## **Phenomenological Method:**

The Descriptive Phenomenological Method in Psychology Amedeo Giorgi, 2009 This comprehensive work from one of the leading thinkers in humanistic psychology provides a thorough discussion of the phenomenological foundations for qualitative research in psychology Amedeo Giorgi's examination operates out of the intersection of phenomenological philosophy science and psychology such a multidisciplinary approach allows him to challenge several long standing assumptions about the practice of psychology Giorgi asserts that empiricism is not the best philosophy for grounding the science of psychology rather the broader phenomenological theory of science permits more adequate psychological development Giorgi draws from Husserl's philosophical principles the reasons for conducting research in psychology and then offers practical steps for applying a phenomenological method and real examples of applications of the method In fact Giorgi proposes a method that is theoretically grounded in phenomenological philosophy and yet treats empirically derived data This is a rigorous but open qualitative research method that is tolerant of pararational givens as well as one that is supportive of rational criteria The analyses and methods presented in Phenomenological Method in Psychology will be attractive to psychologists phenomenologists and researchers involved in qualitative research throughout social and human science disciplines

**Phenomenology of Practice** Max Van Manen, 2016-09-16 Max van Manen offers an extensive exploration of phenomenological traditions and methods for the human sciences It is his first comprehensive statement of phenomenological thought and research in over a decade Phenomenology of practice refers to the meaning and practice of phenomenology in professional contexts such as psychology education and health care as well as to the practice of phenomenological methods in contexts of everyday living Van Manen presents a detailed description of key phenomenological ideas as they have evolved over the past century he then thoughtfully works through the methodological issues of phenomenological reflection empirical methods and writing that a phenomenology of practice offers to the researcher Van Manen's comprehensive work will be of great interest to all concerned with the interrelationship between being and acting in human sciences research and in everyday life Max van Manen is the editor of the series Phenomenology of Practice <https://www.routledge.com/series/PPVM>
