This act of God's translation continues today wherever the gospel is expressed in each language and lived out in each culture that makes up our diverse world. Unfortunately, the church often ignores its cultural and linguistic diversity and instead imposes a dominant language and culture for expressing faith. This textbook seeks to challenge that situation. By identifying common barriers that prevent people from engaging with Scripture, the authors explore the ways churches can maintain unity in Christ and celebrate the diversity of their membership. Addressing a wide range of relevant issues and using practical applications, this revised and updated edition re-establishes the importance of good contextual Scripture engagement. A key resource in helping church leaders encourage people to communicate with God in their own language and to discover that Christ wants to make himself at home in their world.
