Encyclopaedia Universalis, 2016-07-12 Dernier grand ouvrage laissé par Louis Marin 1931-1992 et publié après sa mort Philippe de Champaigne nous renvoie aussi ses premières publications les études sémiologiques 1971 The Logic of Idolatry in Seventeenth-century French Literature Ellen McClure, 2020 Idolatry was one of the dominant and most contentious themes of early modern religious polemics This book argues that many of the best known literary and philosophical works of the French seventeenth century were deeply engaged and concerned with the theme In a series of case studies and close readings it shows that authors used the logic of idolatry to interrogate the fractured and fragile relationship between the divine and the human with particular attention to the increasingly fraught question of the legitimacy of human agency Reading d'Urf Descartes La Fontaine Saligny Molière and Racine through the lens of idolatry reveals heretofore hidden aspects of their work all while demonstrating the link between the emergent autonomy of literature and philosophy and the confessional conflicts that dominated the period In so doing Professor McClure illustrates how religion can become a source of interpretive complexity and how this dynamism can and should be taken into account in early modern French studies and beyond ELLEN MCCLURE is Associate Professor of History and French University of Illinois at Chicago **Landscape and the Visual**

**Text as Dance** Mark Franko, 2024-12-12 This book offers a groundbreaking investigation into issues of gender power and the representation of sovereignty in French Baroque court ballet and in today's performances that recall them Mark Franko uses powerful interpretive tools derived from historiography and critical theory especially the work of German Jewish philosopher Walter Benjamin to offer the reader both a historical and a theoretical interpretation of this genre of dance in France c 1615-1654 as well as its aftermath and legacy today Through doing so he reaches conclusions about how sovereignty and power were both perceived by viewers at the time and how they were represented through dance given that it was the noble class who devised and performed court ballets He enquires into the role of choreography and theatricality as potentially critical forces operating at the heart of sovereignty Franko places the work of Louis Marin on power representation and movement in French Baroque painting and performance in juxtaposition to that of Benjamin on theater Other historians whose work is prominent in this study are Ernst Kantorowicz Michel Foucault and Jos Antonio Maravall With

wide breadth in the work of historians philosophers political scientists critical theorists musicologists and dance historians this is the culmination of a career s worth of scholarship and research in the field      *Visions of the Courtly Body* Christiane Hille,2013-01-09 In 1603 the beginning of the Stuart reign painting was of minor importance at the English court where the elaborately designed masques of Inigo Jones served as the prime medium of royal representation Only two decades later their most celebrated performer George Villiers the First Duke of Buckingham had assembled one of the largest and most significant collections of painting in early seventeenth century Europe His career as the personal and political favourite of two succeeding monarchs James I and Charles I coincides with the commission of a number of highly ambitious portraits from the hands of Peter Paul Rubens and Anthony van Dyck that displayed his body in spectacular manner As the first comprehensive study of Buckingham s patronage of the visual arts this book is concerned with the question of how the painted image of the courtier transferred strategies of social distinction that had originated in the masque to the language of painting Establishing a new grammar in the competing rhetorics of bodily self fashioning this recast notion of portraiture contributed to an epistemological change in perceptions of visual representation at the early modern English court in the course of which painting advanced to the central art form in the aesthetics of kingship      *The Art of Visual Exegesis* Vernon K. Robbins,Walter S. Melion,Roy R. minds and hearts Mysteries by their very nature appeal to the spirit rather than to sense or reason since they operate beyond the limitations of the human faculties and yet the visual and literary arts served as vehicles for the dissemination of these mysteries and for prompting reflection upon them Contributors David Areford AnnMarie Micikas Bridges Mette Birkedal Bruun James Clifton Anna Dlabaková Wim Franke Robert Kendrick Aiden Kumler Noria Litaker Walter S Melion Lars Cyril Nrgaard Elizabeth Pastan Donna Sadler Alexa Sand Tanya Tiffany Lee Palmer Wandel Geert Warner Bronwen Wilson and Elliott Wise

**The Public Mirror** Larry F. Norman, 2010-08-15 Though much beloved and widely produced Molière's satirical comedies pose a problem for those reading or staging his works today how can a genre associated with biting caricature and castigation deliver engaging theater Instead of simply dismissing social satire as a foundation for Molière's theater as many have done Larry F Norman takes seriously Molière's claim that his satires are first and foremost effective theater Pairing close readings of Molière's comedies with insightful accounts of French social history and aesthetics Norman shows how Molière conceived of satire as a public mirror provoking dynamic exchange and conflict with audience members obsessed with their own images Drawing on these tensions Molière portrays characters satirizing one another on stage with their reactions providing dramatic conflict and propelling comic dialogue By laying bare his society's system of imagining itself Molière's satires both enthralled and enraged his original audience and provide us with a crucial key to the classical culture of representation

Iconoclasm and Iconoclasm Willem van Asselt, Paul van Geest, Daniela Müller, Theo Salemink, 2007-09-30 This book focuses on iconoclastic

controversies and in particular their impact on the creation of religious identities In the history of Jewish Christian and Muslim culture religious identity was not only formed through historical claims but also through the use of certain images images of God images of the others and images of the self Moreover in the struggle for religious identity these images were time and again employed for the purpose of establishing distinct groups both orthodox and deviant At the same time they supplied weapons in the theological debate and found explicit expression in certain rituals or liturgical traditions These conference proceedings include a discussion of the role of images in society politics theology and liturgy in particular addressing the iconoclasm of physical mental and verbal images on the construction of religious identity *Lectures on Art* Christian Michel, Jacqueline Lichtenstein, 2020-08-25 For the first time a critical selection of the Académie Royale de Peinture et de Sculpture's highly influential conferences is available in English Between 1667 and 1792 the artists and amateurs of the Académie Royale de Peinture et de Sculpture in Paris lectured on the Académie's conferences foundational documents in the theory and practice of art These texts and the principles they embody guided artistic practice and art theory in France and throughout Europe for two centuries In the 1800s the Académie's influence waned and few of the 388 Académie lectures were translated into English Eminent scholars Christian Michel and Jacqueline Lichtenstein have selected and annotated forty two of the most representative lectures creating the first authoritative collection of the conferences for readers of English Essential to understanding French art of the seventeenth and eighteenth centuries these lectures reveal what leading French artists looked for in a painting or sculpture the problems they sought to resolve in their works and how they viewed their own and others artistic practice Eugène Cuvelier: Legend of the Forest Eugène Cuvelier, Ulrike Gauss, Henning Weidemann, 1996 Eugene Cuvelier already belonged to the second generation of painter photographers who sought their motifs in nature and whose photographs were sold as albums *Études d'après nature* and circulated widely as study material and pictorial models for artists In 1859 in the presence of his artist friends Jean François Millet Theodore Rousseau and Camille Corot Eugene Cuvelier married Louise Ganne the daughter of the owner of the well known Auberge in Barbizon and there he settled Thus he could study the landscape in its diverse forms of appearance changing during the day and from one season to another He was not only interested in the classic sights however but undertook a kind of artistic stocktaking of his environment This is the first monograph on the work of Eugene Cuvelier It contains a number of lavishly reproduced illustrations and an illustrated index of all works known to date With this book Daniel Challe and Henning Weidemann have made an important contribution to a subject almost unknown to a wider public the French landscape photography of the time around 1860 BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved **The Shock of the Ancient** Larry F. Norman, 2011-04-15 The cultural battle known as the Quarrel of the Ancients and Moderns served as a sly cover for more deeply opposed views about the value of literature and the arts One of the most public controversies of early modern Europe the Quarrel has most often been depicted as pitting antiquarian conservatives against

the insurgent critics of established authority The Shock of the Ancient turns the canonical vision of those events on its head by demonstrating how the defenders of Greek literature rather than clinging to an outmoded tradition celebrated the radically different practices of the ancient world At a time when the constraints of decorum and the politics of French absolutism quashed the expression of cultural differences the ancient world presented a disturbing face of otherness Larry F Norman explores how the authoritative status of ancient Greek texts allowed them to justify literary depictions of the scandalous The Shock of the Ancient surveys the diverse array of aesthetic models presented in these ancient works and considers how they both helped to undermine the rigid codes of neoclassicism and paved the way for the innovative philosophies of the Enlightenment Broadly appealing to students of European literature art history and philosophy this book is an important contribution to early modern literary and cultural debates
