Changing Clothes in China Antonia Finnane, 2023-05-30 Historians have long regarded fashion as something peculiarly Western In this surprising sumptuously

illustrated book Antonia Finnane challenges this view which she argues is based on nineteenth and twentieth century representations of Chinese dress as traditional and unchanging. Fashions she shows were part of Chinese life in the late imperial era even if a fashion industry was not then apparent. In the early twentieth century the key features of modern fashion became evident particularly in Shanghai and rapidly changing dress styles showed the effects. The volatility of Chinese dress throughout the twentieth century matched vicissitudes in national politics. Finnane describes in detail how the close fitting jacket and high collar of the 1911 Revolutionary period, the skirt and jacket blouse of the May Fourth era and the military style popular in the Cultural Revolution gave way finally to the variegated globalized wardrobe of today. She brilliantly connects China's modernization and global visibility with changes in dress offering a vivid portrait of the complex subtle and sometimes contradictory ways the people of China have worn their nation on their backs.

Textiles of Southeast Asia Robyn Maxwell, 2012-08-07 Textiles provide a visual history of a country's culture and crafting traditions in a way few other things can accomplish. In *Textiles of Southeast Asia* Dr Robyn Maxwell provides the definitive work on Southeast Asian textiles. Traditional textiles are one of the most widely collected and important categories of Southeast Asian art. Using an extensive range of locally produced raw materials and an astonishing array of techniques including applique, weaving, batik and embroidery, the textiles of Southeast Asia are astonishing in their versatility and originality. Textiles are used to fashion everything from everyday clothing to sacred and ceremonial costumes, shrouds and wrapping cloths, hangings, banners and ritual regalia, all of which are represented and explained in *Textiles of Southeast Asia*. This authoritative text focuses on the changing relationship between indigenous Southeast Asian traditions and the outside influences continuing to be brought to the area which change the nature of the region's textile traditions. This book considers the various ways Southeast Asian textile artisans reacted over the centuries to the steady stream of new and powerful ideas and raw materials arriving from India, China, the Islamic world and Europe. A detailed and definitive resource, *Textiles of Southeast Asia* is a welcome addition to the field of textiles.

Medieval Clothing and Textiles Robin Netherton, Gale R. Owen-Crocker, 2014 The best new research on medieval clothing and textiles drawing from a range of disciplines. The usual wide range of approaches to garments and fabrics appears in this tenth volume. Three chapters focus on practical matters: a description of the medieval vestments surviving at Castel Sant'Elia in Italy; a survey of the spread of silk cultivation to Europe before 1300 and a documentation of medieval colour terminology for desirable cloth. Two address social significance: the practice of seizing clothing from debtors in fourteenth century Lucca and the transformation of the wardrobe of Margaret Tudor, daughter of King Henry VII upon her marriage to the king of Scotland. Two delve into artistic symbolism: a consideration of female headaddresses carved at St Frideswide's Priory in Oxford and a discussion of how Anglo-Saxon artists used soft furnishings to echo emotional aspects of narratives. Meanwhile in an exercise in historiography there is an examination of the life of Mrs A G I Christie, author of the landmark *Medieval English Embroidery*. ROBIN NETHERTON is a professional editor and a
