distortions of Indians as victims or vanishing Americans in a series of John Wayne movies and in the politically correct but false gestures of the more recent Dances With Wolves As Owens moves through his personal landscape in Oklahoma Mississippi California and New Mexico he questions how human beings collectively can alter their disastrous relationship with the natural world before they destroy it He challenges all of us to articulate through literature and other means messages of personal and environmental as well as cultural survival and to explore and share these messages by writing and reading across cultural boundaries

Other Destinies Louis Owens, 1994 This first book length critical analysis of the full range of novels written between 1854 and today by American Indian authors takes as its theme the search for self discovery and cultural recovery In his introduction Louis Owens places the novels in context by considering their relationships to traditional American Indian oral literature as well as their differences from mainstream Euroamerican literature In the following chapters he looks at the novels of John Rollin Ridge Mourning Dove John Joseph Mathews D Arcy McNickle N Scott Momaday James Welch Leslie Marmon Silko Louise Erdrich Michael Dorris and Gerald Vizenor These authors are mixedbloods who in their writing try to come to terms with the marginalization both of mixed bloods and fullbloods and of their cultures in American society Their novels are complex and sophisticated narratives of cultural survival and survival guides for fullbloods and mixedbloods in modern America Rejecting the stereotypes and cliches long attached to the word Indian they appropriate and adapt the colonizers language English to describe the Indian experience These novels embody the American Indian point of view the non Indian is required to assume the role of other In his analysis Owens draws on a broad range of literary theory myth and folklore structuralism modernism poststructuralism and particularly postmodernism At the same time he argues that although recent American Indian fiction incorporates a number of significant elements often identified with postmodern writing it contradicts the primary impulse of postmodernism That is instead of celebrating fragmentation ephemerality and chaos these authors insist upon a cultural center that is intact and recoverable upon immutable values and ecological truths Other Destinies provides a new critical approach to novels by American Indians It also offers a comprehensive introduction to the novels helping teachers bring this important fiction to the classroom

Grave Concerns, Trickster Turns Christopher A. LaLonde, 2002 Who am I What am I Where do I belong These grave concerns take a lifetime for most people to answer They become even trickier for American Indians who all too often face literal and figurative burial by those in power Such concerns permeate the works of Louis Owens a mixedblood writer of Choctaw Cherokee Irish descent In this first book length examination of Owens s writings Chris LaLonde focuses on five critically acclaimed novels The Sharpest Sight Bone Game Wolfsong Nightland and Dark River According to LaLonde Owens works his stories like a trickster turning ideas back against themselves and playing with contradictory possibilities

The People Who Stayed Janet McAdams, Geary Hobson, Kathryn Walkiewicz, 2012-10-09 The two hundred year old myth of the vanishing American Indian still holds some credence in the American Southeast the region from which tens of thousands of Indians were relocated after passage of the Indian Removal Act in 1830 Yet as the editors of this volume amply demonstrate a significant Indian population remained behind after those massive relocations The first anthology to focus on the literary work of Native Americans who trace their ancestry to people who stayed in southeastern states after 1830 this volume represents every state and every genre including short stories excerpts from novels poetry essays plays and even Web postings Although most works are contemporary the collection covers the entire post Removal era Some of the contributors are well known while others have only recently emerged as important literary voices All of the writers in The People Who Stayed affirm their Indian ancestry though many live outside the Southeast today As this anthology demonstrates indigenous Southeastern writing engages the local and the global the traditional and the modern While many speak to the prospects and perils of acculturation all the writers bear witness to the ways oblique or straightforward that they and their families continue to honor their Indian identities despite the legacy of removal In an introduction to the volume and in headnotes on each contributor the editors provide historical context and literary insight on the diversity of writing and lived experiences found in these pages All readers from students to scholars will gain newfound understanding of the literature and the human experience of Native people of the American Southeast

Nature Prose Dominic Head, 2022-08-15 Nature Prose seeks to explain the popularity and appeal of contemporary writing about nature This book intervenes in key areas of contemporary debate about literature and the environment and explores the enduring appeal of writing about nature during an ecological crisis Using a range of international examples with a focus on late twentieth and early twenty first century writing from Britain and the US Dominic Head argues that nature writing contains formal effects which encapsulate our current ecological dilemma and offer a fresh resource for critical thinking The environmental crisis has injected a fresh urgency into nature writing along with a new piquancy for those readers seeking solace in the nonhuman or for those looking to change their habits in the face of ecological catastrophe However behind this apparently strong match between the aims of nature writers and the desires of their readers there is also a shared mood of radical uncertainty and insecurity The treatment and

construction of nature in contemporary imaginative prose reveals some significant paradoxes beneath its dominant moods moods which are usually earnest sometimes celebratory sometimes prophetic or cautionary It is in these paradoxical moments that the contemporary ecological crisis is formally encoded in a progressive development of ecological consciousness from the late 1950s onwards Nature prose fiction and nonfiction is now contemporaneous with a defining time of crisis while also being formally fashioned by that context This is a mode of writing that emerges in a world in crisis but which is also in some ways in crisis itself With chapters on remoteness exclusivity abundance and rarity this book marks a turning point in how literary criticism engages with nature writing
