## **Phenomenology And Skepticism Essays In Honor Of James M Edie:**

**Phenomenology and Skepticism** Brice R. Wachterhauser, 1996 This volume of essays honors the extensive contributions of James M Edie the founding editor of the Studies in Phenomenology and Existential Philosophy series to the development of phenomenological thought Grounded in Edie s emphasis on Husserl s confrontation with skepticism the essays provide an in depth analysis of Husserlian and neo Husserlian responses to skepticism and relativism Led by an informative introduction by the volume editor Brice R Wachterhauser and featuring essays by thirteen contributors including Edie himself this volume confirms both Edie s lasting influence and the continued relevance of Husserlian thought in contemporary philosophical debate *Phenomenology* Jitendra Nath Mohanty, 1997 J N Mohanty is one of America s leading interpreters of Husserl s phenomenology and the phenomenological movement for which Husserl s work was the impetus This collection of essays traces the themes of essentialism and transcendentalism as they have appeared in the development of phenomenology from Husserl to Derrida Beginning with Husserl s major phenomenological themes essence meaning transcendental subjectivity and life world Mohanty examines the tensions within phenomenology in general and within Husserl s phenomenology in particular The accessibility of these essays coupled with Mohanty s consideration of lesser known phenomenologists Ingarden Scheler Hartmann et al mark this as a major updating of phenomenology for a contemporary audience *Phenomenology and the Problem of Time* Michael R. Kelly, 2016-09-15 This book explores the problem of time and immanence for phenomenology in the work of Edmund Husserl Martin Heidegger Maurice Merleau Ponty and Jacques Derrida Detailed readings of immanence in light of the more familiar problems of time consciousness and temporality provide the framework for evaluating both Husserl s efforts to break free of modern philosophy s notions of immanence and the influence Heidegger s criticism of Husserl exercised over Merleau Ponty s and Derrida s alternatives to Husserl s phenomenology Ultimately exploring various notions of intentionality these in depth analyses of immanence and temporality suggest a new perspective on themes central to phenomenology s development as a movement and raise for debate the question of where phenomenology begins and ends *Phenomenology and Logic* Bernard Lonergan, 2001-12-22 Collected here for the first time this series of lectures delivered by Lonergan at Boston College in 1957 illustrates a pivotal time in Lonergan s intellectual history marking both the transition from the faculty psychology still present in his work Insight to intentionality analysis and his initial differentiation of the existential level of consciousness The lectures on logic deal with the general character of mathematical logic and its relation to truth Scholasticism and Aristotelian logic Continuing Lonergan s long standing interest in the foundations of thought the lectures on existentialism offer a penetrating account of Husserl and his influence They also deal with Jaspers Heidegger Sartre and Marcel They offer reflections on such topics as being oneself dread horizon and the existential gap Perhaps more dramatically than in any other work these papers reveal Lonergan s dual commitment to the rigor of scientific analysis in the field of mathematical logic and to the sensitivity of

continental philosophies to existential issues      **Phenomenology and Logic** Bernard J. F. Lonergan, Frederick E. Crowe, Robert M. Doran, 1988-01-01 entirety to contemporary readers Book Jacket      **Hedwig Conrad-Martius** Ronny Miron, 2023-04-21 This volume the first of its kind written in English interprets the realistic phenomenological philosophy of Hedwig Conrad Martius 1888 1966 She was a prominent figure in the Munich G ttingen Circle the first generation of phenomenology after Edmund Husserl 1859 1938 and was known as the first lady of German philosophy The articles included in this collection deal with the two main themes constituting her realistic metaphysical phenomenology Being and the I The new edition includes an additional chapter opening a new path into the study of Conrad Martius with Heidegger In addition the collection includes a comprehensive Introduction that describes the personal background and the social and philosophical contexts behind Conrad Martius s thought with an emphasis on the mutual influence and fertilization of the group of early phenomenologists in the Munich G ttingen Circle The book is aimed at scholars of philosophy and educated readers      *Phenomenology of Space and Time* Anna-Teresa Tymieniecka, 2014-04-26 This book celebrates the investigative power of phenomenology to explore the phenomenological sense of space and time in conjunction with the phenomenology of intentionality the invisible the sacred and the mystical It examines the course of life through its onto-poietic genesis opening the cosmic sphere to logos The work also explores on the one hand the intellectual drive to locate our cosmic position in the universe and on the other the pull toward the infinite It intertwines science and its grounding principles with imagination in order to make sense of the infinite This work is the first of a two part work that contains papers presented at the 62nd International Congress of Phenomenology The Forces of the Cosmos and the Ontopoietic Genesis of Life held in Paris France August 2012 It features the work of scholars in such diverse disciplines as biology anthropology pedagogy and psychology who philosophically investigate the cosmic origins of beingness Coverage in this first part includes Toward a New Enlightenment Metaphysics as Philosophy of Life Transformation in Phenomenology Husserl and Tymieniecka Biologically Organized Quantum Vacuum and the Cosmic Origin of Cellular Life Plotinus Enneads and Self Creation The Creative Potential of Humor Transcendental Morphology A Phenomenological Interpretation of Human and Non Human Cosmos and Cognition and Emotion From Dichotomy to Ambiguity      *Political Phenomenology* Hwa Yol Jung, Lester Embree, 2016-06-13 This volume presents political phenomenology as a new specialty in western philosophical and political thought that is post classical post Machiavellian and post behavioral It draws on history and sets the agenda for future explorations of political issues It discloses crossroads between ethics and politics and explores border crossing issues All the essays in this volume challenge existing ideas of politics significantly As such they open new ways for further explorations BY future generations of phenomenologists and non phenomenologists alike Moreover the comprehensive chronological bibliography is unprecedented and provides not only an excellent picture of what phenomenologists have already done but also a guide for the future      **Ethics and Theological Disclosures** Guy Mansini, James G. Hart, 2003 Honouring distinguished philosopher

and professor Robert Sokolowski for his work in phenomenology the essays included in this collection demonstrate the reception and fruitfulness of Sokolowski's analysis of moral action and his idea of a theology of disclosure **Heidegger's Moral Ontology** James D. Reid, 2019 Offers the first full account of the ethical themes underwriting Heidegger's early efforts to develop an account of human existence *Dictionary Of Modern American Philosophers* John R. Shook, 2005-05-15 The Dictionary of Modern American Philosophers includes both academic and non academic philosophers and a large number of female and minority thinkers whose work has been neglected It includes those intellectuals involved in the development of psychology pedagogy sociology anthropology education theology political science and several other fields before these disciplines came to be considered distinct from philosophy in the late nineteenth century Each entry contains a short biography of the writer an exposition and analysis of his or her doctrines and ideas a bibliography of writings and suggestions for further reading While all the major post Civil War philosophers are present the most valuable feature of this dictionary is its coverage of a huge range of less well known writers including hundreds of presently obscure thinkers In many cases the Dictionary of Modern American Philosophers offers the first scholarly treatment of the life and work of certain writers This book will be an indispensable reference work for scholars working on almost any aspect of modern American thought *Philosophical Reflections on the Changes in Eastern Europe* William Leon McBride, 1999 In this timely book two philosophers—one American one Bulgarian—explore the significance of the changes in Eastern Europe that began in 1989 and offer two alternative perspectives about them The momentous events taking place in this region challenge philosophers to look for deeper understandings and explanations than are called for in purely strategic political accounts *Philosophical Reflections on the Changes in Eastern Europe* is written with an explicit awareness of the great differences—in cultural traditions recent history and current conditions—among the different regions and countries of Central and Eastern Europe but the authors focus above all on certain significant commonalities that are fully understandable only within a larger global context They explore such issues as the role of ideology past and present conversions real or apparent of intellectuals the place of philosophers in politics the relationship between democratic slogans and everyday realities and special concerns of women Social and political philosophers political scientists and scholars of Eastern Europe will want to have this book on their shelves *The Philosophy of Hegel as a Doctrine of the Concreteness of God and Humanity: Volume One* Ivan Aleksandrovich Il'in, 2010-08-30 This landmark two volume translation from Russian of *The Philosophy of Hegel as a Doctrine of the Concreteness of God and Humanity* marks the first appearance in English of any of the works of Russian philosopher Ivan Aleksandrovich Il'in Originally published in 1918 on the eve of the Russian civil war Il'in's commentary on Hegel marked both an apogee of Russian Silver Age philosophy and a significant manifestation of the resurgence of interest in Hegel that began in the early twentieth century A F Losev accurately observed in the same year it appeared Neither the study of Hegel nor the study of contemporary Russian philosophical thought is any longer thinkable without this book of I A Il'in

in s Some Hegel scholars may know this work through the abridged translation into German that Il in produced himself in 1946 However that edition omitted most of the original volume two Noted Hegel scholar Philip T Grier s edition with an introduction setting Il in s work in its proper historical cultural and philosophical contexts and annotation throughout represents the first opportunity for non Russian speaking readers to acquaint themselves with the full scope of Il in s still provocative interpretation of Hegel Volume 1 is The Doctrine of God Volume 2 is The Doctrine of Humanity **George Santayana's Philosophy of Religion** Edward W. Lovely,2012-09-28 George Santayana 1862 1952 of Spanish descent and generally claimed to be in the canon of American philosophers was substantially influenced by his Roman Catholic origins in his philosophical disposition toward the value of tradition religious symbols and dogma His philosophical project sustained a respectful attitude toward the spiritual value of orthodox religion while the thrust of his philosophy was naturalistic and materialistic throughout There is a perception by some scholars that Santayana s philosophy evolved from a humanistic perspective to a more spiritual one in his later years It is the position of this thesis that his philosophy at the core depicting a harmonious striving toward individual happiness remained essentially consistent from his earliest publication of Interpretations of Poetry and Religion and The Life of Reason through his later works of Scepticism and Animal Faith Realms of Being Dominations and Powers and The Idea of Christ in the Gospels Santayana s philosophical approach is both phenomenological and social constructionist in its methodology significantly preempting the methodology of social constructionist theology and a post modern interpretation of religion His idiosyncratic phenomenological approach is compared with a benchmark methodology of Edmund Husserl the generally accepted founder of the phenomenological method There are also important similarities between Santayana s phenomenological approach and those of Charles Sanders Peirce and Alfred North Whitehead The basis for the comparison of the phenomenological methodology of Santayana and Husserl is their mutually similar fundamental theory of intuited essence Santayana s contribution to religious studies is not only philosophical but also theological where he has utilized Christian theological language in transposing and interpolating his philosophy of religion to the Christian drama of the salvational Christ Santayana s essay Ultimate Religion reflects his perspective of a disillusioned but still spiritual vision incorporating the piety discipline and spirituality of a life of reason Within the framework of this model Santayana s philosophy of religion is developed and explored Finally the relevance of Santayana s philosophy of religion to contemporary religious studies and selected religious issues is addressed with a delineation and discussion of some important aspects of his philosophical vision Historical Dictionary of Husserl's Philosophy John J. Drummond,2022-03-14 Edmund Husserl is generally regarded as the founding figure of the philosophical movement of phenomenology by which he understands a descriptive science of the essential structures of experiences and of their objects precisely as these are experienced Phenomenology has had a decisive influence on philosophy in the 20th century especially in Europe The movement known as continental philosophy whether practiced in Europe or elsewhere has

its roots in phenomenology and in the post Hegelian philosophies of S ren Kierkegaard Friedrich Nietzsche and Karl Marx Historical Dictionary of Husserl s Philosophy Second Edition contains a chronology an introduction and an extensive bibliography The dictionary section has more than 600 cross referenced entries on his key concepts and major writings as well as entries on his most important predecessors contemporaries and successors This book is an excellent resource for students researchers and anyone wanting to know more about Edmund Husserl *Eco-Phenomenology* Charles S.

Brown,Ted Toadvine,2012-02-01 This groundbreaking collection explores the intersection of phenomenology with environmental philosophy It examines the relevance of Husserl Heidegger Merleau Ponty and Levinas for thinking through the philosophical dilemmas raised by environmental issues and then proposes new phenomenological approaches to the natural world The contributors demonstrate phenomenology s need to engage in an ecological self evaluation and to root out anthropomorphic assumptions embedded in its own methodology Calling for a reexamination of beliefs central to the Western philosophical tradition this book shifts previously marginalized environmental concerns to the forefront and blazes a trail for a new collaboration between phenomenologists and ecologically minded theorists Gustav Shpet's Contribution to

Philosophy and Cultural Theory Galin Tihanov,2009 This book offers original research by leading scholars from the United States United Kingdom Germany France and Russia which covers the central areas of Shpet s work on phenomenology philosophy of language cultural theory and aesthetics and takes forward the current state of knowledge and debates on his contribution to these fields of enquiry The book also contains for the first time in English translation the most seminal portions of Shpet s book length study of hermeneutics which is his most significant work for contemporary students of cultural theory The first part of the book maps out Shpet s legacy in the main areas of his multi faceted work the second part examines in closer detail particular aspects of Shpet s philosophical affiliations and contributions in the framework of cultural theory phenomenology hermeneutics and in the field of Russian intellectual history the final part features the publication of extracts from Shpet s 1918 book on hermeneutics **Edmund Husserl Bibliography** Steven

Spileers,2013-03-09 This bibliography contains the publications of Husserl and the main secondary literature on Husserl from Husserl s earliest publication 1887 till today 1997 As the collection of material was conduded in lune 1997 the list of publications for the year 1997 is of course incomplete In this bibliography publications in the following languages have been induded German English French Italian Spanish Portuguese and Dutch for both primary and secondary literature Since this bibliography has been based primarily on the consultation of the induded documents and not restricted to copying already existing bibliographies it was not possible to indude publications in languages other than those mentioned The bibliography has been constructed in the following way 1 The list of Husserl s works and secondary literature by individual authors is preceded by a list of all edited volumes in which a text by or on Husserl is published This list is ordered chronological1ly and runs from 1921 ti11 1997 inclusive Edited volumes of the same year are classified according to language and this in the

order mentioned above German English French etc Edited volumes with a title in more than one language are classified according to the above order of languages this of course concerns only the title of the edited volume not the title s of the individual contributions This order is maintained throughout the other parts of the bibliography

**On Hegel** George L. Kline, 2015-07-31 Fifteen important papers about Hegel covering forty five years of work by one of America s most prominent Hegel scholars

- 1 What Marx Could and Should Have Learned from Hegel 1974
- 2 Hegel and the Marxist Leninist Critique of Religion and Reply to Commentators 1970
- 3 Present Past and Future in the Writings of Alexander Herzen 1990
- 4 The Use and Abuse of Hegel by Nietzsche and Marx 1989
- 5 Hegel and Solovyov 1974
- 6 The Existentialist Rediscovery of Hegel and Marx 1971
