Louis XV's Navy, 1748-1762 James Pritchard, 1987-08-01 Pritchard's chief concern is to explain why Bourbon France the richest and most powerful state in Europe in the middle of the eighteenth century failed to exercise its power at sea Through a close examination of naval organization the secretaries of state for the navy central bureau officers of the sword and pen seamen arsenals workers problems of shipbuilding ordnance production and material acquisition and finances he shows the navy as both an institution embedded in society and an instrument of government The tensions arising from the contradiction between an institution composed of individuals who sought to advance their own and group interests and an instrument that existed to fulfil government ends were aggravated by an administration of men rather than norms Pritchard traces many of the shortcomings of naval administration to the intensely personal bonds and idiosyncratic behaviour of the individuals who ran it Many of Pritchard's conclusions run counter to the generally accepted accounts of problems in the French navy during this period and to the usual view of Choiseul as the saviour of French maritime power The first complete study of this period of French naval administration Pritchard's work parallels Baugh's on the British navy *Louis the Beloved* Olivier Bernier, 1984 Traces the life of Louis XV the king of France offers a glimpse of his complex personality and looks at the highlights of his fifty nine year reign , Last Years of Louis XV Imbert de Saint-Amand, 1893 **The Last Years of Louis XV.** Imbert de Saint-Amand, 1893 France Under Louis XV.
