## **Philippines Human Rights After Martial L:**

**Encyclopedia of Human Rights** Edward H. Lawson, 1996 Preface to the first edition **Impunity and Human Rights in International Law and Practice** Naomi Roht-Arriaza, 1995 I The legal setting The Philippines Virginia A. Leary, Anthony A. Ellis, Kurt Madlener, 1984 Map *Asian Perspectives On Human Rights* Claude Welch, 2021-11-28 Analyzes Asian perspectives on human rights in terms of cultural traditions grassroots and regional organizations and economic constraints on the expression of rights The book asks are human rights western in their inception are they universal or do they differ by region and culture *The International Law of Human Rights and States of Exception* Anna-Lena Svensson-McCarthy, 2021-09-27 This study demonstrates the extensive protection that international law provides to human rights even in the most serious of emergencies when they are particularly vulnerable Based on a meticulous analysis of preparatory works and practice under the International Covenant on Civil and Political Rights as well as the American and European Conventions on Human Rights and with a special chapter on the International Labour Organisation s approach to international labour standards and emergencies this book shows that respect for the rule of law and the concept of a democratic society are controlling parameters in any valid limitation on the enjoyment of human rights It further shows that respect for human rights and the operation of institutions such as the Legislature and Judiciary are crucial to enabling societies to address and eventually remedy the root causes of emergency situations The study recommends possible directions for the development of case law and suggests some practical means to help ensure that international legal requirements are in fact respected in emergencies **Human Rights in South Korea and the Philippines** United States. Congress. House. Committee on International Relations. Subcommittee on International Organizations, 1975 Human Rights in South Korea and the Philippines: the Implications for U.S. Policy, Hearings Before the Subcommittee on International Organizations ..., 94-1, May 20, 22, June 3, 5, 10, 12, 17, and 24, 1975 United States. Congress. House. Committee on International Relations, 1975 The Power of Human Rights Thomas Risse, Stephen C. Ropp, Kathryn Sikkink, 1999-08-05 This book celebrated the 50th anniversary of the Universal Declaration of Human Rights by showing how global human rights norms have influenced national government practices in eleven different countries around the world Had the principles articulated in the Declaration had any effect on the behavior of states towards their citizens What are the conditions under which international human rights norms are internalized in domestic practices And what can we learn from this case about why how and under what conditions international norms in general influence the actions of states This book draws on the work of social constructivists to examine these important issues The contributors examine eleven countries representing five different world regions Northern Africa Sub Saharan Africa Southeast Asia Latin America and Eastern Europe drawing practical lessons for activists and policy makers concerned with preserving and extending the human rights gains made during the past fifty years *Elections and Democratization in the Philippines* Jennifer Franco, 2020-03-24 First

published in 2001 This study shows how legitimate elections held under centralized authoritarian conditions before 1986 though not democratic still contributed to democratization by creating the political space needed for democratic opposition to arise *United States-Philippines Relations and the New Base and Aid Agreement* United States. **The Right to Truth in International Human Rights Law** Julia Kertesz,2021-05-27

The present book addresses the right to truth in the field of international human rights law The objective is to verify the outlines of this right that make it unique and which justify its own disputable existence in the human rights scenario as a legally binding norm Departing from a historical perspective of the emergence of this right in International Law the intent is to analyze the multiple debates that have marked the development of the right to truth throughout the past decades It is explored therefore how the a priori abstract notion of truth became a right and the strict relation this has with the social mobilizations of victims of gross violations of human rights To accomplish this the book spans across the struggle in particular of the relatives of disappeared victims during the 1970 s and 1980 s when the dictatorships reigned in Latin America It follows on the expansion of the right to truth during what has been known as the fight against impunity until it reaches the main human rights courts To finalize it discusses the inclusion of the right to truth in the International Convention on the Protection of All Persons from Enforced Disappearance and the measures more commonly used to realize such right In the book it is concluded that the right to truth carries a singularity that is crucial for the protection of victims of gross human rights violations

*Marcos Against the Church* Robert Youngblood,2019-05-15 The election of Ferdinand Marcos to the presidency of the Republic of the Philippines coincided with the conclusion of the work of Vatican II in 1965 and Marcos s dictatorial policies would inevitably clash with the Vatican s call for the clergy to advocate greater social justice for the poor In this authoritative account of the role of the Catholic Church in the recent history of the Philippines Robert L Youngblood traces the political engagement of the Church over the twenty years between Marcos s election and his ouster from power in 1986 Drawing upon extensive research Youngblood explains how although church and state professed to share the goal of improving the welfare of the poor Marcos s economic development policies and oppressive rule created church opposition which helped accelerate the collapse of his regime Youngblood considers the evolution of church programs from social action projects such as the organization of cooperatives and credit unions to the development of social justice programs that emphasized the creation of more democratic and caring communities He examines the dynamics by which the leaders of the Philippine Roman Catholic and Protestant churches moved from a brief period of goodwill toward the Marcos dictatorship to considerable opposition by the late 1970s as church sponsored work among the poor was increasingly viewed by the regime as subversive Youngblood shows that after the assassination of Benigno Aquino Jr in 1983 the deterioration of the standard of living of average Filipinos along with Marcos s repressive policies toward the churches and other abuses in the name of national security were factors which impelled powerful church

figures to actively oppose the dictatorship Tracing the internal deliberations of the Philippine churches as they came to take the lead in opposing human rights abuses Marcos against the Church deepens our understanding of problematic relations between church and state Historians and social scientists interested in the Philippines and modern Southeast Asia historians of religion political scientists working in comparative politics and political development and others concerned with issues of human rights will want to read it

**Adapting International Criminal Justice in Southeast Asia** Emma Palmer, 2020-05-14 How is international criminal law adapted across time and space Which actors are involved and how do those actors seek to prosecute atrocity crimes States in Southeast Asia exhibit a range of adapted approaches toward prosecuting international crimes By examining engagement with international criminal justice especially in Cambodia the Philippines Indonesia and Myanmar this book offers a fresh and comprehensive approach to the study of international criminal law in the region It nuances categories of the global and local and demonstrates how norms can be adapted in multiple spatial and temporal directions beyond the International Criminal Court It proposes a shift in the focus of those interested in international criminal justice toward recognising the opportunities and expertise presented by existing adaptive responses to international crimes This book will appeal to scholars practitioners and advocates interested in international criminal law international relations transitional justice civil society and law in Southeast Asia

**Country Reports on Human Rights Practices**, 1985 **Foreign Assistance Authorization** United States. Congress. Senate. Foreign Relations, 1975 *Foreign Assistance Authorization, Examination of U.S. Foreign Aid Programs and Policies* United States. Congress. Senate. Committee on Foreign Relations. Subcommittee on Foreign Assistance, 1975 Democratic Transition

and Human Rights Sara Steinmetz, 1994-05-24 This book analyzes U S foreign policy in relation to human rights and democratic development abroad Its purpose is to determine if and how human rights policies or their neglect have led to Realpolitik successes for the United States In addition it addresses the issue of how Washington might best respond to challenges in which a choice apparently must be made between support for democracy and preservation of U S national interests Through a comparative analysis of Iran under the Shah Nicaragua under the Somozas and the Philippines under Marcos Steinmetz evaluates the effectiveness of American priorities in authoritarian states that were perceived to protect U S interests Rejecting the policy prescriptions of the neoconservative and neorealist schools she concludes that protection of human rights abroad is desirable not because of its moral implications per se but because of its positive contributions to the preservation of U S national interests
