Margaret Oliphant was a prolific Scottish writer who produced over 120 works during her lifetime, including novels, biographies, and historical texts. Her profound insight into societal norms and the intricacies of human relationships likely stemmed from personal adversities such as the loss of her husband and children. It is through this lens of personal experience that Oliphant scrutinizes the institution of marriage, capturing the nuanced conflict between societal expectations and individual desires. Her prolific output was in part financially motivated, revealing the necessity for creative work to sustain her family but also underlining her commitment to literature. *The Marriage of Elinor* is recommended for scholars and literary enthusiasts intrigued by the Victorian era's complex social mores. Readers seeking a richly detailed and emotionally resonant narrative will find in Oliphant's work a refined examination of the Victorian psyche.
