

Pettyfoggers and Vipers of the Commonwealth

*The 'Lower Branch' of the Legal Profession
in Early Modern England*

C. W. Brooks

CAMBRIDGE

Pettyfoggers And Vipers Of The Commonwealth

James S. Hart

Pettyfoggers And Vipers Of The Commonwealth:

Pettyfoggers and Vipers of the Commonwealth C. W. Brooks, 2004-06-24 This work charts the huge growth of the lower branches of the legal profession in sixteenth century England

The State and Social Change in Early Modern England, 1550-1640 S. Hindle, 2000-03-02 This is a study of the social and cultural implications of the growth of governance in England in the century after 1550 It is principally concerned with the role played by the middling sort in social and political regulation especially through the use of the law It discusses the evolution of public policy in the context of contemporary understandings of economic change and analyses litigation arbitration social welfare criminal justice moral regulation and parochial analyses administration as manifestations of the increasing role of the state in early modern England

Law, Lawyers and Litigants in Early Modern England Michael Lobban, Joanne Begiato, Adrian Green, 2019-06-27 Explores the impact of legal ideas and legal consciousness on early modern English society and culture

Early Tudor Government, 1485-1558 Steven Gunn, 1995-05-10 This marvellous new book sets the developments in the government of England under the early Tudors in the context of recent work on the fifteenth century and on continental Europe

The Professions in Early Modern England Wilfrid Prest, 2023-08-18 First published in 1987 The Professions in Early Modern England highlights the significant role of professional and quasi professional occupations in English society before the industrial revolution contrary to what was once historiographical and sociological orthodoxy The editorial introduction provides an overview of the history of the professions as a distinct field of scholarly investigation suggesting that neither historians nor social theorists have adequately mapped or explained the rise of the professions to their present place in modern societies The following chapters bring together original contributions by researchers who have made a close study of various occupational groups over the period c 1500 1750 Besides the traditional learned professions and their practitioners in the church medicine and the law they survey occupations generally lacking institutional coherence school teachers estate stewards and those following the profession of arms This book remains of interest to students of history literature and sociology

Lawyers, Litigation & English Society Since 1450 Christopher Brooks, 1998-07-01 Legal history has usually been written in terms of writs and legislation and the development of legal doctrine Christopher Brooks in this series of essays roughly half of which are previously unpublished approaches the law from two different angles the uses made of courts and the fluctuations in the fortunes of the legal profession Based on extensive original research his work has helped to redefine the parameters of British legal history away from procedural development and the refinement of legal doctrine and towards the real impact that the law had in society He also places the law into a wider social and political context showing how changes in the law often reflected but at the same time influenced changes in intellectual assumptions and political thought Lawyers as a profession flourished in the second half of the sixteenth century and throughout the seventeenth century This great age of lawyers was followed by a decline in the eighteenth and early nineteenth centuries

reflecting both a decline in litigation and the perception of the law as slow artificially complicated and ruinously expensive In *Lawyers Litigation and Society 1450 1900* Christopher Brooks also looks at the sorts of cases brought before different courts showing why particular courts were used and for what reasons as well as showing why the popularity of individual courts changed over the years

The Experience of Authority in Early Modern England Adam Fox, Paul Griffiths, Steve Hindle, 1996-08-16 This collection is concerned with the articulation mediation and reception of authority the preoccupations and aspirations of both governors and governed in early modern England It explores the nature of authority and the cultural and social experiences of all social groups especially insubordinates These essays probe in depth the ways in which young people responded to adults women to men workers to masters and the common sort to their betters Early modern people were not passive receptacles of principles of authority as communicated in for example sermons statutes and legal process They actively contributed to the process of government thereby exposing its strengths weaknesses and ambiguities In discussing these issues the contributors provide fresh points of entry to a period of significant cultural and socio economic change

Justice Upon Petition James S. Hart, 2020-10-27 Originally published in 1991 this book traces the evolution of the House of Lords as a court for private litigation during the critically important years from 1621 to 1675 It offers new insights into contemporary politics government and religion adding an important dimension to our understanding of the House of Lords This book is primary reading for advanced undergraduates and postgraduate students on courses on early Stuart England the Civil War and Restoration history

The Art of Hearing Arnold Hunt, 2010-12-02 This book assesses the effectiveness of the sermon as a key means of transmitting religious ideas

Images and Cultures of Law in Early Modern England Paul Raffield, 2004-04-29 This book offers an interesting interpretation of the hidden culture of the early modern legal profession and its influence on the development of the English constitution It locates an alternative site of political sovereignty in the legal communities at the Inns of Court in London examining the signs of legitimacy by which they sought to validate the claim that common law represented sovereign constitutional authority The role of symbols in the culture of English law is central to the book s analysis Within the framework of a cultural history of the legal profession from 1558 to 1660 the book considers the social presence of the law revealed in its various signs It analyses how institutional existence at the Inns of Court presented the legal community as an emblematic template for the English nation state defending the sovereignty of the Ancient Constitution by reference to the immemorial provenance of common law

Edward VI Jennifer Loach, 2014-11-01 Edward VI was the son of Henry VIII and his second wife Jane Seymour He ruled for only six years 1547 1553 and died at the age of sixteen But these were years of fundamental importance in the history of the English state and in particular of the English church This new biography reveals for the first time that despite his youth Edward had a significant personal impact Jennifer Loach draws a fresh portrait of the boy king as a highly precocious well educated intellectually confident and remarkably decisive youth with clear views on the future of the English church Loach also offers a new

understanding of Edward's health arguing that the cause of his death was a severe infection of the lungs rather than tuberculosis the commonly accepted diagnosis The author views Edward not as a sickly child but as a healthy and vigorous boy devoted to hunting and tournaments like any young aristocrat of the day This book tells the story of the monarch and of his time It supplies the dramatic context in which the short reign of Edward VI was played out the momentous religious changes factional fights and popular risings And it offers vivid details on Edward's increasing absorption in politics his consciousness of his role as supreme head of the English church his determination to lay the foundation for a Protestant regime and how his failure in this ambition brought England to the brink of civil war **Banished** Nan

Goodman, 2012-09-05 A community is defined not only by inclusion but also by exclusion Seventeenth century New England Puritans themselves exiled from one society ruthlessly invoked the law of banishment from another over time hundreds of people were forcibly excluded from this developing but sparsely settled colony Nan Goodman suggests that the methods of banishment rivaled even overpowered contractual and constitutional methods of inclusion as the means of defining people and place The law and rhetoric that enacted the exclusion of certain parties she contends had the inverse effect of strengthening the connections and collective identity of those that remained Banished investigates the practices of social exclusion and its implications through the lens of the period's common law For Goodman common law is a site of negotiation where the concepts of community and territory are more fluid and elastic than has previously been assumed for Puritan society Her legal history brings fresh insight to well known as well as more obscure banishment cases including those of Anne Hutchinson Roger Williams Thomas Morton the Quakers and the Indians banished to Deer Island during King Philip's War Many of these cases were driven less by the religious violations that may have triggered them than by the establishment of rules for membership in a civil society Law provided a language for the Puritans to know and say who they were and who they were not Banished reveals the Puritans' previously neglected investment in the legal rhetoric that continues to shape our understanding of borders boundaries and social exclusion *English Legal Histories* Ian Ward, 2020-01-09 English Legal

Histories is an exciting and innovative approach to the study of English law Written in an accessible style intended for students as well as a broader audience it takes the reader beyond the narrower confines of legal doctrines and cases and invites them to consider the myriad contexts within which English law has been shaped the politics the economics the art the poetry Reaching from the Reformation through to the age of Reform it tells stories the histories of English law Histories of the constitution and government of crime and contracts tort and trespass property and equity Of the people who made that law those who wrote it and those who suffered it For it is in the end a human story of justice and injustice of success and failure good luck and bad The law is full of statutes and instruments cases and precedent but its history is full of people and peculiarity Which is what of course makes it so endlessly fascinating [The Rise of Thomas Cromwell](#) Michael

Everett, 2015-03-01 How much does the Thomas Cromwell of popular novels and television series resemble the real Cromwell

This meticulous study of Cromwell's early political career expands and revises what has been understood concerning the life and talents of Henry VIII's chief minister Michael Everett provides a new and enlightening account of Cromwell's rise to power his influence on the king his role in the Reformation and his impact on the future of the nation Controversially Everett depicts Cromwell not as the fervent evangelical Machiavellian politician or the revolutionary administrator that earlier historians have perceived Instead he reveals Cromwell as a highly capable and efficient servant of the Crown rising to power not by masterminding Henry VIII's split with Rome but rather by dint of exceptional skills as an administrator

A Social History of England, 1500-1750 Keith Wrightson, 2017-02-23 The first overview of early modern English social history since the 1980s bringing together the leading authorities in the field

The Conquest of Death Matthew Lockwood, 2017-06-27 A fresh and fascinating history of crime and violence in England through the office of the coroner In his fascinating debut Matthew Lockwood explores the history of crime homicide and suicide in England over four centuries through the office of the coroner While the office was established to investigate violent or suspicious deaths Lockwood asserts that the demands of competing parties gradually shaped its systems and transformed England into a modern state earlier than is commonly acknowledged Weaving together strands of social legal economic and political history this book will interest scholars across a range of fields

Lawyers and the Rule of Law Andrew Boon, 2022-10-20 This book examines lawyers' contributions to creating and maintaining the rule of law one of the pillars of a liberal democracy It moves from the European Enlightenment to the modern day exploring the role of judges government lawyers and private practitioners in creating defining and being defined by the demands of modern society The book is divided into 4 parts representing the big themes The first part considers lawyers' contribution to the growth of constitutionalism the second the formulation of roles and identities and the third the formation of values The fourth part focuses on the challenges faced by lawyers and the rule of law in the past 50 years the neoliberal period and how they challenge both conceptions of lawyers and the rule of law Each part is illustrated by defining events from the execution of Charles I through the Nuremberg Trials to the insurrection by supporters of Donald Trump in January 2021 Although the focus is on England and Wales parallel developments in other jurisdictions Australia Canada New Zealand and the USA are considered This allows analysis of lawyers' historical and contemporary engagement with the rule of law in jurisdictional systems based on the Common Law Each chapter is thematic but the passage through the book is broadly chronological

The Cambridge Constitutional History of the United Kingdom: Volume 2, The Changing Constitution Peter Cane, H. Kumarasingham, 2023-08-17 Featuring contributions from leading scholars of history law and politics this path-breaking work traces the development of the United Kingdom's constitution from Anglo-Saxon times and explores its role in the creation exercise and control of public power Essays in Volume Two entitled *The Changing Constitution* examine the development of the constitution from the departure of the Romans up to the present day and beyond Together the two volumes form the first wide-ranging history of the constitution to be published for more than 50

years By its cross disciplinary approach taking account of the latest legal political and historical scholarship on the constitution it fills a large gap in the literature of the constitution and in political thought and British history **The Later Tudors** Penry Williams,1998-03-13 The Later Tudors is an authoritative and comprehensive study of England between the accession of Edward VI and the death of Elizabeth I a turbulent period of conflict amongst European nations and between warring Catholics and Protestants These internal and external struggles created anxiety in England but by the end of Elizabeth s reign the nation had achieved a remarkable sense of political and religious identity Penry Williams combines the political religious and economic history of the nation with a broader analysis of English society family relations and culture in order to explain the workings and development of the English state The result is an incisive and wide ranging analysis that culminates in an assessment of England s part in the shaping of the New World **Copyright, Creativity, Big Media and Cultural Value** Kathy Bowrey,2020-11-23 As the publishing film and music industries are dominated by Big Media conglomerates there is often recourse to simplistic ideological and conspiratorial readings of industry dynamics Copyright Creativity Big Media and Cultural Value Incorporating the Author explains why copyright is much more than a creator s private property right or a mechanism through which corporations control cultural production and influence mass consumption choices The volume is grounded in extensive painstakingly detailed and colourful original archival research into business histories of major successful artists including Conan Doyle Hall Caine Margaret Atwood Dame Nellie Melba Radiohead and Banksy and the industries and genres that grew up around their activities Chapters address big questions about how copyright generates income and how distributions of profits are allocated in the publishing film and music industries It includes discussion of the creation of new formats the interplay between old media and new technologies international copyright reform and cross industry relations Copyright Creativity Big Media and Cultural Value is a wide ranging and important resource for students and practitioners of law and policy media studies cultural studies and literary history
