**Machiavelli, Leonardo, and the Science of Power** Roger D. Masters, 2016-10-14 In recent years Niccol Machiavelli's works have been viewed primarily with historical interest as analysis of the tactics used by immoral political officials Roger D Masters a leading expert in the relationship between modern natural sciences and politics argues boldly in this book that Machiavelli should be reconsidered as a major philosopher whose thought makes the wisdom of antiquity accessible to the modern and post modern condition and whose understanding of human nature is superior to that of Hobbes Locke Rousseau Marx or Mill Central to Masters's claim is his discovery based on previously untranslated documents that Machiavelli knew and worked with Leonardo da Vinci between 1502-1507 An interdisciplinary tour de force Machiavelli Leonardo and the Science of Power will challenge perplex and ultimately delight readers with its evocative story of the relationship between Machiavelli and da Vinci their crucial roles in the emergence of modernity and the vast implications this holds for contemporary life and society *Machiavelli Leonardo Science of Power* Roger D Masters, 1995-07-31 **Inspiring the**

**Youth of America by Remington Registry** J. Alex Ficarra, 2016-08-10 Here at Remington many people are curious about this powerful book commonly known as Inspiring the Youth of America Well as you may know our youth today in America are in dire need of mentorship and guidance This book is a whole new step forward for all of us as a civilization For many years and even today young Americans wander aimlessly in a pool of confusion They end up in meaningless careers with no past no future and nothing to hope for Undoubtedly the end result is misery and despair The end result is poverty and surely a feeling of emptiness Well we at Remington after interviewing over thirty thousand professionals were shockingly surprised to find that many successful professionals were disgusted with vanity publications They were disappointed with the meaningless dribble of a phone book type registry that possibly required a magnifying glass just to read But surprisingly enough these professionals encouraged any use of their biography for humanitarian purposes Undoubtedly mentorship for our youth fell into that category So there it was born Our proudest moment as publishers was laid out before us But there was one big problem All these people needed to be interviewed in depth and generic biographies certainly would not inspire So with that we swallowed hard and our staff got to work Yes it was and still is a grueling time consuming mission and undertaking But in the end as you may witness as you read this book the content is quite spectacular and certainly worth the effort We would also like to mention that the participants in this book also spent much time sending us information and encouraging us to make this book worthy of their efforts Now it was up to us to uphold the dignity of these professionals and forge forward into a future where a student can explore his or her life with the ability to fulfill their own potentials With that this book is presented to you today and we hope that you share in our dream to build a better America from where it really matters our youth [René Girard and the Western Philosophical Tradition, volume 1](#) Andreas Wilmes, George A. Dunn, 2024-07-01 This edited volume situates Ren Girard in relation to the Western philosophical tradition Each chapter engages the French

anthropologist in dialogue with a key figure from the history of Western philosophy from Plato to Kierkegaard The pivotal question of Ren Girard and the Western Philosophical Tradition revolves around Girard s assertion Since the attempt to understand religion on the basis of philosophy has failed we ought to try the reverse method and read philosophy in the light of religion Major philosophers influenced Girard and contributed valuable insights into questions of desire religion violence and the sacred At the same time he felt that Western philosophy often if not always neglected the founding violence that lies at the origin of culture This is the first collective scholarly effort at situating Ren Girard in relation to the Western philosophical tradition Volume 1 features chapters on Plato Augustine of Hippo Niccol Machiavelli Thomas Hobbes Blaise Pascal Baruch Spinoza Jean Jacques Rousseau Adam Smith Immanuel Kant Georg Wilhelm Friedrich Hegel Friedrich Wilhelm Joseph Schelling Alexis de Tocqueville S ren Kierkegaard and Ren Girard      **The lost papers of Zoroastro** □□□□□□□□

Susan Grundy,2021-09-21 Relevant Challenging A paradigm shift Little considered by insiders who control Leonardo s modern biography Zoroastro Masino was an Italian man with a Persian name He was an actual historical person recorded as a magician a metallurgist a discoverer an alchemist and a prophet Marginalized by xenophobic forces even before he passed away Zoroastro was mocked for a name common people could not pronounce Zoroastro s epitaph called him a man of probity a natural philosopher who was outstandingly generous He was friends with high ranking Italians and his bones were preserved in a tomb in Rome wedged between a well known Italian poet and a Greek scholar Then his sepulcher was destroyed in the 17th century and his entire literary legacy stolen This book brings to light proposed lost Zoroastro writings including a missing treatise on anatomy plagiarised by a Swiss physician in the sixteenth century a book on games and magic wrongly ascribed to Luca Pacioli and published under a pretentious Latin title De viribus quantitatis and a book of personal philosophy which the nineteenth century German philosopher Friedrich Nietzsche misappropriated and published as his own work Thus Spake Zarathustra A further anonymously published poem Antiquarie prospettiche romane is also reinterpreted There are also the Notebooks long attributed to the Tuscan painter Leonardo da Vinci yet discovered in the late nineteenth century to be full of Eastern wonders and tales of exotic travels in the Middle East Were some of these Zoroastro s The lost papers of Zoroastro follows two previous titles by the same author Leonardo the making and breaking of a myth and The Stolen Notebooks Leonardo da Vinci and the man from the East      **The Asian Infrastructure Investment Bank** M.

Wan,2016-04-29 This book assesses the strategic significance of the Asian Infrastructure Investment Bank AIIB by examining the logic of international power and order historic trends in East Asian international relations the AIIB s design in comparison to rival financial institutions such as the World Bank and the Asian Development Bank recent tendencies in Chinese foreign policy and the Chinese system of political economy It focuses on how China constructs international arrangements at a critical juncture in history compared to other great powers especially the United States and Japan Viewed in isolation the AIIB does not represent a radical departure from the existing international order it is a hybrid institution built

on China's integration into the West dominated international structure and conditioned by the global financial market But the AIIB does draw in part from a different institutional lineage a different historical root and a different national system of political economy In this context China's greater success will constitute a partial change to the existing international order whatever the Chinese intention

Dichotomy of Power Richard A. Matthew,2002-01-01 Dichotomy of Power studies the future of the nation state as the world s basic political organization and the foundation of modern international relations Richard A Matthew argues that this Hegelian construct once championed as the rational and preferred basis for global order developed through a series of dichotomies the cut and thrust of realism mediated by idealism coercive power politics balanced by a constitutive mode of power and a collaborative search for a just society The book analyzes the conceptualization of the nation state in the Western tradition of political thought from the classical bifurcation of politics to the postmodern debate about the nation state as the ideal mechanism for organizing power in a new global age

**Fortune and the Dao** Jason P. Blahuta, 2015-04-16 Times of prolonged conflict spur great minds to seek a lasting peace Thus was the case of Warring States China which saw the rise of the Hundred Schools of Thought including the Daodejing and the Han Feizi and Renaissance Italy which produced Niccol Machiavelli Witnessing their respective societies fall prey to internal corruption and external aggression all three thinkers sought ways to produce a strong stable state that would allow both the leader and the populace to endure Fortune and the Dao A Comparative Study of Machiavelli the Daodejing and the Han Feizi demonstrates where the shortcomings of each theory lie with emphasis on the similarities among Machiavelli Laozi and Han Feizi Jason P Blahuta ultimately argues that if Machiavelli's philosophy the most comprehensive of the three theories were supplemented by aspects of the Daodejing the revision would potentially overcome the deficiencies of the original

**The Remington Registry of Outstanding Professionals 2011-2012** J Alex Ficarra, 2012-09-11 Undoubtedly growing up during the Vietnam War water gate and gas shortages can have a profound effect on a child Also being the son of immigrant parents most certainly can lead to a traumatizing clash of cultures and the understanding of right and wrong With that being said the Remington Company gave me the honor of a lifetime by letting me express my thoughts in unison with telling the brilliant stories of professionals around the world As I wrote endlessly 24 hours a day I realized that our world is full of hope and real promise I realized that it wasn't about war ideology and the pursuit of global domination I realized that in the pages of this great book great things were about to happen if only these stories can be made public I realized that I had the opportunity of a lifetime by expressing the Humanitarian attributes that these professionals continually made After many years of writing I realized that the Remington Company had a distinct and noble purpose and perhaps we could not change the present but we could certainly try to change our future With that we created our Mentorship Program which gets these prolific stories out to the children We wrote the stories with zest but never crossed the line of respect or dignity We wished to capture the hearts of our audience and prove to them that giving was not an option but more so our duty as life forms on our planet Today our book has a theme Inspiring the youth of America This theme was our way of telling the world Lets hold hands and prepare our children for a better life today I continue to write for the Registry My life has irrevocably changed for the better I volunteer for any thing all the time I enjoy moments of quiet and the appreciation of our environment I read these biographies in amazement as everyone else does and it never seems to get uneventful Either way I sincerely hope you enjoy these

biographies and use them to strengthen your spirit and confidence about our existence as a species on this planet I patiently wait for divine intervention in order to write my next biography and am happy to serve the brilliant members of the Remington Registry of Outstanding Professionals

**Fortune Is a Woman** Hanna Fenichel Pitkin,1999-10-15 Hanna Pitkin's study of Machiavelli was the first to place gender systematically at the center of its exploration of his political thought Rife with contradictions Machiavelli's writings have led commentators to characterize him as everything from a civic republican to a proto fascist Acknowledging these contradictions Pitkin shows that they reflect three distinct ways of thinking about politics each of which is tied to a different understanding of manhood In a new Afterword Pitkin discusses the book's critical reception and situates its arguments in the context of recent interpretations of Machiavelli's thought Jacket Leo Strauss, The Straussians, and the Study of the American Regime Kenneth L. Deutsch, John A. Murley,1999-09-28 Responding to volatile criticisms frequently leveled at Leo Strauss and those he influenced the prominent contributors to this volume demonstrate the profound influence that Strauss and his students have exerted on American liberal democracy and contemporary political thought By stressing the enduring vitality of classic books and by articulating the theoretical and practical flaws of relativism and historicism the contributors argue that Strauss and the Straussians have identified fundamental crises of modernity and liberal democracy This book emphasizes the broad range of Strauss's influence from literary criticism to constitutional thought and it denies the existence of a monolithic Straussian political orthodoxy Both critics and supporters of Strauss thought are included All political theorists interested in Strauss's extraordinary impact on political thought will want to read this book
