Lying Cheating Stealing Criminal Justice Studies:

Smith and Hogan's Criminal Law David Ormerod, Karl Laird, John Cyril Smith, Brian Hogan, 2015 Criminal Law is written with the needs of the student foremost in mind to provide more than ever as modern and as comprehensive an exposition of the criminal law as he or she could possibly require **The Routledge Handbook of International Crime and Justice Studies** Bruce Arrigo, Heather Bersot, 2013-08-15 This book presents the enduring debates and emerging challenges in crime and justice studies from an international and multi disciplinary perspective **The Legitimacy of EU Criminal Law** Irene Wieczorek, 2020-07-09 This book traces the history of the EU competence EU policy discourse and EU legislation in the field of criminalisation from Maastricht until the present day It asks Why EU Criminal Law looking at what rationales the Treaty policy document and legislation put forth when deciding whether a certain behaviour should be a criminal offence To interpret the EU approach to criminalisation it relies on both modern and post modern theoretical frameworks on the legitimacy of criminal law read jointly with the theories on the functions of EU harmonisation of national law The book demonstrates that while EU constitutional law leans towards an effectiveness based enforcement driven understanding of criminal law the EU has in fact in more than one instance adopted symbolic EU criminal law ie criminal law aimed at highlighting what values are important to the EU but which is not fit to actually deter individuals from harming such values The book then questions whether this approach is consistent or in contradiction with the values based constitutional identity the EU has set for itself *Dishonesty, Liability and the Law* Sotirios Santatzoglou, Martin Wasik, Anthony Wrigley, 2025-07-31 In 2017 in *Ivey v Genting Casinos* the Supreme Court judged that the dishonesty test is objective and should be the single one in use for any area of law The judgment sparked some criticism regarding the inflexibility of an objective test The subsequent 2020 Court of Appeal judgment in *R v Barton* confirmed the objective test in *Ivey* However little dedicated discussion and analysis of the dishonesty test has subsequently taken place leaving a growing concern that the one currently in use may not be suitable for determining dishonesty in all contexts This interdisciplinary collection challenges the idea of the single objective test by considering the issue of context in defining dishonesty The volume is divided into three parts The first focuses on the analysis of the concept of dishonesty and the dishonesty test both in relation to context and its impact in determining whether or not liability arises In the second part the focus is on contexts of public and private dealings where dishonesty can be the reason to place liability or where its implications should be modified in order to limit liability Finally in the third part the focus is on the context of healthcare practice and its interface with the conceptual dichotomy of honesty dishonesty The conclusion draws together shared themes notably the issues of fairness and justice that arise from the work to demonstrate the definitional vacuum in the law on dishonesty The book will be of interest to academics researchers policy makers and regulators working in law ethics or areas of professional regulation and misconduct especially medicine nursing student academic misconduct and politics Similarly there will be appeal to those

Doing Time on the Outside Donald Braman, 2007-08-06 Stigma shame and hardship this is the lot shared by families whose young men have been swept into prison Braman reveals the devastating toll mass incarceration takes on the parents partners and children left behind Katherine S Newman *Doing Time on the Outside* brings to life in a compelling way the human drama and tragedy of our incarceration policies Donald Braman documents the profound economic and social consequences of the American policy of massive imprisonment of young African American males He shows us the link between the broad scale policy changes of recent decades and the isolation and stigma that these bring to family members who have a loved one in prison If we want to understand fully the impact of current criminal justice policies this book should be required reading Mark Mauer Assistant Director The Sentencing Project Through compelling stories and thoughtful analysis this book describes how our nation's punishment policies have caused incalculable damage to the fabric of family and community life Anyone concerned about the future of urban America should read this book Jeremy Travis The Urban Institute In the tradition of Elijah Anderson's *Code of the Street* and Katherine Newman's *No Shame in My Game* this startling new ethnography by Donald Braman uncovers the other side of the incarceration saga the little told story of the effects of imprisonment on the prisoners families Since 1970 the incarceration rate in the United States has more than tripled and in many cities urban centers such as Washington D C it has increased over five fold Today one out of every ten adult black men in the District is in prison and three out of every four can expect to spend some time behind bars But the numbers don't reveal what it's like for the children wives and parents of prisoners or the subtle and not so subtle effects mass incarceration is having on life in the inner city Author Donald Braman shows that those doing time on the inside are having a ripple effect on the outside reaching deep into the family and community life of urban America Braman gives us the

personal stories of what happens to the families and communities that prisoners are taken from and return to Carefully documenting the effects of incarceration on the material and emotional lives of families this groundbreaking ethnography reveals how criminal justice policies are furthering rather than abating the problem of social disorder Braman also delivers a number of genuinely new arguments Among these is the compelling assertion that incarceration is holding offenders unaccountable to victims communities and families The author gives the first detailed account of incarceration s corrosive effect on social capital in the inner city and describes in poignant detail how the stigma of prison pits family and community members against one another Drawing on a series of powerful family portraits supported by extensive empirical data Braman shines a light on the darker side of a system that is failing the very families and communities it seeks to protect

White-Collar Crime J. Goldstraw-White,2011-10-27 This book explores the accounts given by white collar crime offenders to defend their criminal behaviour in order to preserve their characters and social standing It is based on in depth interviews with 41 male and female convicted white collar offenders who were still serving their sentences in English prisons Whilst a number of texts have been written about white collar crime offenders very few studies have attempted to approach this by examining the actual reasons and motives for their criminal behaviour directly from the offenders This book aims to make further progress in this area By exploring the participants motives opportunities and morality this book will make a key contribution to exploring white collar crime offenders perspectives of their crimes This book not only adds to the academic knowledge in this area but also helps organizations to consider the strengths of their crime prevention methods and appropriateness of their fraud and security policies *White-Collar Crime in the Shadow Economy* Petter Gottschalk,Lars Gunnesdal,2018-03-22 This open access book examines the magnitude causes of and reactions to white collar crime based on the theories and research of those who have uncovered various forms of white collar crime It argues that the offenders who are convicted represent only the tip of the iceberg of a much greater problem because white collar crime is forced to compete with other kinds of financial crime like social security fraud for police resources and so receives less attention and fewer investigations Gottschalk and Gunnesdal also offer insights into estimation techniques for the shadow economy in an attempt to comprehend the size of the problem Holding broad appeal for academics practitioners in public administration and government agencies this innovative study serves as a timely starting point for examining the lack of investigation detection and conviction of powerful white collar criminals **Financial Aid and Assistance for Ex-Offenders** Jennifer Sanders,2006-02 Here it is the Newest Edition Thanks to all of the feedback and word of mouth advertising we will be publishing the second version of FAAX by the end of this month If you know someone that s been incarcerated or is
