Flourishing Love Enrico Gnaulati, 2023-10-05

Flourishing Love is a secular defence of marriage and long term intimate partnership. It rejects a moral religious code to govern love lives and instead puts its faith in the human potential for couples to be benevolent, loyal and forgiving to preserve and enhance their romantic union. Dr Gnaulati draws on a variety of sources to present the joint emotional upkeep necessary to make an intimate relationship not just satisfactory but vital and to illustrate what these lasting bonds look like. The latest science, anecdotes from his own 30 year marriage as well as from his psychotherapy practice, the musings of ancient and contemporary philosophers and real life interviews from partners in long term happy marriages and intimate unions are all used to reveal the secrets to a successful romantic partnership. The result is a how to of engaging in attentive and sensitive communication, employing a fairness habit of mind around household chores, childrearing responsibilities and finances, optimally moving through and beyond conflict, keeping an erotic spark alive and ethically handling urges to stray outside the couple. A must read for all those who crave meaning, happiness and fulfilment in life and need their romantic partnerships to help, not hinder, in this endeavour.

The Sociology of Mental Health and Illness Allen Furr, 2022-06-27 *The Sociology of Mental Health and Illness* explains sociology's key contributions to our understanding of mental health and serves as a strong counterpoint to the medical approach to the subject. Using both micro and macro level theories, particularly social constructionism, the text shows the subjective nature of mental illness and systems of diagnosis and treatment. It also emphasizes how social conditions and relationships create life pathways toward mental health and psychological struggles and uses the concept of patient career to describe how individuals interact with mental health professionals. In addition, the text explores the connections between mental health and social problems such as terrorism, substance abuse, criminal violence, suicide and domestic violence.

Indeed, latest research suggests that those who love and are loved are significantly more likely to be alive in 10 years' time than those without love in their lives. Love makes us happy and the happier we are, the longer it seems we tend to live. So why is it that some people find relationships so easy? We all know the kind of person married forever, connected with their family and strong friendships that have stood the test of time from all stages of life. The people who make friends easily, who have someone utterly devoted to them and for whom many would do anything. What do they know and do that the rest of us could learn from? That's what you'll find in this book. If you study people who are so good at relationships, you discover it's not about their personality or gender or how self-sacrificing they are. Those who are great in all relationships usually do have to work at it. The secret is that they know exactly where to put their efforts. They know the Rules of Love. Now updated and expanded with 10 brand new rules. *The Rules of*
