A marvellous book. Diana Evans. What's in a name? Everything we carry and everything we are. Our names are a shadow we carry around with us. They are part of who we are. Our names are a marker of our self-identity and our sense of self. Our names have the power to shock. They have the power to heal and they have the power to trigger conversations around race, class, social mobility and belonging. But what is a name? What do our names tell us about ourselves? And why do they matter? *Named* is a fascinating exploration of names, global naming conventions and identity politics woven into a moving personal narrative about the finding of family and self. At the intersection of memoir and social and cultural history, it is a truly fascinating book about the seemingly ordinary and every day. The author's own narrative about her estrangement from her Nigerian father, the grapples with her Jamaican mother and her journey towards identity is woven through the chapters, making it an engaging and intimate investigation of what makes us who we are. **Exploring Space: 1999** John Kenneth Muir, 2015-09-15 Starring internationally renowned actors Martin Landau, Barbara Bain, Barry Morse and Catherine Schell, the British-made *Space 1999* was the only truly original space adventure of the mid-1970s. Sandwiched between the demise of the original *Star Trek* and the opening of the *Star Wars* series on the big screen, *Space 1999* featured a richly visualized world where space was terrifying and mysterious, where not all problems were solvable by technology and the space travelers were very human. From the science-fiction show's conception in 1973 to its cancellation in 1977, this reference work covers each of the 48 episodes in depth, including a full plot synopsis, writer/director/guest star credits and critical commentary that examines both the episode and other shows that have used similar plotlines. The popularity of *Space 1999* memorabilia and its many fan clubs are fully discussed, along with the possibility of a future movie or reunion show that would tie up the loose ends caused by the show's abrupt cancellation. **The Body, Dance and Cultural Theory** Helen Thomas, 2017-03-14 This book takes its point of departure from the overwhelming interest in theories of the body and performativity in sociology and cultural studies in recent years. It explores a variety of ways of looking at dance as a social and artistic bodily practice as a means of generating insights into the politics of identity and difference as they are situated and traced through representations of the body and bodily practices. These issues are addressed through a series of case studies. *Modern Spiritualism* Frank Podmore, 2011-01-20 The first comprehensive history of Spiritualism by one of the foremost Victorian psychic researchers, an indispensable source on the movement. [There's Something I've Been Dying to Tell You](#) Lynda Bellingham, 2014-10-09 By turns it is riotous, deeply serious, practical and sad. Reading it is like being at her kitchen table with a glass of wine to hand. Daily Telegraph. Lynda Bellingham was a tremendously gifted storyteller with a rich collection of tales of love, loss and laughter, and this memoir brings her kind heart, courage and emotion to the page in vivid detail.
