**Phantasy, Image Consciousness, and Memory (1898-1925)** Edmund Husserl, 2005-07-27 This is the first English translation of Husserliana XXIII the volume in the critical edition of Edmund Husserl's works that gathers together a rich array of posthumous texts on representational consciousness The lectures and sketches comprising Husserliana XXIII come from a period of enormous productivity and pivotal development in Husserl's philosophical life extending from the years immediately preceding the Logical Investigations 1900-01 almost to the time of his retirement in 1928 They make available the most profound and comprehensive Husserlian account of image consciousness the awareness we have when we look at a picture or see a play and of its relation to art and the aesthetic They explore phantasy in depth and furnish nuanced accounts of perception and memory They enrich the Husserlian analysis of time consciousness and offer a fascinating picture of the sometimes tortuous paths Husserl took in his efforts to comprehend how the forms of representation are constituted and how they are related to one another and to perception Phantasy Image Consciousness and Memory should prove to be an indispensable resource for Husserlian phenomenologists and for anyone else interested in thinking about these fundamental phenomena

**Crisis and Husserlian Phenomenology** Kenneth Knies, 2020-09-03 Shedding new light on the theme of crisis in Husserl's phenomenology this book reflects on the experience of awakening to one's own naïveté. Beginning from everyday examples Knies examines how this awakening makes us culpable for not having noticed what was noticeable. He goes on to apply this examination to fundamental issues in phenomenology arguing that the appropriation of naïve life has a different structure from the reflection on pre-reflective life. Husserl's work on the crisis is presented as an attempt to integrate this appropriation into a systematic transcendental philosophy. *Crisis and Husserlian Phenomenology* brings Husserl into dialogue with other key thinkers in Continental philosophy such as Descartes, Kant, Heidegger, Merleau-Ponty and Derrida. It is suitable for students and scholars alike especially those interested in subjectivity, responsibility and the philosophy of history. [The Intermedial Experience of Horror](#) J. Toikkanen, 2013-08-22 This book is an exploration of the phenomenon of horror from an unusual angle. Focusing on reading specific examples of literature from Romanticism to Modernism the study brings together the phenomenon of horror with the topical concepts of experience and intermediality and highlights the complex relations they present. **Handbook of Phenomenological Aesthetics** Hans Rainer Sepp, Lester Embree, 2010-03-11 Historically phenomenology began in Edmund Husserl's theory of mathematics and logic went on to focus for him on transcendental philosophy and for others on metaphysics, philosophical anthropology and theory of interpretation. The continuing focus has thus been on knowledge and being. But if one began without those interests and with an understanding of the phenomenological style of approach one might well see that art and aesthetics make up the most natural field to be approached phenomenologically. Contributions to this field have continually been made in the phenomenological tradition from very early on but so to speak along the side. The situation has been similar with phenomenological ethics. A great deal of thought about art and aesthetics has nevertheless accumulated during a century and a handbook like the present one is long overdue. The project of this handbook began in conversations over dinner in Sepp's apartment in Baden-Baden at one evening of the hot European summer in the year 2003. As things worked out he knew more about whom to ask and how much space to allocate to each entry and Embree knew more about how to conduct the inviting preliminary editing and prodding of contributors who were late returning their criticized drafts and copyedited entries and was able to invest the time and other resources from his endowed chair. That process took longer than anticipated and there were additional unfortunate delays due to factors beyond the editors' control. *Between You and I* Beata Stawarska, 2009-10-06 Classical phenomenology has suffered from an individualist bias and a neglect of the communicative structure of experience especially the phenomenological importance of the addressee, the inseparability of I and You and the nature of the alternation between them. Beata Stawarska remedies this neglect by bringing relevant contributions from cognate empirical disciplines such as sociolinguistics and developmental psychology as well as the dialogic tradition in philosophy to bear on phenomenological inquiry. Taken together these contributions substantiate an alternative view of primary I-You connectedness and help

foreground the dialogic dimension of both prediscursive and discursive experience Between You and I suggests that phenomenology is best practiced in a dialogical engagement with other disciplines **Books in Print, 2006-2007**, 2006

*Transcendence and Phenomenology* University of Nottingham. Centre of Theology and Philosophy. Conference, 2007
