Multidisciplinary Perspectives on Machiavelli Patricia Vilches,Gerald Seaman,2007-07-30 The thought and influence of Machiavelli have had a significant impact on a variety of academic disciplines including political science and government history literature language theatre and philosophy Rather than inscribe Machiavelli within the boundaries of a single academic approach tradition or discourse this volume assembles multidisciplinary perspectives on his writings on government on his creative works and on his legacy The result is intended to appeal at once to generalists seeking baseline knowledge of Machiavelli and to specialists who are interested in critical views of Machiavelli that use a broad lens and that approach their subject from different angles Contributors include Susan Ashley Salvatore Bizzarro Julia Bondanella JoAnn Cavallo Salvatore Di Maria Marie Gaille Nikodimov Eugene Garver Joseph Khoury William Klein Sante Matteo Gerry Milligan RoseAnna Mueller John Roe Gerald Seaman Charles Tarlton Patricia Vilches and Mary Walsh Gareth Wilson,2010-07 Religion is a duplicitous invention of primitive humans diametrically opposed to our moral intuition and driven by belief in gods whose existence is neither evident nor probable These are just some of the damning conclusions reached by Gareth Wilson within his pulsating assessment of organised faith Sweeping aside the punditry of religious apologists and their critique of previous atheist works The Plain Truths of Religion is the most extensive and full blooded summation of both the nature and purpose of humankind s greatest belief systems As such this piece is as raw as it is incisive and certainly not a read for the faint hearted *The Rope and the Chains* Cary Joseph Nederman,2023-04-04 Niccol Machiavelli counts among the most famous and infamous political authors in the history of Western political thought primarily on account of his book the Prince Before he wrote that notorious treatise however he served for fourteen years as a prominent and active civil administrator in the government of the Republic of Florence Removed from office in 1512 following a take over by the Medici dynasty that had ruled the city during much of the fifteenth century Machiavelli was incarcerated and tortured as a result of

unsubstantiated accusations of his involvement in a coup plot Soon after his release from prison he composed the Prince which is generally seen to constitute the beginning of his career as a political theorist as well as a comic playwright poet and military analyst of note Yet little attention has been devoted to the large body of writings in the form of prose and poetry as well as the hundreds of pages of diplomatic and personal correspondence that he produced in the course of his public service In an unprecedented interpretation The Rope and the Chains carefully examines the neglected pre Prince texts in order to frame his later theories The book reveals that Machiavelli s thought prior to the Prince was largely conventional when judged by the standards of his day At the same time it also demonstrates his dissatisfaction with the intellectual worldview in which he was enmeshed Machiavelli became Machiavelli once liberated from the rope and the chains by which centuries of tradition had constrained him

Shakespeare's Political and Economic Language Vivian Thomas,2015-03-26 Shakespeare s plays are pervaded by political and economic words and concepts not only in the histories and tragedies but also in the comedies and romances The lexicon of political and economic language in Shakespeare does not consist merely of arcane terms whose shifting meanings require exposition but includes an enormous number of relatively simple words which possess a structural significance in the configuration of meanings Often operating by such means as puns they open up a surprising number of possibilities The dictionary reveals the conceptual nucleus of each term and explores the contexts in which it is embedded The overlap between the political and economic dimensions of a word in Shakespeare s drama is particularly exciting as he is

highly attuned to the interactions of these two spheres of human activity and their centrality in human affairs

Machiavelli in the Making Claude Lefort, 2012-03-30 In *Machiavelli in the Making* the influential French scholar and public intellectual Claude Lefort introduces a wholly novel interpretation of Niccol Machiavelli's oeuvre revealing in the Florentine's thought a thoroughly modern concept of the political with implications for our experience of politics here and now Lefort extricates Machiavelli's thought from the dominant interpretations of Machiavelli as the founder of objective political science which having liberated itself from the religious and moralizing tendencies of medieval political reflection attempts to arrive at a realistic discourse on the operations of raw power Lefort ultimately finds that Machiavelli's discourse opens the place of the political which had previously been occupied by theology and morality An essential contribution to the ongoing reassessment of Machiavelli's significance *Machiavelli in the Making* also stands as a crucial text for the understanding of Lefort's later writings on democracy and totalitarianism
