Petit Apartheid In Criminal Justice:

Petit Apartheid in the U.S. Criminal Justice System Dragan Milovanovic, Katheryn Russell-Brown, 2001 Petit apartheid refers to the hidden informal types of racial bias that permeate various stages of the criminal justice system. Notably, these informal practices are not included in most evaluations of racial discrimination. This book offers the first detailed consideration of petit apartheid through a series of essays by criminal justice experts. *Petit Apartheid in the U.S. Criminal Justice System* brings long overdue attention to the reality of how race affects criminal justice processing. This volume makes a strong case that further research, new policy, and ultimately new practices are needed to stem the tide of racial bias in the criminal justice system. The authors' meticulous detailing of what petit apartheid looks like in action and what it sounds like in everyday exchanges promotes awareness, a mandatory starting place for changing habits or minds. *American Journal of Criminal Law* 2002

Criminal Justice Ethics Cyndi Banks, 2009 Following on the success of its First Edition, which was praised for its comprehensive coverage and flexible organization, *Criminal Justice Ethics* Second Edition continues to explore ethical dilemmas faced by criminal justice professionals and discusses how they might be resolved, covering codes of ethics for various players and providing applied examples in the form of illustrative real-life case boxes. The Second Edition also retains the unique, praised organizational style of the previous edition, covering the interaction of ethics and the criminal justice system in Part I to lay a foundation for the ethical theories and perspectives introduced in Part II. New to this Edition: Includes a new chapter in the Second Edition, *Ethics and the War on Terrorism*, explores the very timely topic of terrorism, covering definitions of terrorism, restrictions of rights in the interests of national security, and the ethics of torture. Provides expanded treatment of important topics and offers global perspectives where appropriate. Readers will find more coverage of transparency and accountability in the criminal justice system and more comparative discussions showing how ethical challenges are addressed in other countries. Offers updated information throughout with a more accessible interior design and more robust pedagogy. Expanded coverage of timely topics and issues that impact the contemporary criminal justice system, including prostitution, drug abuse, abortion, homosexuality, human rights, terrorism, and the Patriot Act. A more appealing visual design and helpful pedagogical features, such as key terms, end-of-chapter cases, and new feature boxes, enhance student learning.

Racial Issues in Criminal Justice Marvin D. Free, 2003-09-30 Almost a third of all African American men in their twenties in the United States are in jail or prison or on probation or parole. African Americans, who comprise approximately 13% of the general population, make up about half of the prison population. Between 1980 and 2000, 38 states added more African American men to their prison systems than were added to their respective systems of higher education. However, these statistics fail to tell the entire story. To understand how the dynamics of disproportionate minority confinement came to exist, one must examine the historical and cultural antecedents that affected and continue to affect this group. Examining proposed solutions and providing alternative perspectives, this volume addresses the

overrepresentation of African Americans in the criminal justice system by critically examining the significance of race in American society and criminal justice responses to crime and African Americans Offering a critical examination of the issues this collection begins with a discussion of the marginalization of African Americans in the academic discipline of criminal justice and in the larger society an assessment of the impact of the legacy of slavery on private prisons and mass imprisonment and an empirical examination of the depiction of African Americans in prime time television crime programs Part II looks at racial profiling the underrepresentation of African Americans in hate crime victimization research the impact of race on presentencing the trend toward trying juveniles in adult court and the discriminatory treatment of African Americans in capital eligible cases Finally Part III discusses the impact of African American police officers on the profession analyzes black juror nullification proposes an increase in the presence of African American jurors and assesses the potential ameliorative impact of restorative justice on the current racial imbalance in the criminal justice system

The French Connection in Criminology Bruce A. Arrigo, Dragan Milovanovic, Robert Carl Schehr, 2012-02-01 Winner of the 2005 Outstanding Book Award presented by the Crime and Juvenile Delinquency Division of the Society for the Study of Social Problems This is the first comprehensive accessible and integrative overview of postmodernism s contribution to law criminology and social justice The book begins by reviewing the major contributions of eleven prominent figures responsible for the development of French postmodern social theory This first wave includes Roland Barthes Jean Baudrillard H l ne Cixous Gilles Deleuze Jacques Derrida Michel Foucault F lix Guattari Luce Irigaray Julia Kristeva Jacques Lacan and Jean Fran ois Lyotard Their respective insights are then linked to second wave scholars who have appropriated their conceptualizations and applied them to pressing issues in law crime and social justice research

Compelling and concrete examples are provided for how affirmative and integrative postmodern inquiry can function meaningfully in the world of criminal justice. Topics explored include confinement law and prison resistance, critical race theory and a jurisprudence of color, media, literary studies and feminism, restorative justice and victim/offender mediation processes and the emergence of social movements including innocence projects and intentional communities. Crime and Criminal Justice in American Society Randall G. Shelden, William B. Brown, Karen S. Miller, Randal B. Fritzler, 2015-06-22. Today's headlines vividly illustrate the importance of understanding aspects of the criminal justice system too often ignored. While the second edition of Crime and Criminal Justice in American Society includes the most recent statistics on the police, courts and corrections, its provocative current examples also spur critical thinking about justice in the United States. The authors offer an alternative interpretation of criminal justice rarely presented in traditional textbooks or by the media. They encourage readers to examine their beliefs about crime, punishment and the law. Discussions in the chapters about how African Americans, Hispanics, whites, women, juveniles, the rich and the poor experience crime and the criminal justice system contribute context for understanding different viewpoints. The poor and minorities are the most likely to be caught in the net of criminal justice, but inequities have consequences for everyone. Reflection on various perspectives provides helpful input for assessing attitudes and for becoming actively involved with issues that have significant consequences. Eighteen thoroughly revised chapters present historical backgrounds, theories and emerging issues. New to the second edition is a chapter on veterans involved in the criminal justice system. Affordable, succinct and engaging, this textbook presents the key concepts of the criminal justice system at less than half the cost of many competing textbooks.

Building a Black Criminology, Volume 24 James D. Unnever, Shaun L. Gabbidon, Cecilia Chouhy, 2018-10-26. In light of the Black Lives Matter movement and protests in many cities, race plays an ever more salient role in crime and justice. Within theoretical criminology, however, race has oddly remained on the periphery. It is often introduced as a control variable in tests of theories and is rarely incorporated as a central construct in mainstream paradigms, e.g., control, social learning and strain theories. When race is discussed, the standard approach is to embrace the racial invariance thesis, which argues that any racial differences in crime are due to African Americans being exposed to the same criminogenic risk factors as are Whites, just more of them. An alternative perspective has emerged that seeks to identify the unique, racially specific conditions that only Blacks experience. Within the United States, these conditions are rooted in the historical racial oppression experienced

by African Americans whose contemporary legacy includes concentrated disadvantage in segregated communities racial socialization by parents experiences with and perceptions of racial discrimination and disproportionate involvement in and unjust treatment by the criminal justice system Importantly racial invariance and race specificity are not mutually exclusive perspectives Evidence exists that Blacks and Whites commit crimes for both the same reasons invariance and for different reasons race specific A full understanding of race and crime thus must involve demarcating both the general and specific causes of crime the latter embedded in what it means to be Black in the United States This volume seeks to explore these theoretical issues in a depth and breadth that is not common under one cover Again given the salience of race and crime this volume should be of interest to a wide range of criminologists and have the potential to be used in graduate seminars and upper level undergraduate courses

Race and Crime Helen Taylor Greene, Shaun L. Gabbidon, 2011-04-18 Race and Crime A Text Reader includes a collection of recent articles on race and crime published in a number of leading criminal justice journals along with original textual material that serves to explain and unify the readings Through discussion of selected articles numerous topics are explored including the historical social economic and political contexts of race and crime such as class gender comparative perspectives justice issues theories and statistics

Interdisciplinarity and Social Justice Joe Parker, Ranu Samantrai, Mary Romero, 2012-02-01 In the 1960s and 1970s activists who focused on the academy as a key site for fostering social change began by querying the assumptions of the traditional disciplines and transforming their curricula putting into place women s and ethnic studies programs that changed both the subject and methods of scholarship The pattern of scholars and activists joining forces to open fields of research and teaching continued in subsequent decades and recent additions including critical race studies queer studies cultural studies and postcolonial studies take as their epistemological foundation the inherently political nature of all knowledge production Interdisciplinarity and Social Justice seizes this opportune moment in the history of interdisciplinary fields to review their effects on our intellectual and political landscape to evaluate their ability to deliver promised social benefits and to consider their futures The essays collected in this volume detail histories of the interdisciplinary fields that emerged from social movements examine how effectively they have achieved their goals of intellectual and social change and consider the challenges they now face inside and outside the academy

Recent Developments in Criminological Theory Scott A. Lukas, 2017-07-05 This volume contains recent and cutting edge articles from leading criminological theorists The book is organized into ten sections each representing the latest in the multi disciplinary orientations representing a cross section of contemporary criminological theory These sections include 1 Classical and Rational Choice 2 Biological and Biosocial 3 Psychological 4 Social Learning and Neutralization 5 Social Control 6 Social Ecology Sub cultural and Cultural 7 Anomie and Strain 8 Conflict and Radical 9 Feminist and Gender 10 Critical Criminologies Anarchist Postmodernist Peacemaking The

articles were selected based on their contributions to advancing the field including ways in which the authors of each chapter understand the current theoretical tendencies of their respective approaches and how they envision the future of their theories. Because of this, the articles focus on theory rather than empirical research. Of particular note is the tendency toward integration of different perspectives as described by editors Henry and Lukas in their original introduction to this volume.

Police Brutality, Racial Profiling, and Discrimination in the Criminal Justice System Egharevba, Stephen, 2016-11-17. In order to protect and defend citizens, the foundational concepts of fairness and equality must be adhered to within any criminal justice system. When this is not the case, accountability of authorities should be pursued to maintain the integrity and pursuit of justice. *Police Brutality, Racial Profiling, and Discrimination in the Criminal Justice System* is an authoritative reference source for the latest scholarly material on social problems involving victimization of minorities and police accountability. Presenting relevant perspectives on a global and cross-cultural scale, this book is ideally designed for researchers, professionals, upper-level students, and practitioners involved in the fields of criminal justice and corrections.

Hispanics in the U.S Criminal Justice System Martin Guevara Urbina, Sofia Espinoza Álvarez, 2018-05-07. This updated and expanded new edition resumes the theme of the first edition, and the findings reveal that race, ethnicity, gender, class, and several other variables continue to play a significant and consequential role in the legal decision-making process. The book is structured into three sections, each of which corresponds to a different body of work on Latinos. Section One explores the historical dynamics and influence of ethnicity in law enforcement and focuses on how ethnicity impacts policing field practices such as traffic stops, use of force, and the subsequent actions that police departments have employed to alleviate these problems. A detailed examination of critical issues facing Latino defendants seeks to better understand the law enforcement process. The history of immigration laws as it pertains to Mexicans and Latinos explains how Mexicans have been excluded from the United States through anti-immigrant legislation. Latino officers must cope with structural and political issues; the community and media as these practices and experiences within the American police system are explored. Section Two focuses on the repressive practices against Mexicans that resulted in executions, vigilantism, and mass expulsions. The topic of Latinos and the Fourth Amendment reveals that the constitutional right of people to be protected against unreasonable searches and seizures has been eviscerated for Latinos and particularly for Mexicans. Possible remedies to existing shortcomings of the court system when processing indigent defendants are presented. Section Three studies the issue of Hispanics and the penal system. The ethnic realities of life behind bars, probation, and parole; the legacy of capital punishment; and life after prison are discussed. Section Four addresses the globalization of Latinos, social control, and the future of Latinos in the U.S. Criminal justice system. Lastly, the race and ethnic experience through the lens of science, law, and the American imagination are explored, concluding with policy recommendations for social and criminal justice reform and ultimately humanizing differences. Written for professionals and students of law enforcement, this book will promote the

understanding of the historical legacy of brutality manipulation oppression marginalization prejudice discrimination power and control and white America's continued fear about racial and ethnic minorities **Advancing Critical Criminology**

Walter S. DeKeseredy, Barbara Perry, 2006-06-29 Advancing Critical Criminology constitutes a timely addition to the growing body of knowledge on critical criminology scholarship DeKeseredy and Perry have assembled a volume that provides scholars with an in depth review of the extant literature on several major branches of criminology as well as examples of how critical criminologists apply their theoretical perspectives to substantive topics such as drugs interpersonal violence and rural crime Accordingly this work is divided into two main sections overviews of theories and applications Each chapter provides a summary of work in a specific area along with suggestions for moving the field forward This reader is unique in its choice of topics which have often been overlooked in the past An expert collection of international scholars Advancing Critical Criminology is certain to stimulate lively debates and generate further critical social scientific work in this field **Hands**

Up, Don't Shoot Jennifer E Cobbina, 2020-05-12 Hands Up Don't Shoot is a current on the ground assessment of the powerful protestor driven movement around race justice and policing in America Following the high profile deaths of eighteen year old Michael Brown in Ferguson Missouri and twenty five year old Freddie Gray in Baltimore Maryland both cities erupted in protest over the unjustified homicides of unarmed black males at the hands of police officers These local tragedies and the protests surrounding them assumed national significance igniting fierce debate about the fairness and efficacy of the American criminal justice system Yet outside the gaze of mainstream attention how do local residents and protestors in Ferguson and Baltimore understand their own experiences with race place and policing In Hands Up Don't Shoot Jennifer E Cobbina draws on in depth interviews with nearly two hundred residents of Ferguson and Baltimore conducted within two months of the deaths of Brown and Gray She examines how protestors in both cities understood their experiences with the police how those experiences influenced their perceptions of policing what galvanized Black Lives Matter as a social movement and how policing tactics during demonstrations influenced subsequent mobilization decisions among protesters Ultimately she humanizes people's deep and abiding anger underscoring how a movement emerged to denounce both racial biases by police and the broader economic and social system that has stacked the deck against young black civilians In her tightly focused and morally important book Cobbina is careful to establish historical and cultural context for the deep seated distrust so many African Americans feel toward law enforcement in a way that makes the book accessible to a wide readership NPR Books
