

Transcendental/Empirical/ Psychological Phenomenology

Moustakas, psychologist, phenomenological researcher

- Research focused less on interpretation and more on description of experience of participants
 - Relies on Husserl's concept of *epoche*, wherein investigator sets aside their experience to take fresh perspective
 - The *epoche* leads to the *transcendental* approach "in which everything is perceived freshly, as if for the first time" (Moustakas, 1994, p.34)
 - Researcher develops two descriptions:
 - Textural: What participants experiences
 - Structural: How they experienced it (conditions, situations, context)
- (Creswell, 2013)
- (Moustakas, 1994)
- ✓ Researcher derives overall essence of experience from these two descriptions

Phenomenological Psychology

L Reisser

Phenomenological Psychology:

When somebody should go to the ebook stores, search opening by shop, shelf by shelf, it is truly problematic. This is why we provide the book compilations in this website. It will completely ease you to look guide **Phenomenological Psychology** as you such as.
