Mythical Times:

Times of Security Martin Holbraad, Morten Axel Pedersen, 2013-06-07 In the current world disorder security is on everyone's lips. But what is security from a cross-cultural perspective? How is it imagined and experienced by people on the ground? Crucially, what visions of the future are at stake in people's potentially divergent concerns with security? What and when is the time of security? Exploring diverse notions and experiences of time involved in security practices across the globe, this volume brings together a selection of international scholars who conduct ethnographic research in a broad ambit of securitized contexts: from the experience of Palestinian detainees in Israel or forms of popular violence in Bolivia to efforts to normalize social relations in post-conflict Yugoslavia and ways of imagining threat in left radical protest movements in Northern Europe. Interrogating recent debates about the role of securitization in contemporary politics, the book paves the way for novel forms of security analysis at the crossroads between anthropology and political science, focusing on the comparative study of the temporalities of securitization in a multi-polar world. Offering a pioneering synthesis, the book will be of interest not only to anthropologists but also to students and scholars in political science and the growing field of Security Studies in International Relations.

Language Myths and the History of English Richard J. Watts, 2011-02-01 Language Myths and the History of English aims to deconstruct the myths that are traditionally reproduced as factual accounts of the historical development of English Using concepts and interpretive sensibilities developed in the field of sociolinguistics over the past 40 years Richard J Watts unearths these myths and exposes their ideological roots His goal is not to construct an alternative discourse but to offer alternative readings of the historical data Watts raises the question of what we mean by a linguistic ideology and whether any discourse a hegemonic discourse an alternative discourse or even a deconstructive discourse can ever be free of it The book argues that a naturalized discourse is always built on a foundation of myths which are all too easily taken as true accounts *A Companion to Greek and Roman Historiography* John Marincola, 2010-12-09 This two volume Companion to Greek and Roman Historiography reflects the new directions and interpretations that have arisen in the field of ancient historiography in the past few decades Comprises a series of cutting edge articles written by recognised scholars Presents broad chronological treatments of important issues in the writing of history and antiquity These are complemented by chapters on individual genres and sub genres from the fifth century B C E to the fourth century C E Provides a series of interpretative readings on the individual historians Contains essays on the neighbouring genres of tragedy biography and epic among others and their relationship to history *Myths and Places* Shonaleeka Kaul, 2023-06-23 This volume explores the dialogic relationship between myths and places in the historically geographically and culturally diverse context of India Given its ambiguous relationship with facts and empirical reality myth has suffered an uncertain status in the field of professional history with the latter's preference for scientism over more creative orders of representation Myths and Places rehabilitates myth not as history's primeval Other nor as an instrument of socio religious propagation but as communitarian mechanisms by which societies made sense of themselves and their world It argues that myths helped communities fashion their identities and their habitat habitus and were fashioned by these in turn This book explores diverse forms of territorial becoming and belonging in a grassroots approach from across India studying them in culturally sensitive ways to recover local life worlds and their self understanding Further challenging the stereotypical bracketing of the mythical with the sacred and the material with the historical the multidisciplinary essays in the book examine myth in relation to not only religion but other historical phenomena such as ecology ethnicity urbanism mercantilism migration politics tourism art philosophy performance and the everyday This book will be of interest to scholars and general readers of Indian history regional studies cultural geography mythology religious studies and anthropology
