ache to understand the more complicated story of how his family changed the land inherited from his grandfather and deeper still how the land irrevocably changed the family Water is the lens through which this fifth generation rancher tells his story While the discovery of oil in this part of Texas fueled the region s growth water has the upper hand determining where people live and how they make their living Agriculture ranching drilling for oil and now fracking all require water with each pursuit requiring more and more but giving back less and less to the communities they ve helped enrich In A Rock between Two Rivers Fitzsimons struggles with the inheritance he wants for his own children one that considers the future consequences of our actions toward the land we are born to and owns the broader threats to our natural resources that loom in the near distance Interweaving a family narrative of a life built on the U S Mexico border and the history of European colonization with its brutal consequences on the land and indigenous peoples Fitzsimons explores how our attitudes toward this precious resource have changed alongside our relationship to the places we call home *Caldecott Connections to Social Studies* Shan Glandon,2000-09-15 Take advantage of the appeal and power of Caldecott award literature to extend and promote learning across the curriculum In these two volumes the author demonstrates how to use award winning books as springboards to science and social studies learning in the library and classroom and to expand student awareness and appreciation of illustration techniques For each Caldecott title there is background information on the illustrations curriculum connections lesson plans and support materials for teaching Glandon also integrates Gardner s multiple intelligences with curriculum content With a flexible discovery approach these activity units focus on student centered experiential holistic and authentic learning and they are ready for instant implementation Targeted to primary grade objectives and abilities the books include an array of individual projects and collaborative ones They also foster collaborations between library media specialists and classroom teachers **American Indian Literature and the Southwest** Eric Gary Anderson,2010-05-28 Culture to culture encounters between natives and aliens have gone on for centuries in the American Southwest among American Indian tribes between American Indians and Euro Americans and even according to some between humans and extraterrestrials at Roswell New Mexico Drawing on a wide range of cultural productions including novels films paintings comic strips and historical studies this groundbreaking book explores the Southwest as both a real and a culturally constructed site of migration and encounter in which the very identities of alien and native shift with each act of travel Eric Anderson pursues his inquiry through an unprecedented range of cultural texts These include the Roswell spacecraft myths Leslie Marmon Silko s *Almanac of the Dead* Wendy Rose s poetry the outlaw narratives of Billy the Kid Apache autobiographies by Geronimo and Jason Betzinez paintings by Georgia O Keeffe New West history by Patricia Nelson Limerick Frank Norris McTeague Mary Austin s *The Land of Little Rain* Sarah Winnemucca s *Life Among the Piutes* Willa Cather s *The Professor s House* George Herriman s modernist comic strip *Krazy Kat* and A A Carr s Navajo vampire novel *Eye Killers* **Directory of American Poetry Books** ,2000 **Civil War in the Southwest Borderlands,**

1861-1867 Andrew E. Masich, 2017-02-03 Still the least understood theater of the Civil War the Southwest Borderlands saw not only Union and Confederate forces clashing but Indians Hispanos and Anglos struggling for survival power and dominance on both sides of the U S Mexico border While other scholars have examined individual battles Andrew E Masich is the first to analyze these conflicts as interconnected civil wars Based on previously overlooked Indian Depredation Claim records and a wealth of other sources this book is both a close up history of the Civil War in the region and an examination of the war making traditions of its diverse peoples Along the border Masich argues the Civil War played out as a collision between three warrior cultures Indians Hispanos and Anglos brought their own weapons and tactics to the struggle but they also shared many traditions Before the war the three groups engaged one another in cycles of raid and reprisal involving the taking of livestock and human captives reflecting a peculiar mixture of conflict and interdependence When U S regular troops were withdrawn in 1861 to fight in the East the resulting power vacuum led to unprecedented violence in the West Indians fought Indians Hispanos battled Hispanos and Anglos vied for control of the Southwest while each group sought allies in conflicts related only indirectly to the secession crisis When Union and Confederate forces invaded the Southwest Anglo soldiers Hispanos and sedentary Indian tribes forged alliances that allowed them to collectively wage a relentless war on Apaches Comanches and Navajos Mexico s civil war and European intervention served only to enlarge the conflict in the borderlands When the fighting subsided a new power hierarchy had emerged and relations between the region s inhabitants and their nations forever changed Masich s perspective on borderlands history offers a single cohesive framework for understanding this power shift while demonstrating the importance of transnational and multicultural views of the American Civil War and the Southwest Borderlands

Open-Air Rock-Art Conservation and Management Timothy Darvill, Antonio Pedro Batarda Fernandes, 2014-06-20 While much has been achieved in understanding and managing weather effects and erosion phenomena affecting ancient imagery within the relatively protected environments of caves and rock shelters the same cannot be said of rock art panels situated in the open air Despite the fact that the number of known sites has risen dramatically in recent decades there are few examples in which the weathering and erosion dynamics are under investigation with a view to developing proposals to mitigate the impact of natural and cultural processes Most of the work being done in different parts of the world appears to be ad hoc with minimal communication on such matters between teams and with the

wider archaeological community This richly illustrated book evaluates rock art conservation in an holistic way bringing together researchers from across the world to share experiences of work in progress or recently completed The chapters focus on a series of key themes documentation projects and resource assessments the identification and impact assessment of weathering erosion processes at work in open air rock art sites the practicalities of potential or implemented conservation interventions experimentation and monitoring programs and general management issues connected with public presentation and the demands of ongoing research investigations Consideration is given to the conservation of open air rock art imagery from many periods and cultural traditions across the Old and New Worlds This timely volume will be of interest to conservators managers and researchers dealing with aesthetic and ethical issues as well as technical and practical matters regarding the conservation of open air rock art sites

Belief in the Past David S Whitley, Kelley Hays-Gilpin, 2016-09-16 Human actions are often deeply intertwined with religion and can be understood in a strictly religious context Yet many volumes and articles pertaining to discussions of religion in the archaeological past have focused primarily on the sociopolitical implications of such remains The authors in this volume argue that while these interpretations certainly have a meaningful place in understanding the human past they provide only part of the picture Because strictly religious contexts have often been ignored this has resulted in an incomplete assessment of religious behavior in the past This volume considers exciting new directions for considering an archaeology of religion offering examples from theory tangible archaeological remains and ethnography
