A vibrant original portrait of a man of contradictions the Renaissance era Swiss father of modern medicine Publishers Weekly starred review Philippus Aureolus Theophrastus Bombast von Hohenheim who called himself Paracelsus stands at the cusp of medieval and modern times A contemporary of Luther an enemy of the medical establishment a scourge of the universities an alchemist an army surgeon and a radical theologian he attracted myths even before he died His fantastic journeys across Europe and beyond were said to be made on a magical white horse and he was rumored to carry the elixir of life in the pommel of his great broadsword His name was linked with Faust who bargained with the devil Who was the man behind these stories Some have accused him of being a charlatan a windbag who filled his books with wild speculations and invented words Others claim him to be the father of modern medicine Philip Ball exposes a more complex truth in *The Devil's Doctor* one that emerges only by entering Paracelsus's time He explores the intellectual political and religious undercurrents of the sixteenth century and looks at how doctors really practiced at how people traveled and at how wars were fought For Paracelsus was a product of an age of change and strife of renaissance and reformation And yet by uniting the diverse disciplines of medicine biology and alchemy he assisted almost despite himself in the birth of science and the emergence of the age of rationalism Praise for *The Devil's Doctor* An enlivening portrait that will spark interest in Paracelsus's role in the rise of science Booklist A true iconoclast Paracelsus inhabited an ideological landscape somewhere between the medieval and the modern Ball effectively places Paracelsus in the larger context of Renaissance magic and philosophy and of a turbulent period Worth the effort Kirkus Reviews

[The Cryptographic Imagination](#) Shawn James Rosenheim, 2020-03-24 Originally published in 1996 In *The Cryptographic Imagination* Shawn Rosenheim uses the writings of Edgar Allan Poe to pose a set of questions pertaining to literary genre cultural modernity and technology Rosenheim argues that Poe's cryptographic writing his essays on cryptography and the short stories that grew out of them requires that we rethink the relation of poststructural criticism to Poe's texts and more generally reconsider the relation of literature to communication Cryptography serves not only as a template for the language character and themes of much of Poe's late fiction including his creation the detective story but also as a secret history of literary modernity itself Both postwar fiction and literary criticism the author writes are deeply indebted to the rise of cryptography in World War II Still more surprising in Rosenheim's view Poe is not merely a source for such literary instances of cryptography as the codes in Conan Doyle's *The Dancing Men* or in Jules Verne but through his effect on real cryptographers Poe's writing influenced the outcome of World War II and the development of the Cold War However unlikely such ideas sound *The Cryptographic Imagination* offers compelling evidence that Poe's cryptographic writing clarifies one important avenue by which the twentieth century called itself into being The strength of Rosenheim's work extends to a revisionistic understanding of the entirety of literary history as a repression of cryptography

and then in a breathtaking shift of register interlinks Poe's exercises in cryptography with the hyperreality of the CIA the Cold War and the Internet What enables this extensive range of applications is the stipulated tension Rosenheim discerns in the relationship between the forms of the literary imagination and the condition of its mode of production Cryptography in this account names the technology of literary production the diacritical relationship between decoding and encoding that the literary imagination dissimulates as hieroglyphics the hermeneutic relationship between a sign and its content Donald E Pease Dartmouth College Alchemy, its science and romance John Edward Mercer (bp. of Tasmania), 1921

Clack,2000-08-30 From the Middle Ages to the close of the 17th century alchemy was fundamental to Western culture as scores of experimenters sought to change lead into gold Though its significance declined with the rise of chemistry alchemy continued to captivate the imagination of writers and its images still appear in modern creative works This book examines the literary representation of alchemical theory and the metaphor of alchemical regeneration in the works of Edward Taylor Edgar Allan Poe Nathaniel Hawthorne and Margaret Fuller While Taylor used alchemical metaphors to illustrate the redeeming grace of God upon the soul these same metaphors were used by Poe Hawthorne and Fuller to depict a broader concept of redemption These later writers used alchemical imagery to describe both the regeneration of the individual and the possible transformation of society For Poe alchemy became a metaphor for the transforming power of imagination for Hawthorne it became a means of representing the redeeming power of love for Fuller it figured the reconciliation of gender opposites Thus these four American writers incorporated the idea of regeneration in their works and the tropes and metaphors of the medieval alchemists provided a fascinating way of imagining the transformative process *Who's who in Literature* Mark Meredith,1928 Contains list of Fictitious and pseudonymous names Eden in the Altai Geoffrey Ashe,2018-12-11 Reveals how humanity s first advanced culture originated in the Altai Baikal region of southern Siberia Explores how this prehistoric culture is the source of the pervasive mythic symbolism of the number 7 found in ancient cosmologies and myths around the world Traces the Altaic influence on the Rishis of India the creation of the Vedas and the origin of the sacred legend of Mount Meru Explains how the Hellenic cults of both Apollo and Artemis originated in southern Siberia as well as the pervasive bear symbolism found throughout the ancient world Myths of a Golden Age a paradise at the beginning of human existence are nearly universal in all cultures But where was this Eden located Refuting the traditional assumption that the cultures of the Middle East and Mycenae filtered northward into Europe and North Asia noted historian

Geoffrey Ashe instead identifies the northern Altai mountain range and Lake Baikal region of southern Siberia as the true cultural home of humanity and the source of the widespread myths of a prehistoric Golden Age With evidence dating back as far as 24 000 BC Ashe shows how the culture of prehistoric southern Siberia was matrifocal Goddess worshiping and heavily shamanic and served as the progenitor of advanced ancient culture in the Western world the missing link that later influenced Indian Middle Eastern Native American and European society culture and religion He reveals how ancient Altaic culture was the source of the pervasive mythic symbolism of the number 7 found in cosmologies and mythological traditions around the world as well as reverence for the seven stars of Ursa Major the Big Dipper and the idea of a sacred mountain to the North He traces the transmission of these cosmological beliefs into Babylon and ancient Greece by migrating tribes including those that crossed the now vanished land bridge to the New World Ashe reveals how this transmission of beliefs had a profound influence on the seven note musical scale the seven astrological planets and the seven vowels of the Greek alphabet as well as the development of seven as a sacred number in Judaism He shows how the ancient Altai Baikal culture influenced the Rishis of India the creation of the Vedas and the sacred legend of Mount Meru He also reveals how the Hellenic cults of both Apollo and Artemis originated in southern Siberia as well as the sacred bear symbolism found throughout the ancient world Offering proof that advanced cultures existed in Europe before the immigration of Eastern peoples Ashe shows that early societies did not look into the future for perfection but to the past to the Golden Age of peace in the sacred northern mountains *Cumulated Index to the Books* ,1932
