Phenomena 1 Crime Night:

"Saturday Night Special" Handguns, S. 2507 United States. Congress. Senate. Committee on the Judiciary. Subcommittee to Investigate Juvenile Delinquency, 1972 *"Saturday Night Special" Handguns* United States. Congress. Senate. Judiciary, 1972 Mexico's Fuel Trafficking Phenomenon Samuel León Sáez, 2025-02-13 Fuel trafficking has consolidated in recent years as a paramount illegal enterprise and a priority for Mexico's diverse criminal actors. This black market has been growing at an overwhelming pace in Mexico since 2011; it is estimated that between 2013 and 2018 more than 100 million barrels containing different fuels were stolen from the country's refineries, terminals, and pipelines. This academic book focuses on finding explanations as to how this came to be. By examining the Mexican fuel black market, one of the largest and most sophisticated criminal enterprises of its kind worldwide, this timely investigation shines a light on this recently relevant criminal market which has been detected across the world, including in North and South America, the Middle East, North Africa, Europe, Southeast Asia, and Sub-Saharan Africa. This book will prove of relevance for readers interested in energy and security, illicit markets, criminality, modern-day Mexico, and the challenges posed by the country's security crisis. At a wider level, this work contributes with insights on the diversification and sophistication of criminality and black markets in Mexico, Latin America, and the world. DEMYSTIFYING 'NDRANGHETA: CHALLENGING THE ORGANIZED CRIME PHENOMENON OF CALABRIA Vincent C. Figliomeni PhD, 2023-03-29 This book is focused on demystifying Ndrangheta, which includes unraveling Ndrangheta's behavioral elements that exploit criminal opportunities through conspiracy, collusion, and corruption, common among most mafia-type groups, reinforced by mafia mystique. The Ndrangheta phenomenon has evolved over time by exploiting critical supporting elements of power present within the cultural, socio-economic, and political environments of Calabria, which in turn perpetuates, protects, and sustains Ndrangheta's presence and persistence. A comprehensive and practical anti-counter Ndrangheta overarching campaign plan model is presented to assist policy makers, security practitioners, and criminologists in developing a method and a process for taking actions that neutralize essential elements of power and prestige that, besides wealth, are primary objectives of Ndrangheta.

Understanding and Responding to the Terrorism Phenomenon O. Nikbay, S. Hancerli, 2007-06-29 Since terrorism is a global issue, counterterrorism studies are also a global issue which requires cooperation and collaboration of multi-dimensional groups such as academicians representing the theoretical and research part, policymakers representing the coordination and authorization part, and professionals representing the practical and real-life experience. This publication is unique because it includes the researches' experiences and perceptions of all parts of this cooperation and collaboration. Hence, there are four primary sections in this book elaborating their perspectives: Understanding Terrorism, Suicide Attacks, Radical terrorism, and Case Studies. Strategies and Tactics for Dealing with Terrorist Hostage Sieges, Hijackings, and Kidnappings, and Counter Terrorism Policies, Lessons for the Future. This book encapsulates these various themes that

highlight how to understand the terrorism phenomenon and analyze how to respond to terrorism and terrorist operations and how to promote counter terrorism policies and strategies *Live* 2021 3 No.239 LiveABC, 2021-03-01 4

Machines of Youth Gary S. Cross,2018-05-04 For American teenagers getting a driver s license has long been a watershed moment separating teens from their childish pasts as they accelerate toward the sweet sweet freedom of their futures With driver s license in hand teens are on the road to buying and driving and maybe even crashing their first car a machine which is home to many a teenage ritual being picked up for a first date parking at a scenic overlook or blasting the radio with a gaggle of friends in tow So important is this car ride into adulthood that automobile culture has become a stand in a shortcut to what millions of

Americans remember about their coming of age *Machines of Youth* traces the rise and more recently the fall of car culture among American teens In this book Gary S Cross details how an automobile obsession drove teen peer culture from the 1920s to the 1980s seducing budding adults with privacy freedom mobility and spontaneity Cross shows how the automobile redefined relationships between parents and teenage children becoming a rite of passage producing new courtship rituals and fueling the growth of numerous car subcultures Yet for teenagers today the lure of the automobile as a transition to adulthood is in decline Tinkerers are now sidelined by the advent of digital engine technology and premolded body construction while the attention of teenagers has been captured by iPhones video games and other digital technology And adults have become less tolerant of teens on the road restricting both cruising and access to drivers licenses Cars are certainly not going out of style Cross acknowledges but how upcoming generations use them may be changing He finds that while vibrant enthusiasm for them lives on cars may no longer be at the center of how American youth define themselves But for generations of Americans the modern teen experience was inextricably linked to this particularly American icon **A**
