Pang-Yuan Chi, David Der-wei Wang

Mandate Of Heaven In China A New Generation Of Entrepreneurs Dissidents Bohemians And Technocrats:

Mandate of Heaven Orville Schell, 1994 As China's importance on the world stage grows it becomes increasingly necessary that the West acquaint itself with the new China and get to know these young people who must now negotiate a way out of their country's myriad contradictions With his knowledge of Chinese history and his unparalleled understanding of the Chinese people Schell is the perfect writer to interpret the changes that will determine the future of this important but uncertain land **BOOK JACKET**

Modern Chinese Warfare, 1795-1989 Bruce A. Elleman, 2005-07-28 A survey of Chinese warfare both internal and international from the opium wars of the 1840s through to the end of Vietnam

Chinese Foreign Relations: Reflections On Knowledge Production Ming Wan, 2024-11-12 With China's global ascendancy Chinese foreign policy has become a popular area of study for scholars around the world Rather than simply contributing to this subject this book sets out to reflect on the field itself using as samples some of the author's previous work both published and unpublished covering different areas of Chinese foreign policy and adopting different approaches In doing so it examines how knowledge about Chinese foreign policy has developed focusing on areas such as traditions values perspectives and regionalism The field of Chinese foreign policy has evolved along with international relations and foreign policy analysis Studies on specific topics have generally been of high quality thanks to the competitive and extensive nature of academic research and exchange despite a perceived failure to predict Beijing's current assertive foreign policy orientation Looking forward this book reflects on how certain current tendencies excessive focus on national security narrowing of academic exchange and access between China and the West and a shift to rivalry driven analysis threaten to lower the quality of future Chinese foreign policy studies in Western countries

Chinese Literature in the Second Half of a Modern Century Pang-Yuan Chi, David Der-wei Wang, 2000-09-22 an important contribution to the study of recent Chinese literature Choice This fine scholarly survey of Chinese literature since 1949 discusses such trends as modernism nativism realism root seeking and scar literature misty poets and political feminist and societal issues in modern Chinese literature Library Journal This volume is a survey of modern Chinese literature in the second half of the twentieth century It has three goals 1 to introduce figures works movements and debates that constitute the dynamics of Chinese literature from 1949 to the end of the century 2 to depict the enunciative endeavors ranging from ideological treatises to avant garde experiments that inform the polyphonic discourse of Chinese cultural politics 3 to observe the historical factors that enacted the interplay of literary post modernities across the Chinese communities in the Mainland Taiwan Hong Kong and overseas

Tiger on the Brink Bruce Gilley, 1998-10-01 This pathbreaking book is the first full length study of the rise to power of Jiang Zemin now the central figure in China's third generation of leaders Tracing Jiang's beginnings as a student in the underground Communist movement in Shanghai through his appointment by Deng Xiaoping as party general secretary and his sudden elevation to central authority in the wake of the 1989 Tiananmen Massacre in Beijing Bruce Gilley offers a fascinating and highly

readable look at how Jiang Zemin has secured his position as one of the world's most powerful figures Gilley follows Jiang's life and career from his early years as the adopted son of a revolutionary martyr through his training in Western science and engineering to his emergence as what many believed would be an interim figurehead in the wake of Tiananmen Gilley shows how Jiang instead persisted as China's key leader following the death of Deng Xiaoping While he shared the concerns of the last of the Party elders including their idealistic views of Chinese socialism he also accommodated the younger generation of economic reformers who have helped China to achieve staggering growth in its domestic economy and foreign trade Gilley's analysis of the careful and methodical transition of power from Deng to Jiang during the 1990s is a remarkable study in complexity and contrast clearly illustrating Jiang's ability to either placate his allies and adversaries or ruthlessly exploit their weaknesses Based on first hand interviews and primary documents as well as a variety of mainland Chinese and international media sources *Tiger on the Brink* is an unprecedented and immensely revealing look into the highest echelons of Chinese politics on the eve of the twenty first century and will be of interest to anyone concerned with the world's most populous nation and its newest emerging superpower *Chinese Political Culture, 1989-2000* , An analysis of Chinese political culture It is divided into three major areas Chinese identities and popular culture including regional identities public opinion surveys the Beijing area Chinese workers the Shanghai area and ideological debates such as the new Confucianism

Chinese Political Culture Shiping Hua, Andrew J. Nathan, 2016-07-08 Until this book there has been no comprehensive methodologically aware study of all aspects of Chinese political culture The book is organized into three major areas Chinese identities and popular culture regional identities anti politics attitudes Hong Kong identity public opinion surveys the Beijing area Chinese workers the Shanghai area and ideological debates the new Confucianism masculinity and Confucianism why authoritarianism is popular in China the decline of Chinese official ideology Here is the first work that reveals just how much how rapidly and how dramatically China is changing and why our perceptions of China must keep pace *Global Goes Local* Timothy J. Craig, Richard King, 2010-10-01 Cheap mechanical and satellite transmissions have made a predominantly North American culture available to a global audience Does this mean that rock n roll soap opera reruns and professional wrestling will destroy Asian traditions and leave Asian nations to produce nothing but imitations of a shallow hedonistic alien culture Far from it In *Global Goes Local* international scholars from a variety of disciplinary perspectives examine different forms of popular culture in Asia Covering topics from pop music in Korea to TV commercials in Malaysia this collection shows how imported cultural forms can be invested with fresh meaning and transformed by local artists to result in new forms of assertion and resistance that also meet the needs of their particular audiences *Global Goes Local* addresses significant questions being considered by scholars of popular culture and offers case studies of how culture survives or prospers in Asian communities in an age of global communication **Party Hegemony and Entrepreneurial Power in China** Elena Meyer-Clement, 2015-09-16 Economic liberalisation processes and the rapid development of the private sector are widely

visible signs of over thirty years of reform policies in the People's Republic of China. Nevertheless the Chinese Communist Party (CCP) has managed to preserve the basic political institutions of the Leninist Party state including its own unrestrained position of political power. Against this background this book investigates the interrelationship between processes of marketisation and commercialisation and the stability of the CCP regime. The aim of the book is to complement existing literature on adaptive governance in China and on the reasons for the CCP regime's relative stability while providing new information about the relationship between the Chinese party state and private entrepreneurs. Taking case studies from the film and music industries the book gives a detailed account of the political and economic history of these industries in China with special attention given to the role played by private production companies as intermediaries between artistic creation and political and ideological constraints and the market. A historical institutionalist approach is employed to trace the effect of Chinese policies on popular culture and the institutions of administrative, economic, political and ideological control over the film and music industries back to the 1950s, revealing the mechanisms and prospects of CCP hegemony in the cultural sector. Examining the effects of the marketisation and commercialisation processes on the communist regime and vice versa, this book also offers a fresh perspective on the origins of today's Chinese popular cultural mainstream. It will therefore be of great interest to students and scholars of Chinese politics, Chinese culture and media, and Chinese government-business relations.

From Revolution to Reform He Li, 2004. In *From Revolution to Reform* He Li examines political and economic transformation in China and Mexico from the Mexican and Chinese revolutions at the beginning of the 20th century to economic reforms and political liberalization in recent decades. Li also explores lessons that other developing countries could learn from the experiences of China and Mexico.

A History of East Asia Charles Holcombe, 2011. This book traces the story of East Asia from the dawn of history to the present.

China In The Post-utopian Age Christopher J. Smith, 2019-04-11. *China in the Post Utopian Age* is an interdisciplinary book about China in the post-utopian age, focusing on the transformations that have occurred during the leaderships of Deng Xiaoping and Jiang Zemin throughout the 1980s and 1990s.

Covering China Ralph Izard, 2018-01-18. The relationship between China and the United States has been marked by a lack of mutual comprehension that stretches from America's missionary paternalism in the early twentieth century to the fears and fascinations of the present. Throughout the twentieth century China has attracted the attention of American journalists from the first China hands who covered an ancient country lurching into the modern world to the chroniclers of World War II and the Chinese civil war to the reporters who today explore the contradictions of China's economy. *Covering China* looks at the questions, concerns and conceptions of all the generations of American reporters against the backdrop of Chinese history and China's own media. *Covering China* is divided into three sections. *Histories* takes up the events, anniversaries and processes that have shaped Chinese and American media coverage over the century. Included here are chapters focusing on the civil war and analyzing American reporting in the 1930s and 1940s in their many viewpoints as well

as in the decades when China was closed to American journalists Other chapters consider the influence on journalism of various political movements from the anti Western May 4th movement of 1918 to the Tiananmen Square protests of 1989 Communicating explores the challenges of explaining China to Americans and America to the Chinese Among the topics covered here are the Chinese media reaction to the Clinton scandal the status of Hong Kong as a window between China and the West Communist efforts to control public opinion in the media and the pioneering role of Pearl S Buck in interpreting China for American readers The concluding section Issues examines important stories now emerging in China that will matter to both journalists and China watchers including the changing roles of Chinese women little covered instances of ethnic unrest and the complexities of economic and environmental stories The variety of points of view expressed in Covering China is a testament to the vigor of contemporary writing on China As one contributor notes American media coverage of China needs to challenge existing assumptions and be ready for the unexpected By doing so journalists can minimize the sense of shock that erupts in America at each swing of Chinese history Covering China will be of interest to China area specialists journalists and cultural historians Robert W Snyder is managing editor of the Media Studies Journal a historian and author of Transit Talk New York s Bus and Subway Workers Tell Their Stories He has taught at Princeton University and New York University

The Chinese Capital Market Annette Kleinbrod, 2008-03-12 The significance of China s development reaches far beyond the country s domestic concerns This is due to a variety of factors among them the country s rapid growth and development and its increasingly open borders allowing it to become a member of the regional and international community of states over the last twenty five years China is not a major force yet but its voice is gaining influence Simultaneously its development on domestic regional and international levels is a huge uncertainty which inheres both potential and risk and is likely best described by the title of Johnny Erling s book China der grosse Sprung ins Ungewisse China the Great Leap into the Unknown Thereby the attempts to understand the relevant processes and related prospects often appear to be an endless puzzle which allows for further insight with every piece that can be added while a certain dimension of mystery remains as China develops further Today China s development is challenged considerably by a number of factors in the fields of the society policy economy and environment Finding a viable solution to these challenges and sustaining development is a concern of great priority to the Chinese government A decisive question with this in mind is how the financial system could be enhanced to a level at which it would be an effective catalyst for development

The Columbia Guide to Modern Chinese History R. Keith Schoppa, 2000-08-05 China the world s oldest and most populous state remains an enigma to most people in the West even at a time when that country is playing an increasingly prominent role on the international stage At the heart of modern Chinese history have been the efforts of the Chinese people to transform their polity into a modern nation state the Confucian orthodoxy into an ideology that can help direct that process and an agrarian economy into an industrial one These efforts are ongoing and of great importance This book is both an introduction to the

major features of modern Chinese history and a resource for researchers interested in virtually any topic relating to the Chinese experience of the last 220 years This valuable reference contains a historical narrative providing a comprehensive overview of five core aspects of Chinese history domestic politics society the economy the world of culture and thought and relations with the outside world a compendium of 250 short descriptive articles on key figures events and terms a resource guide containing approximately 500 annotated entries for the most authoritative sources for further research in English as well as descriptions of important films depicting modern China and a guide to electronic resources and appendices including a chronology excerpts from key primary source documents and a wealth of tables and graphs on demographic social and economic trends 2013 N. Nosirrah,Stephen Grace,2010-04-16 Have you ever awakened in the night wondering if you would survive the impact of a meteorite a mutating viral pandemic turning the population into flesh eating zombies the melting polar ice caps altering the climate into an inhospitable methane laced bog or simply God raining down fire and brimstone and turning off the lights Then this is your essential guide to survival prosperity and peace when the world ends
