Traditional discursive boundaries between the disciplines of Health and Humanities are collapsing due to a comprehensive and nuanced interpretation of the shared ontological foundation between the two. Humanism Terminologies like Displacement, Dislocation, and Disjunction unite Health and Humanities, and they also make the unknown known. Health Humanities explores the different multitudes of narration in the literary arena, and it represents diverse voices of literature. It also showcases the importance of re-reading a text owing to its autotelic status. The authors who have contributed chapters for this book have meticulously selected diverse texts and contexts embedded in the dynamism of Health Humanities. This book is an impetus for academicians from the field of Humanities and Sciences who desire to venture into new epistemes towards Health Humanities.
