Italian Poet

Francesco Petrarch

Francesco Petrarch (1304-74) was responsible for establishing certain ideas about love-relationships. He wrote more than 300 sonnets (poems) addressed to an idealized lady named Laura, with whom he had never even had a conversation. These sonnets were enormously popular, and poets in Shakespeare's day were still using Petrarch's sonnets as models. One key Petrarchan notion is that the lover's

Petrarch's Lyric Poems Francesco Petrarca, 1976 Durling's edition of Petrarch's poems has become the standard Readers have praised the translation of the authoritative text as graceful and accurate conveying a real understanding of what this difficult poet is saying The literalness of the prose translation makes this book especially useful to students who lack a full command of Italian **Reappraisals of the Scientific Revolution** David C. Lindberg, Robert S.

Westman, 1990-07-27 A compendium offering broad reflections on the Scientific Revolution from a spectrum of scholars engaged in the study of 16th and 17th century science Many accepted views and interpretations of the scientific revolution are challenged Printed Voices Jean-François Vallée, Dorothea B. Heitsch, 2004-01-01 Prevalent but long neglected genres such as dialogue have recently been attracting attention in Renaissance studies In view of the pervasive and varied nature of this genre's use in the European Renaissance it has become crucial to widen the perspective so as to take into account more diverse approaches to this hybrid form For this reason Dorothea Heitsch and Jean-François Vallée have assembled a broad

collection of essays by international scholars that presents comparative interdisciplinary and theoretical inquiry into this neglected area. The contributors, who bring with them different linguistic, cultural, and disciplinary backgrounds, examine dialogue from a variety of perspectives, taking into account various factors linked to the upsurge of the genre in the Renaissance. These factors include the emergence of a complex and multifarious subjectivity, the advent of modern utopias, the social and political importance of courtliness, the rise of print culture, religious and scientific controversy, the prevalence of pedagogy and rhetorical culture, the ethos of humanism, the gendering of dialogue, and Renaissance logocentrism. Discussed are some of the most important works in Italian, French, German, Neo-Latin, and English, as well as some lesser-known texts, making *Printed Voices* a truly essential volume for the Renaissance scholar. ***The End of Learning*** Thomas Festa, 2013-09-13. This book shows that education constitutes the central metaphor of John Milton's political as well as his poetic writing. Demonstrating how Milton's theory of education emerged from his own practices as a reader and teacher, this book analyzes for the first time the relationship between Milton's own material habits as a reader and his theory of the power of books. Milton's instincts for pedagogy and the habits of inculcation everywhere visible in his writings take on a larger political function in his use of education as a trope for the transmission of intellectual history. The book therefore analyzes *Paradise Lost* in the complementary contexts of its outright educational claims and more subversive countervailing measures in order to show how Milton dramatizes the end of learning, which is to say both its objective and its failure. The thesis emphasizes the argumentative resourcefulness of Milton's efforts to liberate readers from the tyrannical bonds of their political innocence, most immediately in the context of the failure of Cromwell's regime to establish lasting republican institutions. More philosophically, the book explores the ways in which Milton's works investigate the humane and intellectual yearning for justice in response to the problem of evil. ***Practising Reform in Montaigne's Essais*** Dorothea B. Heitsch, 2000. This volume permits a new approach to Montaigne's essays from the point of view of the art of writing and style. Its particular hermeneutic position, which distinguishes it from other investigations, is that Nietzsche is used as a mediator. **Chaucer's Sexual Poetics** Carolyn Dinshaw, 1989. Through an analysis of the poems *Chaucer's wordes Unto Adam His Owne Scriveyn*, *Troilus and Criseyde*, *the Legend of Good Women*, *the Man of Law's Tale*, *the Wife of Bath's Tale*, and its Prologue, *the Clerk's Tale*, and *the Pardoner's Tale*, Carolyn Dinshaw offers a provocative argument on medieval sexual constructs and Chaucer's role in shaping them. Operating under the assumption that people read and write certain ways based upon society's demands, Dinshaw examines gender identity and the effects of a patriarchal society. The focal point of Dinshaw's argument is the idea that the literary text can be seen as the female body, while any literary activities upon the text are decidedly male. Through a series of six provocative essays, Dinshaw argues that Chaucer was not only aware that gender is a social construction but that he self-consciously worked to oppose the dominance of masculinity that a patriarchal society places on texts by creating works in which gender identity and hierarchy were more fluid. **Chaucer and His Readers** Seth Lerer, 2020-10-06.

Challenging the view that the fifteenth century was the Drab Age of English literary history Seth Lerer seeks to recover the late medieval literary system that defined the canon of Chaucer's work and the canonical approaches to its understanding. Lerer shows how the poets, scribes and printers of the period constructed Chaucer as the poet laureate and father of English verse. Chaucer appears throughout the fifteenth century as an adviser to kings and master of technique and Lerer reveals the patterns of subjection, childishness and inability that characterize the stance of Chaucer's imitators and his readers. In figures from the *Canterbury Tales* such as the abused Clerk, the boyish Squire and the infantilized narrator of the *Tale of Sir Thopas*, in the excuse-ridden narrator of *Troilus and Criseyde* and in Chaucer's cursed Adam Scryveyn, the poet's inheritors found their oppressed personae. Through close readings of poetry from Lydgate to Skelton, detailed analysis of manuscript anthologies and early printed books and inquiries into the political environments and the social contexts of bookmaking, Lerer charts the construction of a Chaucer unassailable in rhetorical prowess and political sanction, a Chaucer laureate and laureate.

Troilus and Criseyde B.A. Windeatt, 2016-04-22 This edition presents all of the surviving manuscripts together with textual apparatus and commentary. The poem is also presented in parallel with its principal source, Boccaccio's *Filostrato*, enabling the reader to compare the two poems in charting the evolution and achievement of Chaucer's *Troilus*. This edition has been revised and corrected in order to make the text fully accessible to the reader unfamiliar with Chaucer's work. An introduction discusses the text, metre and sources of *Troilus* and assesses the literary importance of Chaucer's translation method.

Images, Idolatry, and Iconoclasm in Late Medieval England Jeremy Dimmick, James Simpson, Nicolette Zeeman, 2002-02-14 This book capitalizes on brilliant recent work on sixteenth-century iconoclasm to extend the study of images both their making and their breaking into an earlier period and wider discursive territories. Pressures towards iconoclasm are powerfully registered in fourteenth and fifteenth-century writings, both heterodox and orthodox, just as the use of images is central to the practice of both politics and religion. The governance of images turns out indeed to be central to governance itself. It is also of critical concern in any moment of historical change when new cultural forms must incorporate or destroy the images of the old order. The iconoclast redescribes images as pure matter, objects of idolatry worthy only of the hammer. Issues of historical memory no less than of social ethics are then inherent to the making, love and destruction of images. These issues are the consistent concern of the essays of this volume, essays commissioned from a range of outstanding late medievalists in a variety of disciplines: literature, art history, Biblical studies and intellectual history.

Space Between Words Paul Saenger, 1997 Silent reading is now universally accepted as normal; indeed, reading aloud to oneself may be interpreted as showing a lack of ability or understanding. Yet reading aloud was usual; indeed, unavoidable throughout antiquity and most of the middle ages. Saenger investigates the origins of the gradual separation of words within a continuous written text and the consequent development of silent reading. He then explores the spread of these practices throughout western Europe and the eventual domination of silent reading in the late medieval period. A detailed work with

substantial notes and appendices for reference **Essaying Montaigne** John O'Neill, 2001-05-01 John O'Neill reads Montaigne's Essays from their central principle of friendship as a communicative and pedagogical practice operative in society, literature and politics. The friendship between Montaigne and La Boétie was ruled neither by plenitude nor lack but by a capacity for recognition and transitivity. As an essayist, Montaigne is an exemplary practitioner of a technique of difference and recognition that puts all certainties of history, philosophy and culture in the balance of weighted comparison. The essayist reveals how every absolute subjectivity or authority is shaken by its internal weakness once we move inside the contrastive structure of domination in politics, gender and race. O'Neill's reading of the Essays strives to be faithful to the phenomenology of their embodied practices of reading to write to re-read and re-write. From this standpoint, he engages the principal critical readings of the Essays over the last century that have examined with great brilliance their history, structure and psychology. Whether the structure is evolutionary, structuralist, Marxist or psychoanalytical, O'Neill provides close readings of Montaigne's literary critics. By bringing to bear the ethico-critical practice of essaying to resist the subjection of the Essays to dominant criticism, O'Neill reminds readers that Montaigne's appeal is in how he survived bloody cultural war with a balance of modesty and tolerance, invoking compromise where others practice violence.

The Routledge Handbook of the Stoic Tradition John Sellars, 2016-02-12 The ancient philosophy of stoicism has been a crucial and formative influence on the development of Western thought since its inception through to the present day. The Routledge Handbook of the Stoic Tradition is the first volume of its kind and an outstanding guide and reference source to the nature and continuing significance of stoicism. Chaucer's Visions of Manhood H. Crocker, 2007-06-25 This book argues that Chaucer challenges his culture's mounting obsession with vision, constructing a model of manhood that blurs the distinction between agency and passivity in a traditional gender binary.

Confession and Bookkeeping James Aho, 2012-02-01 Double entry bookkeeping, DEB, modern capitalism's first and foremost calculative technology was invented during the Middle Ages when

profit making was morally stigmatized James Aho examines the problematic of moneymaking and offers an explanatory understanding of the paradoxical coupling of profit seeking and morality by situating DEB in the religious circumstances from which it emerged specifically the newly instituted sacrament of penance that is confession Confession impacted the consciences of medieval businessmen both through its sacramental form and through its moral teachings The form of confession produced widespread habits of moral scrupulosity leading to compulsive record keeping the content of confession taught that commerce itself was morally suspect Scrupulous businessmen were thus driven to justify their affairs to church commune and themselves With the aid of DEB moneymaking was Christianized and Christianity was made more amenable to the pursuit of wealth Although DEB is typically viewed exclusively as a scientifically neutral account of the flow of money through a firm it remains as it was originally devised a rhetorical argument

Echoing Helicon Tim Shephard, 2014 In the construction of a private princely identity before the eyes of a select public in the study rooms of Italian Renaissance rulers ideals of sober recreation met with leisured reality Echoing Helicon reconstructs through the interpretation of painted and intarsia decoration the roles played by music in such settings

Error and the Academic Self Seth Lerer, 2003-03-17 How and why did the academic style of writing with its emphasis on criticism and correctness develop Seth Lerer suggests that the answer lies in medieval and Renaissance philology and more specifically in mistakes For Lerer erring is not simply being wrong but being errant and this book illuminates the wanderings of exiles migrants dissenters and the socially estranged as they helped form the modern university disciplines of philology and rhetoric literary criticism and literary theory Examining a diverse group that includes Thomas More Stephen Greenblatt George Hickes Seamus Heaney George Eliot and Paul de Man Error and the Academic Self argues that this critical abstraction from society and retreat into ivory towers allowed estranged individuals to gain both a sense of private worth and the public legitimacy of a professional identity
