The Philippine Temptation Epifanio San Juan, 1996 In this incisive and polemical book E. San Juan Jr the leading authority on Philippines U.S. literary studies goes beyond fashionable postcolonial theory to bring to our attention the complex history of Philippines U.S. literary interactions In sharp contrast to other works on the subject the author presents Filipino literary production within the context of a long and sustained tradition of anti imperialist insurgency and foregrounds the strong presence of oppositional writing in the Philippines After establishing the historical context of U.S.

intervention and Filipino resistance San Juan examines the work of two very significant writers The first Carlos Bulosan a journalist and union activist became in the author s words a tribune of the people Bulosan s writings which combine critique and prophecy do not allow us to forget the atrocities inflicted on the Filipino people The other Jos Garcia Villa lapsed into premature obscurity on account of the complexity of his writings about the Filipino predicament Read through San Juan s eyes these writers are revealed as multifaceted thinkers and activists not stereotypical ethnic artists San Juan goes beyond literary studies and contemporary debates about nationalism and politics to point the way to a new direction in radical transformative writing He uncovers hidden agendas in many previous accounts of U S Philippine relations and this book exemplifies how best to combine activist scholarship with historically grounded cultural commentary Author note E San Juan Jr is Fellow of the Center for the Humanities and Visiting Professor of English Wesleyan University and Director of the Philippines Cultural Studies Center He was recently chair of the Department of Comparative American Cultures Washington University and Professor of Ethnic Studies at Bowling Green State University Ohio He received the 1999 Centennial Award for Literature from the Philippines Cultural Center His most recent books are *Beyond Postcolonial Theory From Exile to Diaspora After Postcolonialism and Racism and Cultural Studies* [The Social Origins of Political Regionalism](#) William Brustein, 2023-04-28 This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1988 [Revolutionary Struggle In The Philippines](#) Leonard Davis, 1989-04-21 [Conflict in Moro land: Prospects for Peace? \(Penerbit USM\)](#) Arndt Graf, Peter Kreuzer, Rainer Werning, 2014-11-25 The civil war in the Islamic Southern Philippines is one of the longest lasting conflicts in Southeast Asia This book dates back to a workshop on that conflict at the Department of Political Science of the University of Gottingen Germany The particular interest in the Moro conflict in Gottingen is due to the fact that a family from that city was among those tourists who were kidnapped in Sipadan Malaysia by the Abu Sayyaf group in spring 2000 and held hostage on the island of Jolo Sulu for almost half a year Although the geographical and cultural backgrounds of most of the contributors to this volume differ from the parties involved in the conflict the editors hope that this volume offers adequate views theoretical approaches and methodologies which prove helpful in understanding and eventually ameliorating the conditions of the people living in Moro land **The Global Political Economy of Raúl Prebisch** Matias E. Margulis, 2017-03-16 The Global Political Economy of Raúl Prebisch offers an original analysis of global political economy by examining it through the ideas agency and influence of one of its most important thinkers leaders and personalities Prebisch s ground breaking ideas as an economist the terms of trade thesis and the economic case for state led industrialization changed the world and guided economic policy across the global South As the head of two UN bodies the Economic Commission for Latin America and the

Caribbean ECLAC and later the United Nations Conference on Trade and Development UNCTAD he was at the frontline of key North South political struggles for a fairer global distribution of wealth and the regulation of transnational corporations Prebisch increasingly came to view political power not just economic capabilities as pivotal to shaping the institutions and rules of the world economy This book contextualizes his ideas exploring how they were used and their relevance to contemporary issues The neoliberal turn in economics in North America Western Europe and across the global South led to an active discrediting of Prebisch's theories and this volume offers an important corrective reintroducing current and future generations of scholars and students to this important body of work and allowing a richer understanding of past and ongoing political struggles

Asian Perspectives On Human Rights Claude Welch, 2021-11-28 Analyzes Asian perspectives on human rights in terms of cultural traditions grassroots and regional organizations and economic constraints on the expression of rights The book asks are human rights western in their inception are they universal or do they differ by region and culture

Human Rights and State Security Anja Jetschke, 2011-06-06 In recent years influential studies have shown that the activities of human rights organizations are central in convincing violating governments to improve their practices Yet some governments continue to get away with human rights violations despite mobilizations against them In Human Rights and State Security Indonesia and the Philippines Anja Jetschke considers the impact of transnational human rights advocacy on the process of human rights reform and democratization in two countries that have been successful in resisting international human rights pressure Jetschke details the effects of campaigns waged by international and domestic NGOs foreign governments local opposition leaders and international organizations She argues that the literature on transnational advocacy overlooks the ability of governments to justify and excuse human rights violations in their public dialogue with human rights organizations Describing efforts of international and domestic human rights advocates to protect the rights of various groups the case studies in this book suggest that governments successfully block or evade pressures if they invoke threats to state security Jetschke finds that state security puts into play a set of powerful international norms related to sovereignty a state's right to territorial integrity the secular organization of the state or a government's lack of control over the means of organized violence If governments frame persuasive arguments around these norms they can effectively mobilize competing domestic and international groups and trump human rights advocacy Human Rights and State Security shows that the content and arguments on behalf of human rights matter and provide opportunities for both governments and civil society organizations to advance their agendas

After Postcolonialism Epifanio San Juan, 2000 This innovative analysis of the Philippine historical crisis is accompanied by a critique of a U S racial formation in which Filipinos constitute the largest Asian group Literary and artistic expressions by Filipinos manifest a new emerging identity defined by the

multicultural debates crossing the Pacific transforming the Philippines into a borderland of East and West Caught betwixt the Asian continent and the hegemonic power of the United States the Philippines occupies a contested space between past and present Between the memory of colonial experience and an emergent nation making dream can a meaningful future be envisioned This provocative book explores this problematic zone of difference through a critique of the Western production of knowledge in the context of local resistance While Americanization of the Filipino continues the encounter of globalizing and nationalizing forces has precipitated a profound political and social crisis whose outcome may be a paradigmatic lesson for many so called third world countries What happens in this Southeast Asian nation may foretell the fate of the ideals of democracy and social justice now beleaguered by the market and the unrelenting commodification of everyday life

S. Chin, Kathrina Mohd Daud, 2017-12-04 This collection of essays examines how Southeast Asian women writers engage with the grand narratives of nationalism and the modern nation state by exploring the representations of gender identity and nation in the postcolonial literatures of Brunei Darussalam Malaysia Singapore Indonesia and the Philippines Bringing to light the selected works of overlooked local women writers and providing new analyses of those produced by internationally known women authors and artists the essays situate regional literary developments within historicized geopolitical landscapes to offer incisive analyses and readings on how women and the feminine are imagined represented and positioned in relation to the Southeast Asian nation The book which features both cross country comparative analyses and country specific investigations also considers the ideas of the nation and the state by investigating related ideologies rhetoric apparatuses and discourses and the ways in which they affect women s bodies subjectivities and lived realities in both historical and contemporary Southeast Asian contexts By considering how these literary expressions critique contest or are complicit in nationalist projects and state mandated agendas the collection contributes to the overall regional and comparative discourses on gender identity and nation in Southeast Asian studies *Ferdinand Marcos and the Philippines* Albert F. Celoz, 1997-11-25 Ferdinand Marcos came to power in the Philippines in a coup d tat in 1972 and ruled absolutely in the name of order until his dramatic overthrow in February of 1986 This study examines how the authoritarian regime of Marcos remained in power sometimes in the face of massive opposition for 14 years Repressive regimes may seem undesirable but they are often able to elicit the support of significant sectors of society Marcos was able to maintain authoritarian rule through the support of bureaucrats businessmen and the military all with the assistance of the United States government He maintained this network of support through a patron client system with a centralized bureaucracy as its power and resource base In order to reward his supporters he expanded the authority of government But to minimize the political cost of expansion he maintained the legal and constitutional forms of democracy The Philippine experience in despotism is not unique many Third World countries are under authoritarian rule This subtle and nuanced analysis therefore provides an examination of the levers of power available to absolute rulers to better understand the political economy of authoritarianism The Third World War , 1984 **Global Backlash** Robin Broad, 2002 This work aims to move beyond the monolithic portrayal of the globalization protests that have escalated since Seattle and are not likely to abate soon With analysis and primary documents from a variety of popular and uncommon sources Robin Broad explores proposals and initiatives coming from the backlash to answer the question But what do they want A range of propositions and a debate

among segments of the backlash emerge **Development Redefined** Robin Broad, John Cavanagh, 2015-12-03 Rejecting the flat worldism of the globalists as well as the peaks and valleys of trade and aid policies over the years Robin Broad and John Cavanagh guide us through the raging debate over the best route to development for the poorer nations of Africa Asia and Latin America This book takes readers on a journey through the rise and fall of the one size fits all model of development that richer nations began imposing on poorer ones three decades ago That model called the Washington Consensus by its backers and neoliberalism or market fundamentalism by its critics placed enormous power in markets to solve the problems of the poor The authors have stood at the epicenter of these debates from their perches in the United Nations the U S government academia and civil society They guide us back in time to understand why the Washington Consensus dominated for so long and how it devastated workers the environment and the poor At the same time they chart the rise of an alter globalization movement of those adversely affected by market fundamentalism Today this movement is putting alternatives into action across the globe and what constitutes development is being redefined As the authors present this dramatic confrontation of paradigms they bring into question the entire conventional notion of development and offer readers a new lens through which to view the way forward for poorer nations and poorer people This brief history of development connects an arcane world with contemporary forces of globalization environmental degradation and the violation of perhaps the essential human right to be considered individually equally in an economically viable world and way
