Pharaonic Kinglists Annals And Daybooks:

Pharaonic King-lists, Annals, and Day-books Donald B. Redford, 1986 This is a classic study into the Egyptians use of the past focusing on the pictures and texts common in Ancient Egypt showing groupings of kings The author discusses the genesis and development of the king list tradition following a tradition over three millennia After taking a chronological approach to king lists annals and day lists from the Old to New Kingdoms the book focuses on the Aegyptiaca of Manetho perhaps the first truly historical approach to Egyptian sources written during the early Ptolemaic period **Faith, Tradition, and History** Alan Ralph Millard, James Karl Hoffmeier, David Weston Baker, 1994 *The Iconography of Humiliation in New Kingdom Egypt* Mark D. Janzen, 2024-11-26 This volume analyzes the iconography of bound foreigners on New Kingdom monuments and artifacts to better understand Egyptian perspectives on foreigners and their treatment of prisoners of war Depictions of foreign captives in humiliating or torturous poses are ubiquitous in Egyptian iconography and reflect the celebratory nature of royal ideology in this case by degrading enemies Egyptologists have scrutinized these scenes for details regarding various military matters but existing scholarly literature offers few studies focused on enemy captives and the sheer physical brutality of the depictions of their bindings Janzen examines the bound foreigner motif in New Kingdom sources demonstrating that these prisoners of war played vital roles in Egyptian ideology and religion Their depictions in bizarre or torturous poses served to reinforce ideological underpinnings of pharaoh's right to rule perpetually ritualizing their defeat and or punishment through the presence of this iconography on ceremonial objects used primarily by the king and on temple walls and monuments The subjugation of foreigners also constituted an important economic function as incorporating prisoners of war into the Egyptian workforce was crucial for economic prosperity and growth in New Kingdom Egypt The volume also explores cross cultural and anthropological parallels placing Egyptian treatment of foreign prisoners in its ancient context The book provides a fascinating study of the subject suitable for scholars and students of Egyptology and ancient history particularly that of New Kingdom Egypt as well as those working on power warfare and violence in the ancient world more broadly [A History of Ancient Egypt Volume 2](#) John Romer, 2017-03-07 Originally published United Kingdom Allen Lane 2016 **The Historian's Craft in the Age of Herodotus** Nino Luraghi, 2007 The origins and development of Greek historiography cannot be properly understood unless early historical writings are situated in the framework of late archaic and early classical Greek culture and society Contextualization opens up new perspectives on the subject in The Historian's Craft in the Age of Herodotus At the same time such writings offer significant insights into how works of Herodotus reflect the attitude of fifth century Greeks towards the transmission and manipulation of knowledge about the past Essays by an international range of experts explore all aspects of the topic and at the same time make a thought provoking contribution to the ongoing debates concerning literacy and oral culture [Art and Immortality in the Ancient Near East](#) Mehmet-Ali Ataç, 2018-03-08 Far from being a Judeo Christian invention apocalyptic thought had its roots

Wineland,2007-01-01 The Light of Discovery is a Festschrift honoring Dr Edwin Yamauchi and it focuses on the Mediterranean world The collection is ambitious in terms of time from ancient Egypt to Late Antiquity and wide ranging in topic from astrology and Gnosticism to the Van Kampen Collection of manuscripts in Orlando

Scriptural Exegesis Deborah A. Green,Laura S. Lieber,2009-02-26 Scriptural Exegesis gathers an international community of scholars to consider the history of biblical interpretation and to question how exegesis shapes spiritual and cultural creativity in the light of Michael Fishbane s groundbreaking work Eighteen chapters chart approaches to scriptural texts from ancient to modern times **Imagining the Past** Colleen Manassa,2013-10-25 Five hundred years before Homer immortalized the Trojan Horse the ancient Egyptians had already composed a tale of soldiers hiding Ali Baba like in baskets to capture a besieged city Shortly after the rise to power of the warrior pharaoh Ramesses II Egyptian authors began to write stories about battles and conquest However these stories were not set in the present but in the past they were the world s first works of historical fiction These literary recreations of past events which preserve fascinating mixtures of fact and fiction provide unparalleled information about topics as diverse as ancient Egyptian historiography religion and notions of humor and wit Imagining the Past is the first volume to provide complete translations and commentary for the historical fiction composed during Egypt s New Kingdom The four works include The Quarrel of Apepi and Seqenenre The Capture of Joppa Thutmose III in Asia The Libyan Battle Story An introduction explores Egyptian conceptions of the past the universe of historical and literary texts in New Kingdom Egypt and the definition of a new genre of Egyptian literature Extensive commentary and new translations appear within each chapter and a concluding analysis summarizes the audience and function of historical fiction as well as theology and historiography within the tales Despite the fragmentary nature of the papyrus copies the thorough research into the literary political and social context of each tale allows a modern reader to explore this forgotten literary subfield and appreciate the stories as works of historical fiction **A Global Encyclopedia of Historical Writing, Volume 2** D.R. Grabbe,2011-10-27 This is the second volume of the projected four volume history of the Second Temple period It is axiomatic that there are large gaps in the history of the Persian period but the early Greek period is possibly even less known This volume brings together all we know about the Jews during the period from Alexander s conquest to the eve of the Maccabaeen revolt including the Jews in Egypt as well as the situation in Judah Based directly on the primary sources which are surveyed the study addresses questions such as administration society religion economy jurisprudence Hellenism and Jewish identity These are discussed in the context of the wider Hellenistic world and its history A strength of the study is its extensive up to date secondary bibliography approximately one thousand items **Ethnicity and Identity in Ancient**

Israel Kenton L. Sparks,1998 From the introduction When we speak of ethnicity we bring into view a particular kind of sentiment about group identity wherein groups of individuals view themselves as being alike by virtue of their common ancestry It is something of a truism to point out that ethnicity has played an important role in the history of Judaism both in the postbiblical era and prior to it The reason for this interest is twofold First in virtually every discipline of the humanities there seems to be a general unhappiness with the superficial way that scholars have handled the issues of culture and identity More specifically with respect to ancient Israel recent biblical scholarly activity both literary and historical has raised serious doubts about the supposed origins and antiquity of Israelite ethnicity With this agenda in view Kent Sparks provides a summary of current studies in ethnicity and ethnic identity then moves to a discussion of Israel s ancient Near Eastern context and expressions of ethnic identity in the written remains from surrounding nations Turning next to ancient Israel itself he examines texts generally considered early in Israel s history for information relevant to Israel s ethnic identity Sparks then investigates the witness of the prophets and the historical materials relating to the Judean monarchy and the exilic period looking for expressions of ethnic sentiment His research will likely prove to be the foundation on which future study of the topic will be built The Oxford History of Ancient Egypt Ian Shaw,2003-10-23 The Oxford History of Ancient

Egypt describes the emergence and development of the distinctive civilization of the ancient Egyptians from their prehistoric origins to their conquest by the Persians Greeks and Romans Included are the most detailed examinations of the three so called intermediate periods in Egyptian history which were previously regarded as dark ages but are now beginning to be better understood **Temple of the Cosmos** Jeremy Naydler,1996-04 Recreates the ancient Egyptian sacred path of
