

PFS: First Choice

2010-2011

Abstract: Integrated software development and test management systems are used to manage the development and testing of software. This paper describes the design and implementation of a software development and test management system. The system is designed to support the development and testing of software in a distributed environment. The system is implemented using a distributed database and a client-server architecture. The system is designed to support the development and testing of software in a distributed environment. The system is implemented using a distributed database and a client-server architecture.
