Sisterhoods Amos Megged, 2020-01-17 *Rituals and Sisterhoods* reveals the previously under studied world of plebeian single
women and single female headed households in colonial Mexican urban centers Focusing on the lower echelons of society
Amos Megged considers why some commoner women remained single and established their own female headed households
examining their unique discourses and self representations from various angles Megged analyzes these women s life stories
recorded during the Spanish Inquisition as well as wills and bequests petitions parish records and private letters that
describe in their own words how they exercised agency in male dominated and religious spaces Translations of select
documents and accompanying analysis illustrate the conditions in which women dissolved their marriages remained in long
lasting extramarital cohabitations and formed female led households and sisterhoods of their own Megged provides evidence
that single women in colonial Mexico played a far more active and central role in economic systems social organizations cults
and political activism than has been previously thought creating spaces for themselves in which they could initiate and
maintain autonomy and values distinct from those of elite society The institutionalization of female headed households in mid
colonial Mexico had wide ranging repercussions and effects on general societal values *Rituals and Sisterhoods* details the
particular relevance of these changes to the history of emotions sexuality gender concepts perceptions of marriage life
choices and views of honor and shame in colonial society This book will be of significant interest to students and scholars of

Barbaric Civilization Christopher Powell,2011-06-15 From its beginnings in the early twelfth century the Western civilizing process has involved two interconnected transformations the monopolization of military force by sovereign states and the cultivation in individuals of habits and dispositions of the kind that we call civilized The combined forward movement of these processes channels violent struggles for social dominance into symbolic performances But even as the civilizing process frees many subjects from the threat of direct physical force violence accumulates behind the scenes and at the margins of the social order kept there by a deeply habituated performance of dominance and subordination called deferentiation When deferentiation fails difference becomes dangerous and genocide becomes possible Connecting historical developments with everyday life occurrences and discussing examples ranging from thirteenth century Languedoc to 1994 Rwanda Powell offers an original framework for analyzing comparing and discussing genocides as variable outcomes of a common underlying social system raising unsettling questions about the contradictions of Western civilization and the possibility of a world without genocide
