**Reviving Intellectual Intuition in Metaphysics** Kenneth Rose, 2024-11-28 Calling for a revival of intellectual intuition in metaphysics long after its banning by Kant Kenneth Rose overcomes the forgetfulness of being through contemplative ontology Rose argues for the reinstatement of intellectual intuition in metaphysics long after its banning by Kant His claim is not merely the conclusion of a thought experiment or of an exercise in conceptual analysis It is the result of the contemplative recognition of being with a meditatively concentrated intellect nous in Greek and buddhi in Sanskrit Recognizing intellectual intuition as a long neglected faculty of philosophical insight Rose shows how it can result in an immediate intuitive discerning of being He discusses how being parcels itself out into the intellectual forms providing the underlying nonphysical arrangement of the physical and mental worlds By reviving the use of intellectual intuition in metaphysics Rose draws upon historical sources across multiple Asian and Anglo European philosophical schools This is a work of contemplative constructive philosophy that breaks down divisions between science philosophy and religion and between diverse cultures and divergent worldviews

Narrating Friendship and the British Novel, 1760-1830 Katrin Berndt, 2016-10-14 Friendship has always been a universal category of human relationships and an influential motif in literature but it is rarely discussed as a theme in its own right In her study of how friendship gives direction and shape to new ideas and novel strategies of plot character formation and style in the British novel from the 1760s to the 1830s Katrin Berndt argues that friendship functions as a literary expression of philosophical values in a genre that explores the psychology and the interactions of the individual in modern society In the literary historical period in which the novel became established as a modern genre friend characters were omnipresent reflecting enlightenment philosophy s definition of friendship as a bond that civilized public and private interactions and was considered essential for the attainment of happiness Berndt s analyses of genre defining novels by Frances Brooke Mary

Shelley Sarah Scott Helen Maria Williams Charlotte Lennox Walter Scott Jane Austen and Maria Edgeworth show that the significance of friendship and the increasing variety of novelistic forms and topics represent an overlooked dynamic in the novel's literary history. Contributing to our understanding of the complex interplay of philosophical socio cultural and literary discourses that shaped British fiction in the later Hanoverian decades Berndt's book demonstrates that novels have conceived the modern individual not in opposition to but in interaction with society continuing Enlightenment debates about how to share the lives and the experiences of others.

## Enjoying the Beat of Expression: An Psychological Symphony within **Philips Encyclopedia 2001**

In some sort of taken by displays and the ceaseless chatter of fast communication, the melodic beauty and psychological symphony developed by the published word usually diminish in to the back ground, eclipsed by the constant noise and disturbances that permeate our lives. But, nestled within the pages of **Philips Encyclopedia 2001** a marvelous literary prize full of fresh emotions, lies an immersive symphony waiting to be embraced. Constructed by an outstanding composer of language, that interesting masterpiece conducts readers on a psychological trip, skillfully unraveling the concealed tunes and profound affect resonating within each carefully constructed phrase. Within the depths with this touching evaluation, we shall discover the book is key harmonies, analyze their enthralling writing model, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
