Lure For Feeling:

PROCESS AND REALITY ALFRED N. WHITEHEAD, 1929 *The Lure for Feeling* Mary Alice Wyman, 1960 *Lure for Feeling* Wyman, Tragic Beauty in Whitehead and Japanese Aesthetics Steve Odin, 2016-05-19 The present volume endeavors to make a contribution to contemporary Whitehead studies by clarifying his axiological process metaphysics including his theory of values concept of aesthetic experience and doctrine of beauty along with his philosophy of art literature and poetry Moreover it establishes an east west dialogue focusing on how Alfred North Whitehead's process aesthetics can be clarified by the traditional Japanese Buddhist sense of evanescent beauty As this east west dialogue unfolds it is shown that there are many striking points of convergence between Whitehead's process aesthetics and the traditional Japanese sense of beauty However the work especially focuses on two of Whitehead's aesthetic categories including the penumbral beauty of darkness and the tragic beauty of perishability while further demonstrating parallels with the two Japanese aesthetic categories of *yugen* and *aware* It is clarified how both Whitehead and the Japanese tradition have articulated a poetics of evanescence that celebrates the transience of aesthetic experience and the ephemerality of beauty Finally it is argued that both Whitehead and Japanese tradition develop an aesthetics of beauty as perishability culminating in a religious aesthetic vision of tragic beauty and its reconciliation in the supreme ecstasy of peace or nirvana *A Key to Whitehead's Process and Reality* Alfred North Whitehead, 1981-09-15 Whitehead's magnum opus is as important as it is difficult It is the only work in which his metaphysical ideas are stated systematically and completely and his metaphysics are the heart of his philosophical system as a whole Sherburne has rearranged the text in a way designed to lead the student logically and coherently through the intricacies of the system without losing the vigor of Whitehead's often brilliant prose The Key renders Process and Reality pedagogically accessible for the first time **Journal of Religion** **The Emergence of Whitehead's Metaphysics, 1925-1929** Lewis S. Ford, 1985-06-30 A breathtaking detective story this book charts the adventure of Whitehead's ideas in a remarkably detailed and careful reconstruction of his metaphysical views Incorporating heretofore unpublished material from students notes and correspondence Professor Ford analyzes the order of composition of various portions of Whitehead's books principally *Science and the Modern World* *Religion in the Making* and *Process and Reality* Ford's reconstructive method is perfectly tailored to his subject for Whitehead revised by inserting new material rather than altering or deleting the old Thus Ford is able to date the sequence of the composition of many passages In distinguishing these layers of articulation he has pushed the techniques of higher criticism beyond anything the French structuralists and deconstructionists have dreamed of and chronicled an extraordinary intellectual biography **Onflow** Ralph Jason Pred, 2005-02-25 Understanding consciousness by taking the stream of consciousness seriously a general characterization of experience and a detailed description of experience from within drawing on theories of William James Alfred North Whitehead John Searle and Gerald Edelman In *Onflow* Ralph Pred supplies an account of the nature of

consciousness that grapples with the raw unverbilized stream of experience Unlike other recent philosophical accounts of consciousness Pred s analysis deals with the elusive and commonly neglected continuities in the stream of consciousness Pred offers a general characterization and analysis of experience as well as a highly detailed interpretation of experience from within Determined to make conceptual contact with the immediacy of actual experience Pred carries forward the radical empiricism pioneered by William James who coined the term stream of consciousness and draws on the process philosophy of Alfred North Whitehead To help readers apprehend the formation of conscious thoughts the intertwining of perception and action and the working of consciousness in onflowing experience Pred applies methods of analysis developed in John Searle s theory of intentionality to James s views thereby showing how intentional states are embedded in the stream of consciousness Then calling on Whitehead s treatment of lived moments as acts of experience Pred provides an account of consciousness that at once deals with conscious thoughts as they emerge from and function in embodied socialized experience and illustrates how language distorts our understanding of experience and subjectivity Finally he details striking parallels between this account and Gerald Edelman s biological theory of consciousness and in contrasting the two argues for a revitalized version of the experiential monism originally formulated by James

Thinking with Whitehead and the American Pragmatists Brian G. Henning, William T. Myers, Joseph D. John, 2015-04-16 Despite there being deep lines of convergence between the philosophies of Alfred North Whitehead C S Peirce William James John Dewey and other classical American philosophers it remains an open question whether Whitehead is a pragmatist and conversation between pragmatists and Whitehead scholars have been limited Indeed it is difficult to find an anthology of classical American philosophy that includes Whitehead s writings These camps began separately and so they remain This volume questions the wisdom of that separation exploring their connections both historical and in application The essays in this volume embody original and creative work by leading scholars that not only furthers the understanding of American philosophy but seeks to advance it by working at the intersection of experience and reality to incite novel and creative thought This exploration is long overdue Specific questions that are addressed are Is Whitehead a pragmatist What contrasts and affinities exist between American pragmatism and Whitehead s thought What new questions strategies and critiques emerge by juxtaposing their distinct perspectives

A Sleepwalker's Guide to Social Media Tony D. Sampson, 2020-07-09 Positing online users as sleepwalkers Tony Sampson offers an original and compelling approach for understanding how social media platforms produce subjectivities Drawing on a wide range of theorists including A N Whitehead and Gabriel Tarde he provides tools to track his sleepwalker through the dark refrain of social media a refrain that spreads through viral platform architectures with a staccato like repetition of shock events rumours conspiracy misinformation big lies search engine weaponization data voids populist strongmen immune system failures and far right hate speech Sampson s sleepwalker is not a pre programmed smartphone junkie but a conceptual personae intended to dodge capture by data doubles and lookalikes Sleepwalkers are

neither asleep nor wide awake they are a liminal experimentation in collective mimicry and self other relationality Their purpose is to stir up a new kind of community that emerges from the potentialities of revolutionary contagion At a time in which social media is influencing more people than ever A Sleepwalker s Guide to Social Media is an important reference for students and scholars of media theory digital media and social media **Robert Duncan and the Pragmatist Sublime**

James Maynard,2018-05-01 This study examines the theoretical underpinnings of Robert Duncan s poetry and poetics The author s overriding concern is Duncan s understanding of excess in relation to poetry and the philosophies of Alfred North Whitehead William James and John Dewey **The Lure of Superiority** Wayland Farries Vaughan,1928 *The Human*

Paradox Ralph Heintzman,2022-08-31 What is a human being What does it mean to be human How can you lead your life in ways that best fulfil your own nature In *The Human Paradox* Ralph Heintzman explores these vital questions and offers an exciting new vision of the nature of the human *The Human Paradox* aims to counter or correct several contemporary assumptions about the nature of the human especially the tendency of Western culture since the seventeenth century to identify the human with rationality and the rational mind Using the lens of the virtues *The Human Paradox* shows how rediscovering the nature of the human can help not just to understand one s own paradoxical nature but to act in ways that are more consistent with its full reality Offering accessible insight from both traditional and contemporary thought *The Human Paradox* shows how a fuller richer vision of the human can help address urgent contemporary problems including the challenges of cultural and religious diversity human migration and human rights the role of the market artificial intelligence the future of democracy and global climate change This fresh perspective on the Western past will guide readers into what it means to be human and open new possibilities for the future **Couplets** Brian Massumi,2021-08-09 In *Couplets* Brian

Massumi presents twenty four essays that represent the full spectrum of his work during the past thirty years Conceived as a companion volume to *Parables for the Virtual* *Couplets* addresses the key concepts of *Parables* from different angles and contextualizes them allowing their stakes to be more fully felt Rather than organizing the essays chronologically or by topic Massumi pairs them into couplets to encourage readers to make connections across conventional subject matter categories to encounter disjunctions and to link different phases in the evolution of his work In his analyses of topics ranging from art affect and architecture to media theory political theory and the philosophy of experience Massumi charts a field on which a family of conceptual problems plays out in ways that bear on the potentials for acting and perceiving the world As an essential guide to Massumi s oeuvre *Couplets* is both a primer for his new readers and a supplemental resource for those already engaged with his thought **Explanation: New Directions in Philosophy** The Faculty in Philosophy,2012-12-06

This volume initiates a series of American University Publications in Phi losophy It is expected that as occasion permits volumes will be added to the series contributing to the dialogue that is contemporary philosophy The essays in this volume were written by the faculty in philosophy at The American University during the academic year 1970 71 and appear here for

the first time In a variety of modes the essays cluster around epistemological problems collateral with theories of explanation In view of recent attention to such theories this volume explores several new directions in the explanation of behavior language and religion We are especially appreciative of the secretarial assistance of Mrs Madaline Shoemaker whose magic turned many an unreadable manuscript into an intelligible essay We are also grateful to Miss Maria Wilhelm for the final typing of the volume and to the Office of the Dean for Graduate Studies The American University for encouragement and for a financial grant toward typing expenses Barry L Blose Harold A Durfee David F T Rodier Editorial Committee T ABLE OF CONTENTS Preface v CONTEMPORARY DIRECTIONS THE SPIRIT OF CoNTEMPORARY AMERICAN PHILOsoPHY Roger T

Lived Economies of Default Joe Deville, 2015-02-11 Consumer credit borrowing using credit cards store cards and personal loans is an important and routine part of many of our lives But what happens when these everyday forms of borrowing go bad when people start to default on their loans and when they cannot or will not repay It is this poorly understood controversial but central part of both the consumer credit industry and the lived experiences of an increasing number of people that this book explores Drawing on research from the interior of the debt collections industry as well as debtors own accounts and historical research into technologies of lending and collection it examines precisely how this ever more sophisticated globally connected market functions It focuses on the highly intimate techniques used to try and recoup defaulting debts from borrowers as well as on the collection industry s relationship with lenders Joe Deville follows a journey of default from debtors borrowing practices to the intrusion of collections technologies into their homes and everyday lives to the collections organisation to attempts by debtors to seek outside help In the process he shows how to understand this particular market we need to understand the central role played within it by emotion and affect By opening up for scrutiny an area of the economy which is often hidden from view this book makes a major contribution both to understanding the relationship between emotion and calculation in markets and the role of consumer credit in our societies and economies This book will be of interest to students teachers and researchers in a range of fields including sociology anthropology cultural studies economics and social psychology

Sensing Art in the Atmosphere Sasha Engelmann, 2020-09-28 This book engages artistic interventions in the aerial elements to investigate the aesthetics and politics of atmosphere Sensing Art in the Atmosphere Elemental Lures and Aerosolar Practices traces the potential of artistic community driven experiments to amplify our sensing of atmosphere marrying attentions to atmospheric affect with visceral awareness of the materials institutions and processes hovering in the air Drawing on six years of practice led research with artistic and activist initiatives Museo Aero Solar and Aerocene initiated by artist Tom s Saraceno each chapter develops creative relations to atmosphere from the studio to stratospheric currents Through narrative led writing the voices of artists and collaborators are situated and central In dialogue with these aerographic stories and sites the book develops a notion of elemental lures the sensual and imaginative propositions of aerial atmospheric and meteorological phenomena The promise of elemental lures

Engelmann suggests is to reconcile our sensing of atmosphere with the myriad social cultural and political forces suspended in it Through tales of floating journeys shared envelopes of breath and surreal levitations the book foregrounds the role of art in crafting alternative modes of perceiving moving and imagining in the air The book ends with a call for elemental experiments in the geohumanities It makes an important and original contribution to elemental geographies the geohumanities and interdisciplinary scholarship on air and atmosphere
