Law, Humans and Plants in the Andes-Amazon Iván Darío Vargas Roncancio, 2024-02-06 Extending law beyond the human the book probes the conceptual openings methodological challenges and ethical conundrums of law in a time of deep socio ecological disturbances and transitions How do we learn and practice law across epistemic and ontological difference What sort of methodologies do we need In what sense does conjuring other than human beings as sentient cognitive and social agents rather than mere recipients of state sanctioned rights transform what we mean by law and rights of nature Legal institutions exclusively focused on human perspectives seem insufficiently capable of addressing current socio ecological challenges in Latin America and beyond In response this book strives to integrate other than human beings within legal thinking and decision making protocols Weaving together various fields of knowledge and world making practices that include but are not limited to Indigenous legal traditions Earth Law and multispecies ethnography Law Humans and Plants focuses on the entanglement of law ecology and Indigenous cosmologies in Southern Colombia In so doing it articulates a general postanthropocentric legal theory which is proposed a tool to address socioecological challenges such as climate change and bio cultural loss This book will be of interest to scholars and students in the disciplines of environmental law Earth Law and ecological law legal theory and critical legal studies as well as others working in the in the fields of Indigenous studies environmental humanities legal anthropology and sustainability and climate change justice

New Mexico's Spanish Livestock Heritage William W. Dunmire, 2013-04 This study of livestock and its history focuses not only on the impact of horses and cattle but also the wide variety of animals that shaped life and culture in New Mexico for the Spaniards Natives and Anglos who lived in or settled the region

Radical Functionalism Luis E. Carranza, 2021-12-27 Radical Functionalism A Social Architecture for Mexico provides a complex and nuanced understanding of the functionalist architecture developed in Mexico during the 1930s It carefully re reads the central texts and projects of its main advocates to show how their theories responded to the socially and culturally charged Mexican context These such as architects Juan Legarreta Juan O Gorman the Union of Socialist Architects and Manuel Amabilis were part of broader explorations to develop a modern national architecture intended to address the needs of the Mexican working classes Through their refunctioning of functionalism these radical thinkers showed how architecture could stand at the precipice of Mexico s impending modernization and respond to its impending changes The book examines their engagement and negotiation with foreign influences issues of gender and class and the separation between art and architecture Functionalist practices are presented as contradictory and experimental as challenging the role of architecture in the transformation of society and as intimately linked to art and local culture in the development of new forms of architecture for Mexico including the vernacularization of functionalism itself Uniquely including translations of two manifesto like texts by O Gorman expressing the polemical nature of their investigations Radical Functionalism A Social

Architecture for Mexico will be a useful reference for scholars researchers and students interested in the history of architectural movements *Chicano Periodical Index* ,1981

Rethinking Catholicism in Renaissance Spain Xavier Tubau,2022-09-23 Rethinking Catholicism in Renaissance Spain claims that theology and canon law were decisive for shaping ideas debates and decisions about key political and religious problems in Renaissance Spain This book studies Catholic thought during the Spanish Renaissance with the various contributors specifically exploring the ecclesiology and heresiology of the period Today these two subjects are considered to be strictly branches of theology but at the time they were also dealt with in the field of canon law Both ecclesiology which studied the internal structure of the Church and heresiology which identified theological errors played an important role in shaping ideas debates and decisions concerning the major political and religious problems of the late medieval and early modern periods In contrast to the conventional monolithic view of Spanish Catholic thought on ecclesiastical matters the chapters in this book demonstrate that there was a wide spectrum of ideas in the field of theology and canon law The topics analyzed include Church and Crown relations diplomatic controversies doctrinal debates on slavery ecclesiological disputes in dialogue with the Council of Trent and theories for distinguishing heresies and repressing them This book will be essential reading for those interested in disciplines such as Church history political history and the history of political and legal thought *The Peculiar Revolution* Carlos Aguirre,Paulo Drinot,2017-05-30 On October 3 1968 a military junta led by General Juan Velasco Alvarado took over the government of Peru In striking contrast to the right wing pro United States anti Communist military dictatorships of that era however Velasco s Revolutionary Government of the Armed Forces set in motion a left leaning nationalist project aimed at radically transforming Peruvian society by eliminating social injustice breaking the cycle of foreign domination redistributing land and wealth and placing the destiny of Peruvians into their own hands Although short lived the Velasco regime did indeed have a transformative effect on Peru the meaning and legacy of which are still subjects of intense debate The Peculiar Revolution revisits this fascinating and idiosyncratic period of Latin American history The book is organized into three sections that examine the era s cultural politics including not just developments directed by the Velasco regime but also those that it engendered but did not necessarily control its specific policies and key institutions and the local and regional dimensions of the social reforms it promoted In a series of innovative chapters written by both prominent and rising historians this volume illuminates the cultural dimensions of the revolutionary project and its legacies the impact of structural reforms at the local level including previously understudied areas of the country such as Piura Chimbote and the Amazonia and the effects of state policies on ordinary citizens and labor and peasant organizations

Forgotten Peace Robert A. Karl,2017 Forgotten Peace examines Colombian society s attempt to move beyond the Western Hemisphere s worst mid century conflict and how that effort molded notions of belonging and understandings of the past In this book Robert A Karl reconstructs encounters between government officials rural peoples provincial elites and urban intellectuals during a

crucial conjuncture that saw reformist optimism transform into alienation In addition to offering a sweeping reinterpretation of Colombian history including the most detailed account of the origins of the FARC insurgency in any language Karl provides a Colombian vantage on global processes of democratic transition development and memory formation in the 1950s and 1960s Sweeping in scope *Forgotten Peace* challenges contemporary theories of violence in Latin America Provided by publisher

Latin American Indigenous Warfare and Ritual Violence Richard J. Chacon, Rubén G. Mendoza, 2019-04-02

This groundbreaking multidisciplinary book presents significant essays on historical indigenous violence in Latin America from Tierra del Fuego to central Mexico The collection explores those uniquely human motivations and environmental variables that have led to the native peoples of Latin America engaging in warfare and ritual violence since antiquity Based on an American Anthropological Association symposium this book collects twelve contributions from sixteen authors all of whom are scholars at the forefront of their fields of study All of the chapters advance our knowledge of the causes extent and consequences of indigenous violence including ritualized violence in Latin America Each major historical cultural group in Latin America is addressed by at least one contributor Incorporating the results of dozens of years of research this volume documents evidence of warfare violent conflict and human sacrifice from the fifteenth century to the twentieth including incidents that occurred before European contact Together the chapters present a convincing argument that warfare and ritual violence have been woven into the fabric of life in Latin America since remote antiquity For the first time expert subject area work on indigenous violence archaeological osteological ethnographic historical and forensic has been assembled in one volume Much of this work has heretofore been dispersed across various countries and languages With its collection into one English language volume all future writers regardless of their discipline or point of view will have a source to consult for further research

Ubiquitination and Protein Stability Part A Volume 618 the latest release in the Methods in Enzymology series highlights new advances in the field with this updated volume presenting interesting chapter written by an international board of authors Topics of note in this new release include the Preparation of ubiquitinated nucleosomes with native and non hydrolyzable linkages Methods to measure ubiquitin chain length and linkage Genetic approaches to study the yeast ubiquitin system Enzymatic preparation of monoubiquitinated proteins Methods to distinguish the function of ubiquitin in autophagy and the proteasome pathway the Purification and characterization of enzyme activity of USPs and much more Provides the authority and expertise of leading contributors from an international board of authors Presents the latest release in this series on enzymology Updated release includes the latest information on methods to measure ubiquitin chain length and linkage genetic approaches to study the yeast ubiquitin system amongst many other timely topics **Diet, Nutrition, and**

Foodways on the North Coast of Peru Bethany L. Turner,Haagen D. Klaus,2020-06-17 This book synthesizes in depth bioarchaeological research into diet subsistence regimes and nutrition and corresponding insights into adaptation suffering and resilience among indigenous north coastal Peruvian communities from early agricultural through European colonial periods The Spanish invasion and colonization of Andean South America left millions dead landscapes transformed and traditional ways of life annihilated However the nature and magnitude of these changes were far from uniform By the time the Spanish arrived over four millennia of complex societies had emerged and fallen and in the 16th century the region was home to the largest and most expansive indigenous empire in the western hemisphere Decades of Andean archaeological and ethnohistorical research have explored the incredible sophistication of regional agropastoral traditions the importance of food and feasting as mechanisms of control and the significance of maritime economies in the consolidation of complex polities Bioarchaeology is particularly useful in studying these processes Beyond identifying what resources were available and how they were prepared bioarchaeological methods provide unique opportunities and humanized perspectives to reconstruct what individuals actually ate and whether their diets changed within their own lifespans *Dynamic*

Sedimentary Environments of Mangrove Coasts Daniel Friess,Frida Sidik,2020-12-05 *Dynamic Sedimentary Environments of Mangrove Coasts* provides knowledge on the importance of sedimentary dynamics in managing mangrove forests In the first part of the book the editors seamlessly offer a general introduction of mangrove sedimentary dynamics This leads into more in depth information on soil surface elevation change sea level rise and the importance of sedimentary dynamics in the loss or gain of blue carbon The book concludes the discussion of mangrove sedimentary dynamics by addressing the issues of climate change e g sea level rise and blue carbon on mangrove restoration and sediment This book will assist coastal managers and academics in addressing the gaps in mangrove restoration and coastal management As such it will be a valuable reference for advanced undergraduate students graduate students researchers academics in the field of coastal

restoration and coastal management practitioners Provides a state of the art summary of research into sedimentary dynamics in mangrove forests Includes updates on issues of climate change relevant to mangroves such as blue carbon and sea level rise Presents scientific background and successful case studies for mangrove restoration that can solve problems relating to mangrove management

World Art and the Legacies of Colonial Violence Daniel J. Rycroft, 2017-07-05 How have imperialism and its after effects impacted patterns of cultural exchange artistic creativity and historical curatorial interpretation World Art and the Legacies of Colonial Violence comprised of ten essays by an international roster of art historians curators and anthropologists forges innovative approaches to post colonial studies Indigenous studies critical heritage studies and the new museology This volume probes the degree to which global histories of conflict coercion and occupation have shaped art historical approaches to intercultural knowledge and representation These debates are relevant to contemporary artists and scholars of visual material and museological culture in their attempts to negotiate imperial and colonial legacies Confronting the aesthetics of Abolition Fascism and Filipino independence and re thinking relationships between colonised and coloniser in Cameroon North America and East Timor the collection brings together new readings of Primitivism and Aboriginal art as well It features discussions of touring exhibitions popular media modernist paintings and sculptures historic photographs human remains and art installations In addition to the critical application of phenomenology in a fresh and contemporary manner the volume's world art perspective nurtures the possibility that intercultural ethics are relevant to the study of art power and modernity

Handbook of Proteolytic Enzymes Alan J. Barrett, Neil D. Rawlings, J. Fred Woessner, 2012-10-30 Extensively revised and updated the new edition of the highly regarded Handbook of Proteolytic Enzymes is an essential reference for biochemists biotechnologists and molecular biologists Edited by world renowned experts in the field this comprehensive work provides detailed information on all known proteolytic enzymes to date This two volume set unveils new developments on proteolytic enzymes which are being investigated in pharmaceutical research for such diseases as HIV Hepatitis C and the common cold Volume I covers aspartic and metallo peptidases while Volume II examines peptidases of cysteine serine threonine and unknown catalytic type A CD ROM accompanies the book containing fully searchable text specialised scissile bond searches 3 D color structures and much more The only comprehensive book on proteolytic enzymes Includes 671 chapters each written by experts in their field on proteolytic enzymes from all groups of living organisms and the viruses including those that are currently major targets of pharmaceutical research Accompanying CD ROM provides fully searchable text 2D structures of peptidases in color and links directly to PubMed and MEROPS databases Each chapter describes in detail the enzyme name its history activity and specificity structural chemistry preparation biological aspects and distinguishing features Over 1000 peptidases included
