Julie Snow Architects Julie Snow, Julie Snow Architects, 2005-04-07 It s an unfortunate reality that architects practicing in the great expanse between the East and West coasts all too often find themselves beyond the radar of the profession s so called tastemakers And it s especially a shame in the case of Julie Snow a Minneapolis based architect who has over the past decade developed one of the most inventive practices anywhere in the United States Snow s meticulously constructed work has the structural opacity and formal integrity that characterized Mies van der Rohe s architecture but with a sense of humanity and a sensitivity to the environment that seems borrowed from her Midwestern progenitor Frank Lloyd Wright This the first monograph on Snow s work provides in depth documentation of 14 of her residential institutional corporate and

public projects including the Koehler Residence in New Brunswick Canada a series of Minneapolis Light Rail Stations the Minnesota Children's Museum and the University of South Dakota School of Business Julie Snow Architect is produced in collaboration with award winning designer Andrew Blauvelt and features an introductory essay by Jan Abrams director of the Minnesota Design Institute

The Icon Project Leslie Sklair, 2017-02-27 In the last quarter century a new form of iconic architecture has appeared throughout the world's major cities Typically designed by globe trotting architects or by a few large transnational architectural firms these projects are almost always funded by the private sector in the service of private interests Whereas in the past monumental architecture often had a strong public component the urban ziggurats of today are emblems and conduits of capitalist globalization In The Icon Project Leslie Sklair focuses on ways in which capitalist globalization is produced and represented all over the world especially in globalizing cities Sklair traces how the iconic buildings of our era elaborate shopping malls spectacular museums and vast urban megaprojects constitute the triumphal Icon Project of contemporary global capitalism promoting increasing inequality and hyperconsumerism Two of the most significant strains of iconic architecture unique icons recognized as works of art designed by the likes of Gehry Foster Koolhaas and Hadid as well as successful derivative icons that copy elements of the architects work speak to the centrality of hyperconsumerism within contemporary capitalism Along with explaining how the architecture industry organizes the social production and marketing of iconic structures he also shows how corporations increasingly dominate the built environment and promote the trend towards globalizing consumerist cities The Icon Project Sklair argues is a weapon in the struggle to solidify capitalist hegemony as well as reinforce transnational capitalist control of where we live what we consume and how we think
