## **Philosopher Queen Feminist Essays On War Love And Knowledge:**

*The Philosopher Queen* Chris J. Cuomo, 2003 The search for an ethic that is joyful and life loving yet politically and scientifically realistic is at the root of Cuomo's recent philosophy      Discovering Feminist Philosophy Robin May Schott, 2003 Discovering Feminist Philosophy provides an accessible introduction to the central issues in feminist philosophy At the same time it answers current objections to feminism arguing that in today's world it is as compelling as ever to probe the impact of the dualism of the sexes This unique book is equal parts survey viewpoint and scholarship ideal for anyone seeking to understand the current and future role of feminist philosophy      **Global Feminist Ethics** Peggy DesAutels, Rebecca Whisnant, 2010 This volume is fourth in the series of annuals created under the auspices of The Association for Feminist Ethics and Social Theory FEAST The topics covered herein from peacekeeping and terrorism to sex trafficking and women's paid labor to poverty and religious fundamentalism are vital to women and to feminist movements throughout the world      **Feminist Interventions in Ethics and Politics** Jean Keller, Barbara S. Andrew, Lisa H. Schwartzman, 2005-03-22 This collection breaks new ground in four key areas of feminist social thought the sex gender debates challenges to liberalism equality feminist ethics and feminist perspectives on global ethics and politics in the 21st century Altogether the essays provide an innovative look at feminist philosophy while making substantive contributions to current debates in gender theory ethics and political thought      *Varieties of Feminist Liberalism* Amy R. Baehr, 2004-04-05 The essays in this volume present versions of feminism that are explicitly liberal or versions of liberalism that are explicitly feminist By bringing together some of the most respected and well known scholars in mainstream political philosophy today Amy R Baehr challenges the reader to reconsider the dominant view that liberalism and feminism are incompatible Visit our website for sample chapters      **Being Yourself** Diana Tietjens Meyers, 2004-02-23 Being yourself living a life that is truly your own that expresses your unique personality and your distinctive values Many people want to live such a life Being Yourself asks what it takes to do so It examines questions about the self the individual who acts together with questions about self expression the relations between the self and action It explains self knowledge and self direction in terms of a repertory of skills that gives people insight into who they are who they want to be and how they want to engage with the world Unlike other accounts of self and action Being Yourself takes into account the multidimensionality of the self embodiment interpersonal ties nonconscious desires and enculturation as well as rationality It accents the ways in which atypical emotional responses empathy and oppositional imagery can contribute to moral understanding It argues that repressive regimes cannot completely crush people's determination to live lives of their own but it shows why it is vital to seek social changes that dismantle obstacles to this kind of life      **Being Yourself** Diana T. Meyers, 2004 Meyers philosophy U of Connecticut Storrs presents a collection of essays exploring how to live a life that expresses one's own unique personality and distinctive values nine of the 13 essays were previously published between 1987 and 2003 Coverage includes

autonomous action and its bearing on gender women's subordination and women's resis      Disability Bioethics Jackie Leach Scully, 2008-08-15 This book reconceives disability as a set of social relations and practices as experienced embodiment and as an emancipatory movement as well as a biomedical phenomenon The author brings new attention to complex ethical questions surrounding disability looking at not only      **Relational Remembering** Sue Campbell, 2003-10-07 Tracing the impact of the memory wars on science and culture Relational Remembering offers a vigorous philosophical challenge to the contemporary skepticism about memory that is their legacy Campbell's work provides a close conceptual analysis of the strategies used to challenge women's memories particularly those meant to provoke a general social alarm about suggestibility Sue Campbell argues that we cannot come to an adequate understanding of the nature and value of memory through a distorted view of rememberers The harmful stereotypes of women's passivity and instability that have repopulated discussions of abuse have led many theorists to regard the social dimensions of remembering only negatively as a threat or contaminant to memory integrity Such models of memory cannot help us grasp the nature of harms linked to oppression as these models imply that changed group understandings of the past are incompatible with the integrity of personal memory Campbell uses the false memory debates to defend a feminist reconceptualization of personal memory as relational social and subject to politics Memory is analyzed as a complex of cognitive abilities and social narrative activities where one's success or failure as a rememberer is both affected by one's social location and has profound ramifications for one's cultural status as a moral agent      Socializing Care Maurice Hamington, Dorothy C. Miller, 2006-01-10 Criticism is often levied that care ethics is too narrow in scope and fails to extend to issues of social justice Socializing Care attempts to dispel that criticism Contributors to the volume demonstrate how the ethics of care factors into a variety of social policies and institutions and can indeed be useful in thinking about a number of different social problems Divided into two sections the first looks at care as a model for an evaluative framework that rethinks social institutions liberal society and citizenship at a basic conceptual level The second explores care values in the context of specific social practices like live kidney donations or settings like long term care as a framework that should guide thinking Ultimately this collection demonstrates how society would benefit from a more serious engagement with care ethics      *Moral Psychology* Margaret Urban Walker, Peggy DesAutels, 2004-07-29 Moral psychology studies the features of cognition judgement perception and emotion that make human beings capable of moral action Perspectives from feminist and race theory immensely enrich moral psychology Writers who take these perspectives ask questions about mind feeling and action in contexts of social difference and unequal power and opportunity These essays by a distinguished international cast of philosophers explore moral psychology as it connects to social life scientific studies and literature      **Moral Psychology** Peggy DesAutels, Margaret Urban Walker, 2004-07-29 Moral psychology studies the features of cognition judgement perception and emotion that make human beings capable of moral action Perspectives from feminist and race theory immensely enrich moral psychology Writers who take these perspectives

ask questions about mind feeling and action in contexts of social difference and unequal power and opportunity These essays by a distinguished international cast of philosophers explore moral psychology as it connects to social life scientific studies and literature

*The Other Within* Fredrika Scarth,2004-11-22 In *The Other Within* Fredrika Scarth builds upon the recent studies that have surfaced as part of the Simone de Beauvoir renaissance to offer a reading of *The Second Sex* as an ethical text Scarth provides us with a unique and enlightening study of Beauvoir's writing on the female body and in particular on maternity as an important piece of Beauvoir's writing Unlike other feminist scholars who find in Beauvoir's writing a horror and repudiation of motherhood Scarth argues that Beauvoir's writing on maternity can open up new possibilities of embodied subjectivity and agency and can found a truly ethical relationship with the other

**Telling Our Lives** Frida Kerner Furman,Linda Williamson Nelson,Elizabeth A. Kelly,2005-06-09 *Telling Our Lives* explores how three working class women from Jewish African American and Irish American backgrounds connect across their differences through storytelling and conversation Three distinct voices intertwine in this book as the authors now college professors discuss family legacies of diaspora and dislocation analyzing how these have shaped their personal and professional lives Social class ethnicity gender sexuality and spirituality intersect and diverge in these pages as the authors reflect on how they have been enriched and transformed by the relationships forged in the process of storytelling

*Pornography Embodied* Joan Mason-Grant,2004-03-12 What does it mean to conceptualize pornography as a material practice rather than as speech Mason Grant argues that this idea fundamental to the work of Andrea Dworkin and Catharine MacKinnon has been obscured in legal wrangling and political polarization over their civil ordinance Within the arena of legal argument where the principle of free speech holds sway for progressive thinkers their analysis of pornography is rendered at worse an apology for censorship and at best an argument about the social force of speech rather than recognized as a fundamental challenge to the very idea of pornography as speech In this book Mason Grant first shows how the persistent speech paradigm inevitably obscures the innovative core of the Dworkin MacKinnon critique of mainstream pornography She then develops an alternative practice paradigm that critically engages their analysis capturing and extending its core insights about the role of pornography in sexual practice Drawing on phenomenology of the lived body this alternative paradigm provides a way of rethinking how the pervasive use of mass market heterosexual pornography contributes to the cultivation of an embodied and tacit sexual know how that is subordinating and raises important questions about alternative materials produced and used by sexual minorities In her conclusion Mason Grant considers the implications of her analysis not for law but for a critical pedagogy in youth sexuality education

Groenhout,2004-03-27 *Connected Lives* examines the account of human nature that is implicit in an ethics of care a picture of human lives that emphasizes interdependency embodiment and social connectedness The book makes important connections to the picture of human life found in theorists of love such as St Augustine and Emmanuel Levinas and shows that when care theory is articulated clearly it provides resources for thinking through some of the difficult moral issues we face in the contemporary world issues such as assisted reproduction and the new genetic technologies Women in

Agriculture Worldwide Amber Fletcher,Wendee Kubik,2016-07-01 Over the past two decades existing documentation of women in the agricultural sector has surveyed topics such as agricultural restructuring and land reform international trade agreements and food trade land ownership and rural development and rural feminisms Many studies have focused on either the high income countries of the global North or the low income countries of the global South This separation suggests that the North has little to learn from the South or that there is little shared commonality across the global dividing line Fletcher and Kubik cross this political economic and ideological division by drawing together authors from 5 continents They discuss the situation for women in agriculture in 13 countries worldwide with two chapters that cover international contexts The authors blur the boundaries between academic and organizational authors and their contributors include university based researchers gender experts development consultants and staff of agricultural research centers and international organizations i e Oxfam the United Nations World Food Program The common thread connecting these diverse authors is an emphasis on practical and concrete solutions to address the challenges such as lack of access to resources and infrastructure

lack of household decision making power and gender biases in policymaking and leadership still faced by women in agriculture around the world Ongoing issues in climate change will exacerbate many of these issues and several chapters also address environment and sustainability This book is of great interest to readers in the areas of gender studies agriculture policy studies environmental studies development and international studies     Why Privacy Isn't Everything Anita L. Allen, 2003 Accountability protects public health and safety facilitates law enforcement and enhances national security but it is much more than a bureaucratic concern for corporations public administrators and the criminal justice system In Why Privacy Isn't Everything Anita L. Allen provides a highly original treatment of neglected issues affecting the intimacies of everyday life and freshly examines how a preeminent liberal society accommodates the competing demands of vital privacy and vital accountability for personal matters Thus None of your business is at times the wrong thing to say as much of what appears to be self regarding conduct has implications for others that should have some bearing on how a person chooses to act The book addresses such questions as What does it mean to be accountable for conduct For what personal matters am I accountable and to whom Allen concludes that the sticky webs of accountability that encase ordinary life are flexible enough to accommodate egalitarian moral legal and social practices that are highly consistent with contemporary feminist reconstructions of liberalism
