Lyndhurst Amelia Peck, Alexander Jackson Davis, 1998-01-01 *Stories from Home* Margaret Ponsonby, 2016-04-01

Most homes in the past were not elite wealthy interiors complete with high fashion furnishings designed by well known architects and designers as many domestic histories often seem to have assumed As this book makes clear there were in fact an enormous variety of house interiors in England during the period 1750 1850 reflecting the location status and gender of particular householders as well as their changing attitudes tastes and aspirations By focusing on non metropolitan homes which represented the majority of households in England this study highlights the need for historians to look beyond prevailing attitudes that often reduce interiors to generic descriptions based on high fashions of the decorative arts Instead it shows how numerous social and cultural influences affected the manner in which homes were furnished and decorated Issues such as the availability of goods gender regional taste income the second hand market changing notions of privacy and household hierarchies and print culture could all have a significant impact on domestic furnishing The study ends with a discussion of how domestic interiors of historic properties have been presented and displayed in modern times highlighting how competing notions of the past can cloud as well as illuminate the issue Combining cultural history and qualitative analysis of evidence this book presents a new way of looking at ordinary and provincial homes that enriches our understanding of English domestic life of the late eighteenth and early nineteenth centuries *Directory of Historical Organizations in the United States and Canada* American Association for State and Local History, 2002 This multi functional reference is a useful tool to find information about history related organizations and programs and to contact those working in history across the country *American Gothic Art and Architecture in the Age of Romantic Literature* Kerry Dean Carso, 2014-11-15 *American Gothic Art and Architecture in the Age of Romantic Literature* analyses the influence of British Gothic novels and historical romances on American art and architecture in the Romantic era *Historic Houses of the Hudson River Valley, 1663-1915* Gregory R.
