The Sustainment Battle Staff & Military Decision Making Process (MDMP) Guide Dr Col (Ret) John M Menter, John M. Menter, 2009 Since 2004 the US Army has started a revolution of reorganization and doctrine development throughout its Combat Combat Support and especially Combat Service Support logistics organizations known as Transformation In the logistics or Sustainment arena the Army's concept towards supporting other units has changed from the old out stockpile the enemy concept towards a system used by modern civilian distributors Just In Time sustainment leaving planning and synchronizing throughput of commodities and support to the customer with little margin of error To successfully accomplish this Sustainment planners must thoroughly understand the Military Decision Making Process or MDMP for short Conducting a Sustainment oriented MDMP is essential in integrating the Sustainment War Fighting Functional Area into the unit's plan and for ensuring a synchronized and supportable course of action Successful integration is a result of having the right personnel available tools correct MDMP methodology and synchronized timeline throughout the process If this guide can assist logistics planners in accomplishing this process then it has accomplished its intent and mission

Defence Policy of Nigeria: Capability and Context

Charles Quarker Dokubo, Celestine Oyom Bassey, 2011-01-20 This Reader provides a structurally coherent explanation and review of the magnified role conception and organizational task expansion for the Nigerian military establishment in foreign policy It argues essentially that one of the most problematic and intractable areas of public policy in Nigeria since the Civil War concerns the development of a professional defence establishment adequate to meet the challenges arising from the altered parameters of our security environment The correction of this condition is the primary motivation of the Armed

Forces modernization and augmentation program that touches upon all elements of Nigeria's military power. This Reader is at once a review and a critique of the major facets of this modernization and augmentation process of the Nigerian armed forces within the operative context of the changing dimension of threat perception and the strategic parameters that have guided Nigerian military planning since the Civil War in 1970.

Understanding the Complexity of Emergency Supply Chains Matt Shatzkin, 2017-04-28 While conventional commercial supply chains may be complicated, emergency supply chains are inherently complex. In responding to an emergency, they lack a developed forecast, primarily use manual requisitioning systems, and do not possess sophisticated means to sense and respond to the rapidly emerging and changing demand. Multiple stakeholders come together many for the first time to execute on the fly. Their success is mostly defined by effectiveness in either preserving combat capability or providing relief; the primary focus becomes getting the job accomplished at all costs. As a result, supply chain efficiency is an afterthought and optimization is difficult if not undesired. This book completes the education of both practitioners and academics across multiple domains and disciplines. It contributes to military and nongovernmental operators, logisticians, and organizations' understanding of emergency supply chain strengths and vulnerabilities. Similarly, emergency management professionals will gain a sense of how these supply chains accomplish, limit, or constrain the emergency management process. Undergraduates and other supply chain professionals seeking a deeper understanding of supply chains will also benefit as the book explores circumstances that run contrary to supply chain theory and thus reinforces a solid grasp on supply chain fundamentals.

Wars of Modern Babylon Pesach Malovany, 2017-07-21 As long as there have been wars, victors have written the prevailing histories of the world's conflicts. An army that loses, and especially one that is destroyed or disbanded, is often forgotten. Nevertheless, the experiences of defeated forces can provide important insights, lessons, and perspectives not always apparent to the winning side. In *Wars of Modern Babylon*, Pesach Malovany provides a comprehensive and detailed history of the Iraqi military from its formation in 1921 to its collapse in 2003. Malovany analyzes Iraqi participation in the 1948, 1967, and 1973 Arab wars against Israel, as well as Iraq's wars with the Kurds during the twentieth century. His primary focus, however, is the era of Saddam Hussein (1979–2003), who implemented rapid and significant military growth and fought three major wars: against Iran from 1980 to 1988, and against coalition forces led by the United States in 1991 and 2003. He examines the Iraqi military at the strategic, operative, and tactical levels, explains its forces and branches, and investigates its use of both conventional and unconventional weapons. The first study to offer a portrait of an Arab army from its own point of view, *Wars of Modern Babylon* features interviews with and personal accounts from officers at various levels, as well as press accounts covering the politics and conflicts of the period. Malovany also analyzes books written by key figures in the Iraqi government and the army's high command. His definitive chronicle offers English speakers new and overlooked perspectives on critical developments in twentieth-century history. The book won the Israel Yitzhak Sade Award for Military Literature in 2010.
