The eight rooms of the museum set up inside the friary host a series of sections devoted to its origins and history as well as the life of those who joined the order and drew inspiration from the example of extraordinary Capuchin saints like Felix of Cantalice Crispin of Viterbo and Joseph of Leonessa but also contemporary figures known to the public on a vast scale such as St Pio of Pietrelcina who bore the stigmata for fifty years and Father Mariano of Turin the first multimedia preacher. The museum is also a new repository for the artistic and historical legacy of the Capuchins of Rome and the region of Lazio as its rooms are in fact designed not only to house and exhibit the various items but also to ensure their preservation. To this end the opening of the museum was preceded by major work to restore the original splendour not only of various kinds of artworks books and documents but also and above all Capuchin liturgical vessels and articles of everyday use epitomizing the spirit of humble self sufficiency that is the hallmark of the order. Encapsulating the extraordinarily rich experience of nearly 500 years of Capuchin life this museum is concerned not only with preserving the past but also with

projecting itself into the future as a sort of ongoing laboratory of initiatives a venue for exhibitions cultural events and spiritual experiences aimed at establishing dialogue and asserting the continuing primacy of the human dimension today

Castration Desire Robinson Murphy, 2023-12-14 Theorizes an alternative form of masculinity in global literature that is less egocentric and more sustainable both in terms of gendered and environmental power dynamics Contemporary novelists and filmmakers like Kazuo Ishiguro Japanese British Emma Donoghue Irish Canadian Michael Ondaatje Sri Lankan Canadian Bong Joon-ho South Korean and J. M. Coetzee South African Australian are emblematic of a transnational phenomenon that Robinson Murphy calls castration desire That is these artists present privileged characters who nonetheless pursue their own diminishment In promulgating through their characters a less egocentric mode of thinking and acting these artists offer a blueprint for engendering a more other-oriented global relationality Murphy proposes that in addition to being an ethical prerogative castration desire's less is more model of relationality would make life livable where veritable suicide is our species' otherwise potential fate Castration desire thus offers an antidote to rapacious extractivism with the ambition of instilling a sustainable model for thinking and acting on an imminently eco-apocalyptic earth In providing a fresh optic through which to read a diversity of text types Castration Desire helps define where literary criticism is now and where it is headed Castration Desire additionally extends and develops a *zeitgeist* currently unfolding in critical theory It brings Leo Bersani's concept psychic utopia together with Judith Butler's radical egalitarianism but transports their shared critique of phallic individualization into the environmental humanities In doing so this book builds a new framework for how gender studies intersects with environmental studies

Representing from Life in Seventeenth-century Italy Sheila McTighe, 2025-10-01 In drawing or painting from live models and real landscapes more was at stake for artists in early modern Italy than achieving greater naturalism To work with the model in front of your eyes and to retain their identity in the finished work of art had an impact on concepts of artistry and authorship the authority of the image as a source of knowledge the boundaries between repetition and invention and even the relation of images to words This book focuses on artists who worked in Italy both native Italians and migrants from northern Europe The practice of depicting from life became a self-conscious departure from the norms of Italian arts In the context of court culture in Rome and Florence works by artists ranging from Caravaggio to Claude Lorrain Pieter van Laer to Jacques Callot reveal new aspects of their artistic practice and its critical implications

Painting Music in the Sixteenth Century H. Colin Slim, 2024-10-28 Professor Slim deals here with the several roles that music can play in the artworks of the Renaissance looking in particular at Italian painting of the 16th century For understandable reasons art historians sometimes neglect the role of music and especially that of musical notation when studying works of art These studies not only identify musical compositions wholly or partially inscribed in paintings and tapestries ceramics prints as well but also seek reasons why these

particular musical compositions were included and analyse their relevance to the scene depicted Furthermore as many of these studies show identifying a musical composition especially if it has a text leads to the formation of ideas about iconographical functions and thus augments interpretations of the visual art **Caravaggio** Michelangelo Merisi da Caravaggio,2007 *The Mystery of the Rosary* Nathan D Mitchell,2009-09-01 Ever since its appearance in Europe five centuries ago the rosary has been a widespread highly visible devotion among Roman Catholics Its popularity has persisted despite centuries of often seismic social upheaval cultural change and institutional reform In form the rosary consists of a ritually repeated sequence of prayers accompanied by meditations on episodes in the lives of Christ and Mary As a devotional object of round beads strung on cord or wire the rosary has changed very little since its introduction centuries ago Today the rosary can be found on virtually every continent and in the hands of hard line traditionalists as well as progressive Catholics It is beloved by popes professors protesters commuters on their way to work children learning their first prayers and homeless persons seeking shelter and safety Why has this particular devotional object been so ubiquitous and resilient especially in the face of Catholicism s reinvention in the Early Modern or Counter Reformation Era Nathan D Mitchell argues in lyric prose that to understand the rosary s adaptability it is essential to consider the changes Catholicism itself began to experience in the aftermath of the Reformation Unlike many other scholars of this period Mitchell argues that after the Reformation Catholicism actually became more innovative and diversified rather than retrenched and monolithic This innovation was especially evident in the sometimes subversive visual representations of sacred subjects such as in the paintings of Caravaggio and in new ways of perceiving the relation between Catholic devotion and the liturgy s ritual symbols The rosary was thus involved not only in how Catholics gave flesh to their faith but in new ways of constructing their personal and collective identity Ultimately Mitchell employs the history of the rosary and the concomitant devotion to the Virgin Mary with which it is associated as a lens through which to better understand early modern Catholic history
