Institutional Hospital Activities for Pharmacy Practice Sagar Pamu, Ramya Gangannagudem, Hemaja Anugandhula, Valentina Gogoi, 2020-03-13 Pharm D under graduates will be allotted in hospital postings in various departments designed to complement the lectures by providing practical clinical discussion attending ward rounds follow up the progress and changes made in drug therapy in allotted patients case presentation upon discharge For the need of documentation during their hospital postings institutional hospital activity forms will be more helpful So that learners will be able to develop the skills of self learning critical thinking problem identification and decision making The institutional activity forms has been designed to focus on learning process of solving drug therapy problems rather than simply finding the scientific answers to the problems themselves Learners learn scientific facts during the resolution of case study problems but they usually learn more of them from their own independent study and from discussions with their peers than they do from the instructor

Handbook of Research on Updating and Innovating Health Professions Education: Post-Pandemic Perspectives Ford, Channing R., Garza, Kimberly B., 2021-10-08 The outbreak of the Coronavirus in early 2020 resulted in unprecedented changes to health professions education The pervasive stay at home orders resulted in faculty who were trained for preparing the next generation of health professionals in a traditional learning environment throwing out their lesson plans and starting anew New approaches to teaching and learning were created quickly and without the typical extensive planning which introduced several challenges However lessons learned from these approaches have also resulted in increased technology adoption

innovative assessment strategies and increased creativity in the learning environment The Handbook of Research on Updating and Innovating Health Professions Education Post Pandemic Perspectives explores the various teaching and learning strategies utilized during the pandemic and the innovative approaches implemented to evaluate student learning outcomes and best practices in non traditional academic situations and environments The chapters focus specifically on lessons learned and best practices in health professions education and the innovative and exciting changes that occurred particularly with the adoption and implementation of technology It provides resources and strategies that can be implemented into the current educational environments and into the future This book is ideal for inservice and preservice teachers administrators teacher educators practitioners medical trainers medical professionals researchers academicians and students interested in curriculum course design development of policies and procedures within academic programs and the identification of best practices in health professions education
