Petrodragons Rise What It Means For China And Th:

The Footprint of the Chinese Petro-Dragon Guillermo J. Garcia Sanchez, 2020 Chinese offshore investments in the oil and gas sector around the world are on the rise Like dragons roaming the seas trying to dominate the tides Chinese state owned companies are particularly eager to bid for oil fields in maritime borderlines The article tells the story of how Chinese state owned companies are over paying for oil on the US Mexico boundary to gather experience on how China s global competitors handle resource development conflicts My argument is that Chinese participation in transboundary field development fits within a long term strategy to master international legal regimes The presence of these petro dragons in borderlines is an example of the use of law as a tool for a rising global power of an effort to acquire the legal know how of existing dominant actors to eventually recalibrate it for the benefit of the Chinese people in the South China Sea From now on the U S will have to consider the example it is setting for its junior rival in joint resource development zones Petro dragons are loose and drilling in the high seas ready to bring back home what they learn from the West Is the North American region prepared for the challenge Petro-Dragon's Rise Xiaojie Xu, 2002
